EPOCHS

The year 5696 of the Jewish Era begins at sunset on September 27, 1935, Gregorian Calendar.

The year 1354 of the Mohammedan Era, or the era of the Hegira, begins at sunset on April 4, 1935, Gregorian Calendar.

The 26th year of the reign of King George V. begins May 6, 1935.

January 1st, 1935, Julian Calendar, corresponds to Jan. 14th, 1935, Gregorian Calendar.

The 69th year of the Dominion of Canada begins July 1st, 1935.

The 160th year of the Independence of the United States begins on July 4th, 1935.

The 1st day of January 1935 is the 2,427,804th day since the commencement of the Julian Period, Gregorian Calendar.

THE CALENDAR

The Julian Calendar

The difference at the present date between what is known as the "Old Style" and the "New Style" Calendars is 13 days. To understand how this difference arises it must be remembered that the Solar Year consists of 365 days, 5 hours, 48 minutes, 48 seconds. In the Calendar known as the Julian Calendar—arranged B.C. 47 by Julius Caesar, guided by his astronomer, Sosigenes—the year was taken as being $365\frac{1}{4}$ days, and in order to get rid of the odd quarter of a day, an extra or intercalary day was added once in every fourth year, and this was called Bissextile or Leap Year. The Calendar so arranged is known as the "Old Style" and is now used in Russia, and by the Eastern Orthodox Church in Russia, Ukraina, Syria and Palestine.

The Gregorian Calendar

But as the Solar Year is 11 minutes, 12 seconds less than the Julian Year of $365\frac{1}{4}$ days, it followed in course of years that the Julian Calendar became inaccurate by several days, and in 1582 this difference amounted to 10 days. Pope Gregory XIII, at the suggestion of Aloysius Lilius, an astronomer of Naples, determined to rectify this, and devised the Calendar now known as the Gregorian Calendar. He dropped or cancelled these 10 days—October 5th being called October 15th—and made centurial years Leap years only once in 4 centuries; so that whilst 1700, 1800 and 1900 were to be ordinary years, 2000 would be Leap year. This modification brought the Gregorian year into such close exactitude with the Solar year that there is only a difference of 26 seconds, which amounts to a day in 3,323 years. This is the "New Style." It was ordered by Act of Parliament to be adopted in England in 1752—170 years after its formation—and is now used throughout the civilized world with the single exception already named.

The difference between the two "Styles" will remain 13 days until A.D. 2100.

The Jewish Calendar

The Jewish Calendar from the institution of the Mosaic Law downward was a lunar one, consisting of twelve months. The cycles of religious feasts commencing with the passover depending not only on the month but on the Moon; the 14th of the month of Abid or Nisan was coincident with the full moon; and the new moons themselves were the occasions of regular festivals; the commencement of the month was generally determined by observations of the new moon, but twelve lunar months would make but $354\frac{1}{2}$ days, the years would be short twelve days of the true year and it was necessary that an additional month Veadar, be inserted about every third year.

In the modern Jewish Calendar the intercalary month is introduced seven times in every nineteen years, following the month Adar.

The identification of the Jewish months with our own cannot be effected with precision on account of the variations existing between the lunar and solar month. The Jewish Calendar is given on page 30.

The Mohammedan Calendar

The Mohammedan Calendar is called also the Calendar of Hegira (i.e. Migration) and is attributed to the primary migration of Mohammed, the Prophet of Islam, on September 20th, 622 A.D., from Mecca, his native city in the land of Hejaz, Arabia, to the city of Medina in the north of the same land. In Medina the Prophet and Founder of the Islamic Faith died and was buried.

The Mohammedan Calendar is observed by all the Moslems in Arabia, Yemen, Iraq, Transjordan, Persia, Afghanistan, India, Syria, Palestine, Egypt, Tripoli, Tunis, Algeria, Morocco, and in Turkey both Asiatic and European.

The year 1353, according to the Hegira Calendar, began on April 15th, 1934.

Other Calendars in use

Other calendars in use at the present day, in addition to those above, include the Coptic, Hindu, Persian.

Proposed New Calendar

A special Committee of Enquiry of the League of Nations was appointed after the war to consider the matter of Calendar Reform. Many schemes have been considered by this committee. The plan which has received the most publicity is one which is said to have originated in 1888 with Moses B. Cotsworth, an English railroad statistician, and latterly advocated by Mr. George Eastman of Rochester N.Y. This provides for thirteen months of twenty-eight days each, totalling three hundred and sixty-four days. The 365th day would be placed between the end of December and the 1st of January, called "Year Day." In leap year the second extra day would be in June.

Under this scheme January 1st would fall on Sunday and every date throughout the year would always fall on the same week day.

The Week

The division of the week is found only among Aryan nations and in regions into which they have penetrated. The day is, for convenience, divided into 24 equal parts and is the period of a single rotation of the earth upon its own axis.

A Solar or Astronomical day commences at mid-night, and is divided into two equal portions of 12 hours each—those before noon being termed (A.M.) those after noon (P.M.).

The Chinese week consists of 5 days, which are named after iron, wood, water, feathers and earth; they divide the day into 12 parts of 2 hours each.

The Anglo-Saxons named the days of the week after the following Dieties; Sunday, the Sun; Monday, the Moon; Tuesday, Tiesco (God of War); Wednesday, Woden (God of Storms); Thursday, Thor (God of Thunder); Friday, Freya, (Goddess of Love); Saturday, Saturn (God of Time).

The word Week is from Wikon (German); = change, succession.

STAR TABLE

From the times of the upper transit of the Pole Star may be derived, with the aid of the following Table, the approximate times of the culmination, and of the rising and setting of the principal fixed stars, as seen from the parallel of 45° north latitude.

To ascertain when any star found in the following Table will be on the meridian, *add* the number in the left-hand column of figures to the meridian transit of the Pole Star given in the calendar, and from the result *subtract* the constant quantity 1h. 38m.

To find the time of *rising* of the star, *subtract* the number opposite to it in the right-hand column of figures from the time of its meridian passage. For

the *setting*, *add* the same number to the time of its meridian passage. Those stars marked (....) revolve in a circle of perpetual apparition, and do not rise or set at places in and to the north of latitude 45°.

Example.— Find the time of culmination, of *a Tauri* (*Aldebaran*), January 1st, 1935.

EXPLANATION OF THE ARTICLES IN THE CALENDAR

(See Pages 36 to 47)

The Standard times of the *RISING* AND *SETTING* of the upper limbs of the Sun and Moon are given for Toronto, Quebec and Winnipeg. For places not differing much from them in latitude add four minutes for every degree west, and subtract four minutes for every degree east. (Midnight = 0.)

The column, *SUN ON MERIDIAN*, gives the time that a watch keeping local mean time should show when the shadow of a sun dial is on the noon mark in Longitude 5 h. 8m. W (77° 0').

MOON'S AGE.—This column shows the Moon's Age at mean noon in longitude 5 h. 8m. (77° 0') W.

The column, *UPPER TRANSIT OF POLE STAR*, shows for every day the mean time at which the Pole Star makes its upper transit across the meridian of longitude 5h. 8m. W. It passes the meridian on October 17th, twice.

The lower transit of the Pole Star occurs 11h. 58m. 2s. after the preceding upper transit.

SUN DIALS.—In connection with the use of Sun Dials the column, *SIDEREAL TIME SUN ON MERIDIAN*, gives the Sidereal Time when the Sun's centre is on the meridian of longitude 5h. 8m. W. (77°). For other meridians, interpolation of these quantities is necessary. Example, October 10th, 1935, find the Sidereal Time when the Sun's centre is on the 81st meridian. Here the difference in longitude is 4°. The tabulated Sidereal Time on the 10th is 13h. 0m. 33s., and on the 11th, 13h. 4m. 19s., giving an increase of 221 seconds which, multiplied by 4 and divided by 360 gives a correction of 2.5 secs. to be added to 13h. 0m. 33s.

MOON'S PHASES.—This Table gives times (75th meridian) when the Moon passes the geocentric longitudes of 0°, 90°, 135° and 270° east of the sun. It also gives the times of her greatest and least distance from the earth.

METEORS OR "SHOOTING STARS"

By W. E. W. JACKSON, M.A.

Occasionally, on a clear night, one is startled by a flash of light across the sky. This is the well known phenomenon of the "falling" or "shooting star." Sometimes in a tremendous blaze and with a great rushing sound a mass of stone or metal hurls itself at the earth. Usually it breaks itself into many fragments and these when found are called meteorites, Aerolites, Bolides or Meteoric stones. They are really all one and the same thing, Meteors.

Meteors are particles of matter of various sizes and compositions belonging to the solar system and revolving in regular orbits about the sun. Usually the orbits are very elliptical and the meteors are bunched together. When the earth meets such a group, we have the shower of shooting stars. On such occasions instead of appearing at random in the sky at intervals of minutes they appear in showers of thousands and their paths diverge or radiate from a single point in the sky called the radiant.

The radiant is explained as an effect of perspective. The meteors are all moving in paths nearly parallel to each other and when encountered by the earth the radiant is simply the perspective, "vanishing point". Its position remains nearly unchanged among the stars and this fact has been used in naming the various swarms of meteors after the constellation in which the radiant point is situated. Thus we have the Leonids, or meteors whose radiant is in the constellation Leo, the Perseids, the Andromedes, etc.

Probably the most remarkable meteor shower that ever occurred was that of the Leonids on November 12, 1833. The numbers of meteors seen from some stations was estimated as high as 100,000 an hour or five or six hours. "The sky was as full of them as

it ever is of snowflakes in a storm". It was pointed out at that time that the meteors must be numbers of a swarm of bodies revolving about the sun in a permanent orbit. In 1864 Professor Newton showed, after examination of old records, that there had been a number of great meteoric showers about the middle of November at intervals of thirty-three or thirty-four years and he predicted a repetition of the 1833 shower on November 13 or 14, 1866. It occurred as predicted and verified his theories. It was confidently expected in 1899 or 1900, but failed to appear, though minor showers were reported in 1901 and the three following years. Again in 1932 it was looked for but only minor showers were recorded. This failure is attributed to perturbations produced by the near approach of the meteor path to the planets Jupiter and Saturn since 1866.

Within a few weeks after the shower of 1866 it was shown that the orbit pursued by these meteors was identical with Tempel's comet, and a little later the Perseids were shown to move in an orbit identical with the comet of 1862. Five years later the Andromedes were found to follow the track of Biela's comet and now many others have been identified with special comets. It is no longer possible to doubt that there is a real and close connection between comets and meteors.

The main swarms and their times of occurrence are as follows:

Perseids, annually, August 11, 12

Leonids, maximum every 33 years, Nov. 14, 15.

Andromedes, maximum every 13 years, Nov. 24.

Geminids, December 11

Orionids, October 19.

STANDARD TIME ZONES IN CANADA

Owing to the great breadth of the Dominion the difference in Solar time in various parts of the country is adjusted by the creation of Standard Time Zones or Belts fixed between arbitrary lines running north and south.

- There are five such zones divided as follows, reckoning from Greenwich:
- Atlantic Time
60th Meridian Time

Saint John, N.B. and eastward, including Nova Scotia and Prince Edward Isld,
4 hours slow.
- Eastern Time
75th Meridian Time

Westward from, but not including Saint John, N.B., through Quebec and Ontario as far as, but not including Fort William, 5 hours slow.
- Central Time
90th Meridian Time

Ontario, from and including Fort William and west through Manitoba and Saskatchewan as far as Broadview, Arcola, Estevan, 6 hours slow.
- Mountain Time
105th Meridian Time

Saskatchewan from Broadview, Arcola, North Portal and westward; Alberta and British Columbia to Field, Crowsnest, 7 hours slow.
- Pacific Time
120th Meridian Time

British Columbia from Field, Crowsnest and west to the Pacific Coast, 8 hours slow.

The Standard Times as adopted by the railways in traversing these zones are in general use throughout Canada. Solar time around the Globe varies 4 minutes with each degree of longitude.

DAYLIGHT SAVING OR SUMMER TIME

Daylight-Saving Time in Canada is a matter of local regulation. Railways run on Standard Time. Many cities and towns adopt Daylight-Saving Time for the summer months, especially in the east, but probably most towns and rural communities throughout the Dominion observe normal (Standard) time.

In the United States some of the cities have Daylight-Saving Time, but its observance is not uniform.

In Europe, Summer Time (Daylight-Saving) extending approximately from the beginning of April to the beginning of October is in force by law in Great Britain (where it was originally enacted in 1916), in Belgium, Finland, France (only certain parts), Greece, Holland, the Irish Free State, Portugal and Roumania.

LEGAL WEIGHTS AND MEASURES IN CANADA

FRUIT AND VEGETABLE REGULATIONS

In Canada the law provides, with respect to weights, that the unit shall be the standard pound (avoirdupois) of 7,000 grains, one-sixteenth part of the standard pound shall be an ounce ($437\frac{1}{2}$ grains), one hundred pounds a cental, and two thousand pounds a ton, and that four hundred and eighty grains shall be an ounce troy. As regards measures—That the unit or standard measure of capacity, as well for liquids as for dry measures, shall be the gallon, containing ten standard pounds of distilled water, weighed with the water and air at a temperature of sixty-two degrees Fahrenheit with the barometer at thirty inches, the quart shall be one-fourth part of a gallon, and the pint one-eighth part of the gallon, and eight gallons shall be a bushel.

This gallon, commonly known as the "Imperial gallon," contains 277.41 cubic inches.

The standard measure of length is the yard, one-third part of which it is provided shall be a foot, and the twelfth part of such foot shall be an inch.

IMPERIAL MEASURE

Special note should be made of the fact that certain standards of weights and measures used in some of the states of the United States are not legal, though frequently used, in Canada. These standards are not so large, being about 16.6 per cent. smaller in capacity than the legal standards in Canada, i.e., the Imperial pint, quart and gallon. Imperial measure is 20% larger than U.S. measure.

The following tables show principal regulations in Canada regarding Fruit, Root Vegetables and other commodities.

FRUIT

All barrels used for packing apples or pears shall contain as nearly as practicable 7056 cubic inches. Half-barrels shall contain as nearly as practicable, 3528 cubic inches.

EGGS

In 1933 new regulations respecting the grading and marking of eggs were put into effect by the Dominion Government. By 1934 these regulations had been proclaimed in all provinces and being in use throughout Canada, they are of general interest to consumers.

The Canadian standard grades for eggs are now as follows:—A1, A, B, C, — a candling definition being specified for each grade.

Grade A1.—The highest grade is Grade A1.—clean eggs, sound in shell, in three weights as follows:—

Grade A1, large: Eggs weighing individually at the rate of 24 oz. or more to the dozen.

Grade A1, medium: Eggs weighing individually at the rate of 22 to 24 oz. to the dozen.

Grade A1, pullet: Eggs weighing individually at the rate of 20 to 22 oz. to the dozen.

The words "New Laid" may be used only in conjunction with this grade.

Grade A.—The second grade is Grade A, clean eggs, sound in shell, in three weights,—large, medium and Pullet. The weight requirements for Large and Medium are the same as Grade A1. The weight for Grade A Pullet is at the rate of 18 to 22 oz. to the dozen.

Grade B.—The third grade is known as Grade B,—reasonably clean eggs, sound in shell.

Grade B large eggs must weigh individually at the rate of 24 oz. or more to the dozen.

Grade B medium,—22 to 24 oz. to the dozen.

Grade C.—The lowest grade is known as Grade C and comprises all eggs, including cracks and dirty or soiled eggs not permitted to be graded under Grades A and B, but which are still not of a condition unfit for human consumption.

Eggs in this category and weighing individually at the rate of less than 22 oz. to the dozen may be included in this grade.

New Laid.—The words "New Laid" shall be used only in conjunction with Grade A1.

Storage Eggs.—Cold stored eggs may be sold only in the appropriate grades B or C.

ELECTRICAL MEASURES

UNIT	FOR THE MEASURE OF:
Volt.....	Electromotive force = about 92.6% of that given by one Daniell's battery cell.
Ohm.....	Resistance = the resistance offered to the passage of a current of electricity by a thread of mercury 106 cm. long and 1 mm. cross section at the temperature of melting ice.
Ampere.....	Current = the current 1 volt will drive through 1 ohm.
Coulomb.....	Quantity = 1 ampere flowing for 1 second of time.
Micromfarad.....	Capacity = .000,001 coulomb at 1 volt pressure.
Watt.....	Power = 44 ft. lbs. per minute. 746 Watts = 1 Horse Power.
Henry.....	Induction = When the electromotive force in the circuit is 1 volt while the inducing current varies at the rate of 1 amp. per second.

MEASURES OF TIME

60 seconds.....	= 1 minute
60 minutes.....	= 1 hour
24 hours.....	= 1 day
7 days.....	= 1 week
52 weeks.....	= 1 year
12 months.....	= 1 year
365 days.....	= 1 year
366 days.....	= 1 leap-year
100 years.....	= 1 century

The mean solar year is equal to 365 days, 5 hrs. 48 min. 46 sec., or nearly $365\frac{1}{4}$ days.

Every year whose number is divisible by 4 is a leap year, unless the number of the year ends in two ciphers, in which case the number must be divisible by 400. Thus, 2000 and 2400 will be leap years, but 1900 was not a leap year.

Solar time around the Globe varies 4 minutes with each degree of longitude.

A temporary entry of such samples with properly certified invoices (or statements as provided for in section 2 hereof) annexed thereto, shall be presented to the Collector of National Revenue at the port of entry. The importer shall make and subscribe to a declaration on the face of the temporary entry that the goods described therein are bona fide samples for use only in taking orders for merchandise and are to be exported within twelve months.

(5) When the samples are marked by a Customs Officer for identification and the temporary entry duly completed, the Collector may issue his permission for the release of the samples upon receiving the required deposit from the importer, such permission to have a notation thereon that the money deposited with the temporary entry of samples is subject to refund under the provisions of these regulations, and an extra copy of the temporary entry and of the Collector's permission shall be delivered to the importer along with a copy of the invoice, so that the same may be presented to the Customs Officer at the port of exit when samples are exported.

(6) The deposit received with the temporary entry of samples shall be dealt with by the Collector in the same manner as Tourists' deposits, without, however, completion of Form E-29. Such temporary entries shall be numbered and filed in consecutive order.

(7) If all of the samples are not exported a deduction shall be made from the deposit equivalent to the duty and taxes payable on the samples not exported, which amount shall be taken to account as duty and taxes in the ordinary course, and the balance of the deposit may be refunded upon the exportation of the identified samples which are exported under Customs supervision as provided herein.

(8) In the case of travellers' samples, Customs Officers may allow British Preferential or most favoured nation rates, as the case may be, upon the declaration of the traveller as to the origin of the samples.

(10) The privileges provided for in sections 4 to 9, inclusive, of these regulations do not extend to articles which owing to their nature could not be identified upon exportation.

Seeds:—All importers of seeds, viz., clovers, grasses, vetches, rape, forage plants, field root, and garden vegetables, in lots of 10 lbs. or more, must submit a sample to be forwarded to the Government Seed Laboratory, Department of Agriculture, Ottawa, for test.

Sight entries are usually occasioned by defective invoices or no invoices at all. They are to be made

out in quadruplicate and the value of the importation must be so increased for duty as to be absolutely certain to protect the revenue. On receipt of corrected invoices a claim for refund may be submitted, but not after a period of six months, except by permission of the Department.

Goods of a class or kind which are made in Canada are subject to a special duty of the difference (not exceeding fifty per cent.) when the selling price to the purchaser in Canada is lower than the fair market values at time shipped.

Special duty exemptions. Special duty does not apply in the case of goods not made in Canada. If the home price at time shipped has been subject to sudden inflation the price at time of purchase may be accepted as the fair market value in the application of the duty. Invoices are required to show the fair market value at date of purchase.

Special duty does apply and without exemption allowance to articles of a class and kind made in Canada, even when admitted free of ordinary duty.

SPRITIOUS LIQUORS.

Value for duty is subject to the following general regulations:—

- (1) Home consumption price at time shipped.
- (2) Actual trade discount allowed not to reduce below home consumption price.
- (3) Commission for services rendered in the purchase of goods bought in the name and on the account of the importer and so invoiced and exported shall not be held as forming a part of the value for duty. All other commission charges are considered dutiable.
- (4) Price of goods as sold in bond not to be accepted for duty.
- (5) Foreign revenue duties to be added, but foreign export duties not to be added.

- (6) Value must be without condition as to sale.
- (7) Value for duty to be at the distributing point.
- (8) Must be the value on condition ready for shipment.
- (9) Bonus for early delivery must be considered part of value for duty.
- (10) Cash discount is not allowed off for Customs purposes.
- (11) Appraiser's valuation is to be accepted.
- (12) Articles of different kinds, the highest value is to be taken as the average for duty.
- (13) No allowance off for packages, straw, twine, etc. Valuation for duty on goods not sold for home consumption may, usually, be determined by ascertaining the total cost of producing the goods in condition ready for market and adding thereto the usual profits made on sales of a similar line of goods.

Waybills must show:—

- (1) Name and address of consignee.
- (2) Marks and number of packages.
- (3) Description of packages.
- (4) When goods are in bulk, the number of pieces, bundles or hushels.
- (5) In case of agricultural instruments, number and description of each class of instruments.

Wool and Hair:—All shipments of wool and hair coming into Canada via the United States are admitted without disinfection or certificates. All others, except from San Domingo, must be accompanied by a certificate to the satisfaction of the Veterinary Inspector or they will be held at the frontier until the consignee satisfies the Department of Agriculture that he has or can provide facilities for disinfecting. Disinfecting of wool or hair requires exposure to a heat of 185° F. for at least 15 minutes under the direction of the Veterinary Director-General.

CUSTOMS PROCEDURE, ETC.

EXPORTING TO THE UNITED STATES

The customs laws of the United States, governing the importation of goods, very materially differ from ours. They have no such thing as the manifesting system such as we have, and all merchandise is supposed to be entered at the first port of arrival. However, they have ports termed I.T. Ports (immediate transport ports) to which goods may be forwarded in bond, without appraisement at the frontier port. In this case the goods must be carefully marked "Forwarded in Bond."

Merchandise, in order to be entered under Immediate Transportation, without appraisement at the frontier, must be destined to a designated immediate transportation port, and must be hilled via a port at which merchandise may be entered for transportation to another port without appraisement.

These ports through which goods must be hilled and to which they must be consigned may be learned from the transportation company as the lists are too extensive to be given space here.

If goods are destined for a foreign country they are entirely under Transportation and Exportation entry in bond, in transit, for exportation from the seaboard port.

GOODS TO BE RETURNED TO THE U.S.

Merchants finding it necessary to return goods not according to order and wishing to obtain refund of duty will be required to make out four different forms to accompany the way bill when goods are shipped back. If shipment is over \$100.00 the forms are as follows:

1. "Foreign Owner's Oath" or "Oath of American Manufacture."
2. American Consular Certificate.
3. Export papers in triplicate.
4. One certified copy of Customs Incoming Manifest.

Where shipment is under \$100.00 the American Consular Certificate and Incoming Manifest are not required.

The intending consignee must send to the U.S. shipper for an affidavit on a prescribed form, mentioned above as the Oath of American Manufacture, declaring the goods to be of United States origin or manufacture, in order that the goods when returned may pass the U.S. Customs without duty.

When this affidavit is received it must be attached to the way bill by the transportation agent here and forwarded along with the goods. This will enable the United States Customs Officer at the frontier to recognize the goods as home manufacture and have them forwarded on to destination without duty. The original U.S. shipper may secure these forms at his customs, but a better way is for the intending consignee to secure a copy from the local express agent here and forward same to the U.S. firm with all necessary explanation as to line of procedure and thus avoid possible delay.

The American Consular Certificate forms must be obtained from the nearest American Consul, who will send blank forms in triplicate. These must be filled in as required and returned to the American Consul with his fee, when he will return one copy to the intending consignee, who will attach same to way bill with other documents mentioned.

Export entry, procurable from Customs Department, must be made out by consignee in triplicate and attached to way bill together with the Foreign Owner's Oath, Consular Certificate and Incoming Manifest. One copy will remain on file at the port of exit, the second copy goes to the Customs Department and the third copy will be returned by the Customs officer at the Canadian port of exit to the merchant who returned the goods. He will then attach it to the refund of duty claim along with a copy of the way bill as a guarantee that the goods have been returned.

BRITISH CUSTOMS

See Article and Table of British Customs Duties elsewhere in this Almanac; For further information enquire Department of Trade and Commerce, Ottawa.

EXPORTING TO OTHER COUNTRIES

Exporters requiring information regarding invoice forms and Customs Regulations of other countries, applying to goods exported from Canada, should write to Department of Trade and Commerce, Ottawa.

CURRENCY CERTIFICATE OF INVOICE

Importers should, when ordering goods from Britain or any foreign country, instruct the exporter

or salesman to always give the value of the goods in the home consumption column of the invoice, and to show the same in the currency of the country of export.

And the exporter should also be very carefully instructed to place on the invoice the currency certificate.

In respect of invoices of goods from Great Britain or from any country where the currency has not substantially depreciated the certificate of the exporter, showing the relative value of the paper currency in standard currency, as indicated by the form below, is accepted.

EXPORTER'S CERTIFICATE.

The fair market value for home consumption at time shipped, shown on this invoice, is £. . . s . . . d . . . (currency of country) in paper currency, and is equivalent to £. . . s . . . d . . . (currency of country), in gold sovereigns as compared with the Canadian dollar on basis of \$ to the pound Sterling.

Signed
(by exporter)

In other cases where the currency has substantially depreciated, there must be furnished a certificate, signed by a Consul or a Canada Trade Commissioner, or of a Bank, in the following form:—

CERTIFICATE OF CONSUL

Date

I certify that at the date of exportation of the goods described in the within or annexed invoice, the true value of the currency, in which the invoice is made out, as compared with the standard dollar of Canada, is at the rate of

(Dollars and Cents)

per
(Here give the unit of currency of Invoice).

GOODS SHORT LANDED

Merchants frequently find when a consignment of goods has arrived, that on comparison with the invoice or the way bill some of the goods are missing. In such a case duty must be paid on the entire face value of the invoice. If a whole package is missing it is only necessary after clearing the entire lot to accept what is termed a "short warrant" for the goods short landed. On the arrival of the stray goods it will simply be necessary to present this warrant to the Customs to secure their release.

But if on examination of the goods the importer finds part of contents of packages missing, he must, within 14 days notify the collector or the Customs Appraiser in writing of the missing goods.

The Appraiser will at once examine the shipment, and if satisfied that the goods reported on the invoice are not enclosed he will make a notation to that effect on the invoice. This notation will serve as a proof that duty has been paid, and enable the importer, at a subsequent date, to have the missing goods cleared without further duty on a value included in entry or to obtain a refund of duty if such is desired.

SETTLERS' EFFECTS ENTRY

Bona fide settlers have no difficulty in bringing their effects with them when entering Canada. They have simply to make affidavit that they have owned their effects for at least 6 months, and that they intend to become bona fide settlers in Canada. Settlers going to the United States must state under oath that they have owned their effects for at least one year, but are not required to come under any obligation to become permanent settlers. The Canadian has this advantage, that he can enter the United States for the season and take his effects with him, and not have them become liable for duty.

1. Automobiles manufactured abroad and not duty paid may be admitted into Canada under permit for touring purposes only, without the payment of duty thereon, subject to the following regulations:

The collector, if satisfied that the conditions stipulated in paragraphs (a) and (b) preceding are complied with, may admit the automobile without formal entry and may issue a tourist's permit in triplicate on Form E-50 amended, 1927, for a period not exceeding sixty days.

(a) Should a tourist who has been granted a sixty day permit, desire an extension not exceeding thirty days, he may apply therefor on Form E. 50-A (which may be obtained at any customs port or outport), to any Collector or Sub-Collector of National Revenue, who, upon being satisfied as to the bona fides of the applicant as a tourist and that the car will be used by him only for purposes of health or pleasure, may extend the permit for a further period of thirty days, notifying the port of issuance by one copy of E. 50-A, as directed thereon.

(b) If a tourist, who has been granted a permit for a vehicle under this section, desires to retain it in Canada for a period in excess of ninety days, he may, before the expiry of such permit, present the same to any Collector or Sub-collector of National Revenue, and on compliance with the provisions and subject to the conditions of Section 3 hereof, be granted a permit for a period not exceeding six months from the date of the importation of the vehicle.

(a) a cash deposit of \$25 and a bond executed by two residents of Canada on Form D-3 for an amount equivalent to the duty and taxes payable on the automobile, or

(b) the bond on Form D-3½ of a resident of Canada who has deposited with the collector or sub-collector at the port or outport the general guarantee of an incorporated guarantee company authorized to do business in Canada and whose bonds are acceptable to the Dominion Government, or

(d) a cash deposit equivalent to the duty and taxes payable on the automobile.

4. *Refund of Deposits, Cancellation of Bonds and Procedure in Default of Proof of Export.*—On exportation of the automobile under customs supervision within the period for which the permit was granted, the bond supplied shall be subject to cancellation and any cash deposits shall be subject to refund, as the case may be. In default of proof of exportation within the period stated on the permit, the provisions of the bond may be enforced or the cash deposit may be taken to account as customs duty on Entry Form B-16, and a similar entry is authorized in respect of cash proceeds realized from bonds.

5. *Temporary Admission, 24 Hours, at Ports and Outports on the Frontier only.*—In respect of automobiles entering Canada for a stay not exceeding 24 hours within the jurisdiction of the port or outport only, and not to proceed further, when the

collector or sub-collector is satisfied that conditions of sub-sections (a) and (b) of Section 1 are complied with, he is authorized to permit entry upon the owner surrendering his State license card, which will be returned to him on the return journey. In such cases, the use of Form E-50, Amended 1927, may be dispensed with.

GENERAL REGULATIONS

6. *Frequency of Issuance of Permits.*—No restriction is placed on the number of automobile permits which may be issued to a tourist under Section 2 for sixty days, but automobiles admitted into Canada under the provisions of Section 3, and exported, may not be re-imported for touring purposes within six months from the date of their exportation, nor may a permit be issued to the same person within that period for another automobile, unless full details in each particular case are submitted to the Department for consideration and special authority for an extension or renewal of the permit has been granted.

7. *Crossing and Recrossing Frontier During Period in which Tourists' Permits are Effective.*—During the period covered by the collector's permission on Form E-50 amended, the tourist, after having temporarily crossed the frontier into the United States, may re-enter Canada upon presenting the said permission at the frontier customs house; provided that the customs officer shall be satisfied as to the identity of the automobile and its outfit.

8. *Procedure Respecting Deposits.*—All moneys received from tourists as security for the return of their automobiles or other vehicles shall be deposited and held in a special account to the credit of the collector or sub-collector for return to the tourists on exportation of such vehicles, in order that such deposits may be returned to tourists without delay.

9. *Authorized Guarantee Companies.*—The guarantee companies listed in Circular 501-C have been licensed to do business in Canada, and only bonds of guarantee companies listed in Circular 501-C or subsequent circulars are to be accepted by collectors.

10. *Fees.*—No fee is to be collected from the owners of tourists' automobiles for customs attendance (on either regular days, Sundays or holidays), but for services rendered in connection with inward or outward reports of such vehicles outside of regular hours of service, customs officers are entitled to the regular overtime allowance as prescribed in the regulations governing extra services and overtime.

11. Automobiles of Canadian origin or duty paid in Canada may be exported temporarily for touring purposes outside of Canada under Permit Form C. 12 amended, conditional upon return to Canada within the period stated on the Collector's Permission without duty except upon the value of the repairs after allowing for wear and tear. The report inwards on the return of the tourist shall be in the form prescribed for that purpose on Form C. 12 amended. Where parties are known to the customs officer, they may be allowed to cross the frontier with their motor or other vehicles and return within one week subject only to the usual report, search, examination and inspection.

12. *Horses, Carriages, Etc., Exported for Exhibition Purposes by Residents of Canada.*—Horses, carriages and the harness thereof, of Canadian origin or duty paid in Canada, going into the United States temporarily for exhibition or racing purposes, may be re-admitted into Canada without duty, upon identification to the satisfaction of the Canadian Customs Officer at the frontier, provided they are returned within one year without change of ownership, subject to the following conditions, viz:—

(a) The horses, carriages and harness shall be duly reported outwards, in duplicate, at the frontier port of exit from Canada for temporary stay in United States, with such description of the horses, carriages and harness as will enable the Customs Officer to identify them on return to Canada.

(b) Duty is to be collected on the value of repairs made in United States to such carriages and harness, after allowing for "wear and tear."

TRAVELLERS' VEHICLES

13. *Carrying Passengers Only.*—Automobiles, motor trucks and other motor vehicles owned by British or foreign subjects, may enter Canada and return to the United States without payment of duty on such vehicles when employed in conveying passengers in transit across the frontier, provided they are employed only for through transportation of passengers (either or both ways) between a point or place in the United States and a point or place in Canada, subject to the conditions hereinafter stated.

(a) The vehicles shall be duly reported inwards at the Customs frontier port with such description, examination and valuation as will enable the customs officer to identify them on leaving the Dominion.

(b) A permit on Form E. 50-B may be issued by the collector or sub-collector on his being furnished with (1) a cash deposit equivalent to the duty and taxes payable on the vehicle, or (2) a bond on Form D. 3-B executed in Canada for a principal sum equivalent to the said duty and taxes, or (3) the special bond of an incorporated guarantee company authorized to do business in Canada on Form D. 3-A, or (4) the personal bond on Form D. 3 of a person in whose favour there has been filed at the port or outport the general bond of a guarantee company on Form D. 3-B.

(c) On exportation of the vehicle under customs supervision within a period of 30 days, the cash deposit shall be subject to refund or the bond to cancellation. In default of proof of such exportation within 30 days, the cash deposit may be taken to account as customs duty on Entry Form B. 16, and a similar entry is authorized in respect of cash proceeds realized from bonds.

14. *Carrying Goods.*—Automobiles, motor trucks and other highway vehicles owned by British or foreign subjects, carrying goods (dutiable or not) for delivery to a point in Canada may be admitted under travellers' vehicle permit Form E. 50-B, under the foregoing provisions, subject to due entry at customs at the frontier port of arrival of all goods to be so delivered and the payment of all duties and taxes to which such goods may be liable. If entry of the goods be not passed at the frontier, they may not be forwarded by such vehicle to an interior port for entry unless accounted for on a Highway Manifest, Form A-8, and accompanied by a customs officer to the port at which entry is to be passed, the salary, overtime and expenses of such officer to be repaid to the department by the parties accommodated.

TOURISTS' OUTFITS

1. *Temporary Admission.*—Persons visiting Canada for a limited period of time, for health or pleasure, may bring with them such articles of tourists' outfits or sportsmen's equipment as they may require while in Canada for their own use and not for gain or hire, upon reporting same to the Customs Officer at the Canadian frontier port of entry, subject to the following provisions:

(a) Guns, rifles (not including revolvers or pistols), fishing tackle, golf clubs, tennis racquets and cameras, previously used by a tourist and imported by him for his personal use and actually in his possession at the time of his arrival in Canada, and dogs and other animals imported by tourists solely for hunting purposes or as pets, may be admitted without deposit. The articles are required to be reported on Form E-29, as in the case of any other article comprising a tourist's outfit, with full particulars such as description, value and the amount of duty and taxes properly payable thereon, for purposes of identification on report outwards under customs supervision within six months. Form E-29 shall not be required, however, in respect of articles specified in this subsection brought in by a tourist arriving by highway who obtains a permit on Form E-50 for his automobile, in which case particulars of such articles as are exempt from deposit requirements shall be noted on the face of the E-50 permit.

(b) Canoes, outboard motors, tents, camp equipment, phonographs, radios, musical instruments, etc., brought in by a tourist for his personal use and not for gain or hire may be admitted after report on Form E-29, upon the collector being furnished with a cash deposit of a sum equivalent to the duty and taxes payable thereon, the deposit to be subject to refund if the articles be identified and exported at the customs port where reported inwards, or at another port, within six months from time of entry: Provided the articles be produced and their identity attested to before a Canadian customs officer at the place of export or before a customs officer, justice of the peace, or notary public, at a place outside of Canada.

2. *Report Form E-29.*—Form E-29 Amended, 1928, is approved, and is prepared to be completed in triplicate, the original to be retained at the issuing office and the duplicate and triplicate to be given to the tourist.

3. *Procedure Respecting Deposits.*—All moneys received from tourists as security for the return of their outfits shall be deposited and held in a special account to the credit of the collector or sub-collector for return to the tourists on exportation of their outfits. In order that such deposits may be returned to tourists without delay—except in the case of default to export their outfits within six months—sub-collectors receiving same will not make remittance thereof to the chief port. If such exportation be not made within six months, the money deposited for the articles is to be accounted for on Form B-16, as customs duties, and dealt with accordingly. When the duplicate or triplicate Form E-29 Amended, 1928, with the certificate of exportation thereon completed to the satisfaction of the customs officer at the port of entry, is delivered to the officer personally or by mail, the amount deposited may be paid to the tourist, personally or by mail, or otherwise as the tourist may direct.

ADDITIONAL ARTICLES TREATED AS TOURISTS' OUTFITS

Theatrical Scenery.—Theatrical scenery brought in by managers of theatrical exhibitions and used by them abroad, when to be used by them in Canada for such exhibition, and not by or for any other person nor for sale, may be admitted as in the case of tourists' outfits upon deposit of an amount equal to the duty and taxes with the customs officer at the port of entry, subject to a refund of such deposit if the scenery be exported within six months. The scenery is to be reported inwards on Form E-29 Amended, 1928, and the deposit dealt with in the same manner as deposits for tourists' outfits.

Theatrical Costumes.—Theatrical costumes being the personal property of the actor, when imported by him for his own use in theatrical exhibitions, and not for sale or for use by any other person, may be admitted free as travellers' baggage. Similar treatment may be accorded to theatrical costumes imported by foreign producing companies or proprietors of vaudeville acts when such costumes are owned or rented by such producing companies or proprietors of vaudeville acts and when used by them

or regular members of the importing company or troupe and not by any other person.

(a) Used theatrical costumes imported by Canadian Theatrical Companies or individual Canadian actors performing in such companies on rental and to be exported after temporary use in Canada, and used costumes brought in by promoters, actor managers or directors entering Canada with one or more costumes for use in the presentation of amateur or other performances for charitable or other institutions and to be exported after such temporary use, are dutiable. After an investigation into the value of such costumes at the time of importation, the Department has determined that \$2 per costume is the minimum amount of duty and taxes to which such costumes should be liable, having in view the average condition of used costumes, the lack of a basis upon which any fair market value in the country of production may be established and the temporary use only in Canada for which such costumes are imported.

(b) Costumes which do not come within the provisions of the preceding sections are dutiable under the ordinary provisions of the Customs Tariff.

5. *Motion Picture Cameras.*—Camera outfits for taking motion pictures of Canadian landscapes and industrial activities may be admitted as tourist outfit, provided the operator from abroad makes a declaration to the satisfaction of the customs collector at the port of entry to the effect that the camera outfit is for use in taking pictures of Canadian landscapes or industrial activities, and that the outfit and all the pictures taken therewith will be exported within six months from date of entry. The cameras and equipment shall be reported inwards on Form E-29 Amended, 1928, and the deposit shall be dealt with in the same manner as deposits for tourists' outfits.

TRAVELLERS' BAGGAGE

6. *General Provisions.*—Wearing apparel, articles of personal adornment, toilet articles and similar personal effects of persons arriving in Canada may be passed free, without entry at customs, as travellers' baggage, under the provisions of the Customs Tariff, but this provision shall include only such articles as actually accompany and are in the use of and as are necessary and appropriate for the wear and use of such persons for the immediate purpose of the journey and present comfort and convenience, and shall not be held to apply to merchandise or articles intended for other persons or for sale.

MERCHANDISE FOR SALE, WHEN BROUGHT INTO CANADA AS BAGGAGE, IS SUBJECT TO DUTY AND TO ENTRY AT CUSTOMS IN THE SAME MANNER AS GOODS IMPORTED BY FREIGHT OR EXPRESS.

7. *Cigars and Cigarettes in Personal Baggage of Non-Residents.*—Forty cigars or less and one hundred cigarettes or less, in open packages, found in the baggage of a traveller not being a resident of Canada, may be delivered free of duty.

8. *Additional Articles Treated as Travellers' Baggage.*—In addition to the articles provided for in the preceding section, the following articles may be admitted free as travellers' baggage, until otherwise ordered, viz:

(a) Usual tools of trade, occupation or employment of a workman previously used by him, if imported for his personal use and actually in his possession at the time of his arrival in Canada.

MUSICAL INSTRUMENTS, MOTION, STILL AND SOUND PICTURE APPARATUS, SLIDES AND FILMS.

10. The regulations governing the importation of musical instruments, motion, still and sound picture apparatus, slides and films have been consolidated, and hereafter Collectors and others concerned are to be guided by the following:

(a) *Musical Instruments.*—Musical instruments, the property of companies of musicians or individual non-resident concert artists entering Canada for the purpose of giving public or other concerts, may be admitted after report on Form E-29; upon the Collector being furnished with a

cash deposit in a sum equivalent to the duty and taxes payable thereon, the deposit to be subject to refund if the articles be identified and exported at the customs port where reported inwards, or at another port, within six months from the time of entry.

(b) Any Collector of Customs may permit any musical instrument to be imported and used on not more than two occasions within the limits of his own port under such precautions or provisions as he may consider necessary to secure the due exportation thereof immediately after such use, but no instrument or instruments so admitted shall be allowed to be moved to any other port without the collection of duty and sales tax properly payable thereon.

(a) *Motion, Still and Sound Picture Apparatus, Slides and Films.*—Motion and still picture projection apparatus or slides and films therefor, the property of persons or firms non-resident in Canada, to be used, in gratuitous exhibitions for non-commercial purposes may be admitted as provided in subsection (a) of section 1 hereof.

(b) Sound motion picture and motion picture camera outfits for taking sound motion or motion pictures of Canadian landscapes or industrial or other activities are dutiable each time of importation, without provision for refund upon subsequent exportation.

(c) Memorandum 197 and Supplements are hereby superseded.

A BRIEF SKETCH OF CANADA'S TARIFF HISTORY

With acknowledgments to MIGHT DIRECTORIES LIMITED

For 60 years after 1763, when Canada passed from the French to the British by the Treaty of Paris, her commerce was carried on almost exclusively with or through the United Kingdom, but in 1822 Great Britain made considerable concessions to United States traders in respect to Canadian trade. In 1846 she abolished preferences on Canadian wheat and in 1860 the last vestiges of preference on colonial products disappeared from the British tariff.

As a consequence, the Colonies which were by this time enjoying responsible government, could not any longer be refused the right to control their own commercial policy. This fact, as it concerned Canada, was emphasized in an important report prepared by Sir Alexander T. Galt in 1859, and forwarded to the British Government. The report went unchallenged

in the Mother Country and the setting up in Canada of a protective tariff was thus facilitated.

A reciprocity treaty between Canada and the United States was negotiated in 1854, becoming effective March 16th, 1855, and operating until March 17th, 1866, when it was terminated by the United States, partly because the new Canadian tariff of 1859 had shut her manufactured goods out of Canada. The denunciation of this treaty had a considerable effect in bringing about the Confederation of the British North American Colonies which, it was hoped, would absorb each other's products to a great extent.

Confederation (1867) abolished the tariff barriers then existing between the Provinces entering the Dominion and a general duty on most goods entering

Canada was effected in 1868. The percentage of duty on the total value of goods imported, both dutiable and free, was 12%, and ten years later (in 1878) was 13 $\frac{3}{4}$ %. In the following year the general election sanctioned the so-called "National Policy" which brought about a sharp increase in tariff when the general tariff average became 20 $\frac{1}{6}$ % and stood at 16% in 1901.

The Colonial Conference (the term previously applied to Imperial Conferences) held in Ottawa in 1894, carried a resolution in favour of an arrangement between Great Britain and her Colonies whereby the former should be given preferential treatment over foreigners. As a result a British Preferential tariff was established August 1st, 1898, consisting of a remission of 25% of the ordinary rate of duty. On July 1st, 1900, this was increased to 33 $\frac{1}{3}$ %. This method of preferences was abandoned in 1904 for a specially low rate of duty on almost all imported dutiable commodities.

In 1907 a new customs tariff was introduced, establishing three scales of duties:—British Preferential (the lowest), Intermediate and General. The intermediate tariff was set up as a basis for negotiations with foreign countries in the interest of Canadian trade.

Subsequently a number of treaties were made with certain countries. Under the "Franco-Canadian Convention of 1922" preferences were given to France and possessions. These resulted, under the provi-

sions of the most-favoured-nation agreements, in the benefits of the Convention applying also to Belgium, Italy, Netherlands, Norway and many other countries the "Franco-Canadian Convention" was abrogated on June 17th, 1932. On June 10th, 1933 the Canada-France Trade Agreement was brought into force whereby the natural or manufactured products originating in and coming from France and the French Colonies and Territories as mentioned in Schedules "C" and "D" enjoy the benefits of the Intermediate Tariff and such discounts as are mentioned in such schedules. By Order-in-Council (P.C. 2420) dated 2nd October, 1934, further concessions, under powers granted by Section 11, were added under the said Canada-France Agreement.

The Canada-West Indies trade agreement of 1925 gives advantages to trade with the various colonies in the West Indies. Other Treaties and Trade Agreements have been established in recent years, more particularly within the British Empire; viz., with New Zealand, Australia, Irish Free State and Africa; also with Belgium, Czechoslovakia, Austria, Germany, Finland, Spain and other countries. For details see pages 66 to 68.

At the Imperial Economic Conference at Ottawa opened on July 31st, 1932, trade agreements were negotiated between Great Britain and Canada and the other Dominions and Colonies, ratified by Parliament in November, 1932. These are in force at the present time (1934).

FLAGS FLOWN IN CANADA

(1) The Union Jack is the official Flag to be flown on land in Canada. It is the Flag to be flown by British subjects on land in all His Majesty's dominions.

(2) The Red Ensign, with the Arms of the Dominion of Canada in the fly, should be used only on Canadian registered merchant vessels.

(3) The Blue Ensign, with the Arms of the Dominion of Canada in the fly, is used on the Jack staff of all ships and vessels of the Royal Canadian Navy.

FOR SOUND INDUSTRY

Industry and trade are the means by which a country makes effective use of natural wealth. The Royal Bank has always been ready to encourage sound Canadian enterprise. It has maintained this attitude through many years of varying conditions.

THE
ROYAL BANK
OF CANADA
HEAD OFFICE, MONTREAL

BANKS IN CANADA AND THEIR BRANCHES

BANK OF CANADA

(November, 1934)

Following one of the recommendations contained in the report made to the Government in 1933 by the Royal Commission on Banking and Currency, headed by the Right Hon. Lord Macmillan, P.C., K.C., there was enacted by Parliament in the 1934 session, Chapter 43 of the Statutes of that year, incorporating the Bank of Canada as a central bank of issue and rediscount, it being expected that the institution will begin to function early in 1935.

The capital of the Bank (\$5,000,000) has been fully subscribed by the public and it will be under the management of a Board of Directors composed of a Governor, a Deputy Governor and seven directors with a measure of control exercised by the Government. Shares may be held only by or for the beneficial ownership of British subjects ordinarily resident in Canada or corporations organized under the laws of the Dominion of Canada or any province thereof and controlled by such subjects, and individual holdings are limited to fifty shares of a par value of \$50 each. Chartered banks, their directors, officers and employees are not permitted either directly or indirectly to hold shares of the Bank.

Dividends (cumulative) are not to exceed four and one-half per cent per annum and, after suitable provision for building up a reserve fund, all surplus profits shall be paid to the Receiver-General of Canada for the Consolidated Revenue Fund.

The bank's functions will be largely, though not entirely, regulative. It will, subject to the provisions of the Bank Act, have the sole right of note issue and will be required to maintain a reserve in gold coin and bullion of 25 per cent of the amount of its outstanding notes and deposit liabilities with, however, the proviso that such reserve requirements may be suspended by the Governor in Council upon request of the Board of Directors of the Bank for certain periods not exceeding in all one year without the sanction of Parliament. The Bank will be the custodian of the gold reserves heretofore held by the Treasury Department of the Government and there will also be transferred to it, subject to the provisions of the Bank Act, all gold coin or bullion owned by the chartered banks in Canada at the rate established by the Currency Act at the date of the transaction. The Bank will act as the fiscal agent of the Government of Canada and, by agreement, may also act as banker or fiscal agent of the government of any province.

CHARTERED BANKS

Chartered Banks in Canada are incorporated by Special Act of the Dominion Parliament and governed by the Bank Act (Chapter 21 of the Statutes of 1934), which continues in force the charters of such banks until July 1, 1944. The Act specifies clearly the transactions in which banks may or may not legally engage, and embodies regulations designed to ensure the proper conduct of the banks' affairs. They are prohibited from engaging in any trade or business, from loaning money on the security of or dealing in the shares of any bank and from loaning more than \$10,000.00 to any of their officers or clerks. They are also prohibited from lending upon the security of immovable property, although such may be taken as additional collateral for debts already contracted to a bank in the ordinary course of its business.

The banks are empowered to issue notes but the amount in circulation at any time shall not, after the Bank of Canada is authorized to commence business, exceed the amount of the unimpaired paid-up capital of the bank at that time, and on the first day of January in each year for a period of five years commencing January 1, 1936, the said maximum shall be reduced by five per cent and on the first day of January in each year for a period of five years commencing January 1, 1941, the said maximum shall be reduced by ten per cent and thereafter until Parliament further enacts the amount of notes of a bank in circulation shall not exceed 25 per cent of the amount of the unimpaired paid-up capital.

In the event of a bank suspending payment, the payment of notes in circulation is a first charge upon the assets of the bank. Notes are further secured by a Circulation Fund held by the Dominion Government. Each bank contributes to this fund an amount equal to 5% of its average circulation. If this fund were not sufficient, then each bank must make up the deficiency in proportion to its circulation. If the Directors of the Bank, Liquidator, etc., fail to make arrangements within two months from the day of suspension for the payment of all its notes and interest thereon, the Minister may make arrangements for the payment out of the Circulation Fund together with interest at 5% per annum from the day of the suspension to the day named for redemption.

While deposits are not a first charge on the assets of an insolvent bank (the claims of noteholders, the Dominion Government and the Provincial Governments having priority in the order named), depositors have a certain measure of protection in the extraliquidity of shareholders. Heretofore, in the event of the property and assets of any bank being insufficient to pay its debts and liabilities, each shareholder has been liable for the deficiency to an amount equal to the par value of the shares held by him in addition to any amount not paid up on such shares. It is now provided that on and from the day on which the Bank of Canada is authorized to commence business this liability of a shareholder, apart from any amount not paid up on his shares, shall not exceed the proportion of the par value of his shares which the amount of notes which the bank is authorized to have in circulation in Canada bears to the paid-up capital of the bank. Shareholders who sell their stock are not relieved of the double liability until the expiration of sixty days.

TRUST COMPANIES AND LOAN COMPANIES IN CANADA

Trust Companies act as Executors, Trustees and Administrators under wills, or by appointment, as Trustees under marriage or other settlements, as Agent or Attorney in the management of estates of the living, as Guardian of minors or incapable persons, as Fiscal Agent for municipalities and companies, and, where so appointed, as Authorized Trustees in Bankruptcy. Some Trust Companies receive deposits and funds for guaranteed investments, and the loaning of such trust funds is restricted by law to securities authorized by the Trustee Act. The loaning of Company Funds is not so restricted.

The principal function of Loan Companies is the loaning of funds on first mortgage security; the money thus made available for development purposes being obtained mainly by the sale of debentures to the investing public and by Savings Department deposits.

¹Census figures in the organized provinces and estimates for the rest of Canada.

²Racial origin not taken in 1891; the figures have been taken from the report of the Department of Indian Affairs of that year. ³Includes 34,481 "half breeds".

⁴The smaller Indian population of the Northwest Territories in 1921 is to be ascribed to the extension of the boundaries of Quebec, Ontario and Manitoba in 1912. This also accounts for the increase in the 1921 Indian population of these provinces.

Capital letters on right of the Electoral District column indicate the several Provinces of the Dominion, thus:—O, Ontario; Q, Quebec; NS, Nova Scotia; N B, New Brunswick; P E I, Prince Edward Island; M, Manitoba; B C, British Columbia; A, Alberta; S, Saskatchewan.*

When Figures are given to the right of name of Post Office, they show the Population of cities, towns and incorporated villages, according to census of 1931.

Where a street address occurs in the centre column it indicates that the place name is the name of a sub-post office of a larger place, the street-address being that of the post office.

The numbers and names placed opposite every place indicate the Railroad or Steamship line on which the place or nearest railway station is situated. See list of Railroads and Steamboats on pages 206 to 211. For Express Companies, see pages 202 to 204.

SECOND CLASS MATTER

6. Transient Newspapers

Transient newspapers and periodicals include all newspapers and periodicals published in Canada, other than Canadian newspapers sent from the office of publication and British, Canadian and foreign newspapers posted by newsdealers. When addressed to any place within the

Dominion, the United States or Mexico, and, when published in Canada, and addressed to any place in Great Britain, or to places within the Empire, France, Spain and North and South America they must be prepaid at the following rate by Postage Stamp:—

One cent per four oz. or fraction of four oz., but to Australia a minimum payment of 2c is required.

To countries other than those mentioned above the rate is one cent per two oz. or fraction thereof.

Transient newspapers and periodicals not published in Canada are subject to the ordinary printed matter rate of 1 cent per 2 ozs. for all countries except Canada, U.S.A. and Mexico.

7. Newspapers and Periodicals

Printed and published in Canada and posted from the office of publication.

The general rate on newspapers and periodicals printed and published in Canada and issued not less frequently than once a month, mailed by the publishers at the Post Office at the place where they are published, and addressed to regular subscribers or to newsdealers (not resident in the place of publication), in Canada, Great Britain and places within the British Empire, is a bulk rate of 1½c. per pound; provided that the newspapers and periodicals in question which have a circulation of not more than ten thousand copies per issue shall be subject to postage at the rate of 1c. for each pound weight or any fraction of a pound weight; provided further that the newspapers and periodicals in question which are devoted to religion, the sciences, or agriculture shall be subject to postage at the rate of 1c. for each pound weight or any fraction of a pound weight; provided further that the advertising portion of the said newspapers and periodicals when the space devoted to advertisements exceeds fifty per centum of the total space, shall be subject to postage at the rate of 4c. for each pound weight or any fraction of a pound weight.

An exception is made in favour of newspapers or periodicals published weekly, fortnightly or monthly in any city, town, or village which has a population of not more than ten thousand. Such newspapers and periodicals may be sent free of postage to the extent of a circulation of 2,500 copies to regular subscribers and newsdealers residing within a distance of forty miles from the place of publication.

In the case of newspapers and periodicals published in places where letter carrier delivery is established copies addressed to local subscribers and newsdealers within the area of letter carrier delivery must be prepaid at the ordinary transient newspaper rate—one cent per four ounces or fraction of four ounces to each separate address.

Copies of legitimate daily newspapers can be mailed by the publishers in Canada to regular subscribers and newsdealers in the United States, Central and South America or Mexico on prepayment in cash at the rate of 2 cents per pound or fraction thereof. Other newspapers and periodicals sent to the United States or Mexico either by publishers or other individuals are subject to the rate of 1 cent per 4 ounces.

The postage on *bond fide* specimen newspapers, and on papers and periodicals published less frequently than once a month, is 2 cents per lb.

8. British and Foreign Newspapers posted by Newsdealers in Canada

British and foreign publications as well as Canadian publications, if authorized by the Department may be posted by newsdealers in Canada to subscribers in Canada at the rate of 2 cents per lb. They cannot however be posted at that rate for local delivery at places where there is a free letter carrier service. Newsdealers may also post recognized Canadian newspapers and periodicals to regular subscribers in Great Britain and places within the Empire, at the bulk rate of 2 cents per pound.

9. Books, Limits of Weight, etc.

A Book Packet may contain any number of separate books. Limit of weight for post in Canada, 5 lbs. For British and foreign post, 4 lbs. 6 ozs., but in case of a single book, a weight of 11 lbs. is allowed in the domestic mails, also in mails for the United States and Mexico. The limit of weight for a single book sent to Great Britain or other countries is 6 lbs, 9 ozs. Limit

Books for the use of the blind are free of Canadian postage when addressed to places in Canada, Newfoundland, the United States and Mexico, and correspondence passing between blind persons in raised characters is chargeable at the rate of 1 cent per 2 lb., and full prepayment is compulsory.

THIRD CLASS MATTER

10. Printed Matter, Circulars, Samples, Miscellaneous Matter

Miscellaneous matter, described as under, may pass between places in the Dominion of Canada or outside of Canada upon prepayment of 1c. for each 2 oz.

DEFINITION OF MISCELLANEOUS MATTER

Matter (other than newspapers and periodicals), wholly in print without reference to process, such as circulars, catalogues, calendars, hand-bills, books, pamphlets, printed forms, maps, prints, drawings, plans (without written specifications), engravings, lithographs, photographs (when not on glass or in cases containing glass), official or private post cards in quantities, sheet music (whether printed or written) instruction books in music, visiting cards and single post cards without written communications, the manuscript of books or newspapers (whether hand-written or type-written) botanical entomological and mineralogical specimens and the following partly-written and partly-printed matter:—militia and school returns, customs manifests, voters' lists, school or college examination papers and educational exercises passing between colleges and extra-mural students (written corrections and comments on examination papers and educational exercises may be enclosed with them, but no correspondence is allowed), printers' proof sheets with corrections, exhibition entry tickets, municipal assessment rolls, Dominion and Provincial Government returns on official blanks, with the exception of motor licenses and forms relating to radio and commercial enterprises, such as telephones, railways, electric light, etc. operated by such Governments, on which the letter rate of postage applies. To come within the class of Miscellaneous Matter the material printed upon must be either paper, cardboard or parchment.

No letter or other communication intended to serve the purpose of a letter must be sent or inclosed in any such package or thing mentioned, and the same must be sent in covers open at the ends or sides, or otherwise so put up as to admit of the contents being, if necessary, easily withdrawn for examination by the officers of the Post Office to ensure compliance with this provision (if enclosed in sealed envelopes notched at the ends or sides, or with the corners cut off, letter rate of postage will be charged).

DEFINITION OF CIRCULARS

Circulars are communications in print, or produced by a multiplying process easy to recognise, but not direct from a typewriting machine, which are issued in identical terms to several individuals. A circular may, without becoming liable to a higher rate of postage, have a written date and signature, and may have the name of the addressee repeated in writing inside. Reproductions or imitations of hand or typewritten matter, in order to be accepted as circulars, must be handed in at the post office wicket, in a number not less than twenty identical copies, separately addressed. Failure to comply with either of these conditions will subject the article to letter rate of postage.

Printed circulars up to one ounce soliciting business, mailed in quantity for local distribution to householders, may be accepted at the rate of 4c. each. Business firms who wish to take advantage of this rate must submit the circulars to the Postmaster in order that the rate may be confirmed and postage paid, and also that the necessary arrangements for delivery may be made.

PAPER FOR BLIND

Writing paper specially prepared for the use of the blind transmitted from a recognized Institution for the

Blind in Canada to blind persons for their own use is allowed to pass at the rate of 1 cent for each 2 lb. or fraction thereof; but before any Institution can post such paper at the above rate the Post Office Department at Ottawa must be satisfied as to its claim to be considered an Institution for the Blind.

LIMIT OF WEIGHT, ETC.

The limit of weight for a packet of miscellaneous matter is 5 lbs., and in no case must the length and girth combined exceed 6 feet.

Printed or written *requests for return* are recognized on books, miscellaneous matter, samples and parcels of merchandise, addressed to places within the Dominion, or in the United States, and same will be *returned direct to the sender*, subject to the payment by the sender, on delivery to him through the Post Office, of the full amount of postage to which the article was in the first place liable, together with any charges rated thereon on account of any deficiency in the original prepayment.

Printed matter should be fully prepaid at the time of posting and will not be forwarded unless at least partly prepaid.

11. Samples, Canada, U.S.A. and Mexico

Samples of Merchandise and Goods not having saleable value and not exceeding 1 lb. in weight, may be posted in Canada, to be forwarded to any place in the Dominion, U.S.A., or Mexico, on prepayment of a rate of 1 cent for each 2 ozs. or fraction thereof under the following regulations:

Size limit, 18" x 8" x 4", or if rolled 18" long x 6" diameter.

Samples must be sent in covers open at the ends, so as to be easy of examination. Samples, however, of seeds, drugs, &c., which cannot be sent in open covers, may be enclosed in bags of linen, or such like material, fastened in such a manner that they may be readily opened.

There must be no writing upon or in any packet of samples, except the address of the person for whom it is intended, the address of the sender, a trade mark or number and the price of the articles, or such words as may be necessary to indicate precisely the origin and nature of the merchandise.

Articles of saleable value even when intended to serve as samples, or goods sent for sale or in execution of an order, however small the quantity may be, or any article sent by one private individual to another, which are not actually trade samples, are not admissible.

Liquids (except intoxicating liquors), oils, etc., may be sent by mail in the Dominion if put up carefully in strict accordance with the directions given in the Postal Guide and ascertainable at any post office.

12. Samples for Great Britain and Foreign Countries

Samples of Merchandise, when addressed to places in Great Britain, must not exceed 1 lb. in weight, and must be prepaid. Size limit, 18" x 8" x 4", or if rolled 18" long x 6" diameter. See page 322 Table of Rates.

Samples of liquids (except intoxicating liquors), oils, glass, etc., are admitted as samples provided they are put up in strict accordance with the directions given in the Postal Guide.

13. Commercial Papers British and Foreign Post

Legal and commercial papers generally are liable to *letter rate* of postage when posted for delivery within the Dominion of Canada.

"Commercial Papers" are understood to comprise all papers or documents written or drawn wholly or partly by hand (except letters or communications of the nature of letters or other papers or documents having the character of an actual and personal correspondence), documents of legal procedure, deeds drawn up by public functionaries, copies of or extracts from deeds under private seal and (whether written or printed on stamped or unstamped paper) way bills, bills of lading, invoices and other documents of a mercantile character, documents of insurance and other public companies, also open letters and post cards of ancient date which have already fulfilled their original purpose. The rate, British, United States and Foreign, is 1 cent per 2 ozs. but each packet must have a minimum prepayment of 5 cents covering a weight of 10 ozs. prepayment compulsory. No packet must exceed 18

inches in any direction unless in the form of a roll, when a length of 30 inches is allowed, provided the

C.O.D. fee is paid by postage stamps affixed by the sender in addition to the ordinary postage. C.O.D. fee covers insurance where parcels are prepaid at parcel post rates and registration where articles are prepaid at other than parcel post rates. The sender of a C.O.D. parcel may include postage and C.O.D. fee in the amount to be collected. It is forbidden to send articles C.O.D. which have not been ordered or requested by the addressees and articles may not be examined before payment of the C.O.D.

The charges on C.O.D. articles may be increased, decreased or cancelled upon request of sender, made through Postmaster at office of mailing.

Note: Money order offices are shown in italics in the list of Post Offices in Canada commencing on page 212.

ALIENS

The subject of aliens is under the sole control of the Dominion Government and Parliament. An alien may hold both real and personal property equally with British subjects. In order to vote at elections he must be naturalized. An alien may be deported at any time for certain offences.

The wife of a British subject is a British subject, and the wife of an alien is an alien. When a man ceases to be a British subject, his wife may make a declaration that she desires to retain British nationality, and thereupon she remains a British subject. When an alien is a subject of a State at war with His Majesty, his wife may, if she was a British sub-

ject by birth, make a declaration that she desires to resume British Nationality.

A woman who, having been a British subject, has by, or in consequence of, her marriage become an alien, does not, by reason only of her husband's death, or her marriage being dissolved, cease to be an alien; and a woman who, having been an alien, has by, or in consequence of, her marriage become a British subject, does not, by reason only of her husband's death, or dissolution of her marriage, cease to be a British subject.

See NATURALIZATION.

BANKRUPTCY AND INSOLVENCY

The Bankruptcy Act enables an insolvent debtor to petition the court to be declared bankrupt. By an order of the court, possession is taken of the debtor's property, and it is distributed proportionately amongst his creditors. The court has power to subsequently discharge the bankrupt from all debts existing at the time bankruptcy proceedings began. Bankruptcy law has two purposes; (a) the expeditious and economical distribution of the debtor's assets, and (b), a release of the debtor from his creditors when he has not been guilty of any misconduct or fraud, and has surrendered all his assets.

An insolvent debtor whose liabilities to creditors exceed \$500 may, prior to a receiving order being made against him, make an assignment of all his property for the general benefit of his creditors. Such an assignment must be accepted by the Official Receiver, and is called an "authorized assignment". Any other assignment is void.

By a Dominion Act of 1933, called The Companies' Creditors Arrangement Act, it is provided that where

a compromise, or arrangement, is proposed between the debtor company and its creditors, secured or unsecured, the court may, on the application of the company, or a creditor, or trustee in bankruptcy, or liquidator of the company, call meetings of the creditors and shareholders. If at least three-fourths in value of the creditors present at the meeting agree to a compromise or arrangement, and it is sanctioned by the court, it is binding on all creditors, and on the company, even when it has made an authorized assignment, or against which a receiving order has been made, or the company is being wound up. The Act extends, but does not limit, provisions of any instrument governing the rights of creditors, and has force notwithstanding anything in such instrument. The court may restrain proceedings under the Bankruptcy Act, or Winding-up Act. Every order made under the Act by a court of any Province may be enforced in all other Provinces. Any order made under the Act may be appealed from.

See MARRIED WOMEN.

BILLS, NOTES AND CHEQUES

These are governed by Dominion law.

A bill requiring presentment for acceptance must be presented to the drawee, or to some person authorized to accept or refuse acceptance on his behalf, at a reasonable hour on a business day and before the bill is overdue.

Where the bill is addressed to two or more drawees who are not partners, presentment must be made to all, unless one is authorized to accept for all, when presentment may be made to him only.

Where the drawee is dead, presentment may be made to his personal representative.

Where authorized by agreement or usage, presentment through the post office is sufficient.

Presentment is excused and a bill may be treated as dishonoured by non-acceptance:

- (a) Where the drawee is dead;
- (b) Where the drawee is a fictitious person;
- (c) Where the drawee is a person not having a capacity to contract by bill;

(d) Where, after the exercise of reasonable diligence, presentment cannot be effected;

(e) Where, although the presentment has been irregular, acceptance has been refused on some other ground.

1. Where the holder of a bill or note presents it for payment he must exhibit it to the person from whom he demands payment.

2. If a place of payment is specified, the bill must be presented at such place.

3. Where a note is, in the body of it, made payable at a particular place, presentment at that place is necessary in order to render an endorser liable.

If the place specified for payment is a city, town or village, and no place therein is specified, the bill or note may be presented at the drawee's, acceptor's or promisor's known place of business or known ordinary residence therein. If there is no such place of business or residence, it may be presented at the principal post office in such city, town or village.

BILLS, NOTES AND CHEQUES—Continued

4. Where no place of payment is specified in a bill:
(a) If the address of the drawee or acceptor is given, the bill must be presented there.

(b) If no address is given, the bill must be presented at the drawee's or acceptor's place of business, if known, and if not, at his ordinary residence, if known.

In any other case the bill may be presented to the drawee or acceptor wherever he can be found, or at his last known place of business or residence.

Presentment for payment of a bill or cheque is dispensed with:

(a) Where presentment cannot be effected;

(b) Where the drawee is a fictitious person;
(c) By waiver of presentment.

Notice of dishonour must be given to any party entitled to notice, at his usual address, or at the place at which the bill or note is dated. Bills and notes bear interest from the date of maturity, and at the legal rate of 5%, unless the time and rate are otherwise stated on their face. On a bill payable at or after sight 3 days of grace for payment are allowed, but none on a bill or note payable on demand. When bills and notes fall due on a legal holiday they are payable the day following.

BILLS OF SALE

A bill of sale is a document by which the owner of goods and chattels transfers them to another. This is only required where possession is not intended to be given. A bill of sale must be registered within the time fixed by the law of the Province in which the

goods are, otherwise the sale will be void as against creditors of the owner.

Information as to where a bill of sale must be registered, is given under each Province; *see Index*.

BUILDING RESTRICTIONS

Land is frequently subject to certain restrictions; e.g., as to the class of buildings which may be erected on it; the minimum cost of such buildings; the distance of the nearest building from the street line or from other buildings; the use to which such buildings may be put, as, for example, restricting it to private residences, physicians offices, etc., and prohibiting shops, apartment houses, schools, etc. These restrictions, when once inserted in a registered instru-

ment, must be observed by all subsequent purchasers of the land, and can only be removed or disregarded with the consent of all other interested owners, or by an application to the Court to remove or modify them. This is usually possible when the complexion of the district has changed since the restrictions were put on, or when the majority of owners of the land subject to the restrictions agree to the change.

BULK SALES

The purchase, sale and transfer of stocks of goods in bulk are regulated by statute in all Provinces. In Quebec they are governed by the Civil Code. A sale in bulk is a sale or transfer of stock out of the usual course of business or trade of the vendor, or whenever substantially the entire stock of the vendor, or an interest in his business or trade, is sold.

Every person who bargains for or purchases stock in bulk, either for cash or on credit, shall, before closing the purchase and paying the price, obtain from the vendor a statement, verified by statutory declaration, containing the names and addresses of all the creditors of the vendor and the amounts due them. If such declaration is not obtained, the sale is deemed fraudulent, and is void against creditors, unless they are paid in full out of the proceeds of the sale.

Upon obtaining the declaration, the purchaser must either obtain a waiver from the creditors or pay the purchase price to a trustee for distribution

among the creditors. In short one of the following alternatives must be complied with:

- (i) Creditors must be paid in full;
- (ii) A written waiver of the provisions of the Act must be obtained from not less than 60 per cent. of the creditors having claims exceeding \$50.00; or,
- (iii) A written waiver of the creditors as defined in (ii) must be obtained.

If the parties elect to proceed under (iii), the full purchase price must be paid to a trustee to be named by the creditors in such written consent, and if a trustee is not named by the creditors then to a trustee to be named by the vendor.

A bulk sale is not an assignment for the benefit of creditors, nor does the mere making of it make the vendor a bankrupt or an insolvent under any Act in force for bankrupt or insolvent debtors, provided that the provisions of The Bulk Sales Act have been complied with.

CHATTEL MORTGAGES

A mortgage of chattels is a contract between parties whereby the owner transfers to the mortgagee the title to the chattels upon the terms that the transfer shall be void upon payment of a sum of money, or the performance of a certain condition, at an appointed time. In the meantime the owner may keep possession of the chattels. On default of payment, or performance of the condition, the mortgagee is entitled to take possession. A mortgage must be registered within the time fixed by the law of the Province in which the chattels are, and the mortgagee

must, within the time fixed by the law of that Province, file a renewal statement showing the amount then remaining due for principal and interest, otherwise the mortgage will be void as against creditors of the owner, although still good between the parties to the contract. Information as to where a chattel mortgage must be registered, is given under each Province; *see Index*.

A mortgage may be given to secure against liability on a promissory note, or to secure future advances.

COMPANIES

A company is a body created by law to carry on the classes of business authorized by its charter of incorporation. This may be either, (a) an Act of the Parliament of Canada; or (b) an Act of the Legislature of a Province; or (c) Letters Patent granted either by the Secretary of State at Ottawa or by the Provincial Secretary of certain Provinces; or (d) a Memorandum and Articles of Association filed,

in certain other Provinces. The charter, or Memorandum and Articles, must state the amount of the authorized capital, which is usually divided into shares, either of a stated par value, or without par value, or both.

The expression "authorized capital" means nothing to an investor; neither does the "par value" of a share of stock. What really concerns him is the

COMPANIES—Continued

proportion which the number of shares he holds bears to the capital actually issued. It is now a common practice to issue shares without par value. The investor then knows the proportionate interest which he holds of the total issued capital, bearing in mind that the whole of the authorized capital may be issued at any time.

The advantages of an incorporated company over a partnership, or an individual doing business in his own name, are (a) the limited liability of the investor, (b) the right to assign shares without reference to the other members of the company, (c) that changes in the persons of its shareholders do not affect its power to carry on business.

There are two general classes of companies, viz, (a) public companies, in which a shareholder may transfer his shares to anyone, and the number of shareholders is practically unlimited, and (b) private companies, in which the right to transfer shares is restricted, the number of shareholders is limited, and any invitation to the public to subscribe for shares is prohibited. No prospectus is required for a private company.

Incorporation by an Act of the Parliament of Canada, or by Dominion Letters Patent, allows a company to transact its business throughout Canada,—subject, in some Provinces, to a restriction respecting the holding of land. Under a Provincial charter a company may carry on business only in that Province, but may obtain licenses from the other Provinces to carry on business in them. The requisite number of applicants for incorporation varies in different Provinces; in Ontario only 3 are required. Each applicant must be 21 years of age. The fees for incorporation vary in different Provinces.

A shareholder is liable to creditors of the company only for the unpaid balance, if any, due on his shares. A holder of shares of a Bank, however, is liable for double the amount he subscribed for. The ownership of the business of a company always remains in the

company, no matter how often the shareholders may change from time to time. A company remains in existence until the termination of its charter. This may be by surrender or forfeiture of its charter, or by the company being wound up, or becoming insolvent.

It is a common practice for an individual to do business under the name of, say, "Smith and Company". In such case it is necessary in some Provinces (as in Ontario) to file a declaration stating the business, how long the partnership has subsisted, and that he is the only member.

The powers and duties of directors vary in different provinces, but among the chief of them are usually those noted below. Directors are elected by the shareholders, and have authority to administer the affairs of the company, pass by-laws to regulate the allotment, issue and transfer of stock, make calls on stock, declare dividends, determine the qualifications, appointment and duties of officers, servants and agents of the company, and remove them, compromise with its creditors, make contracts on its behalf, borrow money for its purposes, regulate the holding of meetings, and generally conduct its affairs.

An officer or director of a company is liable for six months' wages of clerks, labourers and servants of the company if it fails to pay them. An officer or director must make no secret profit out of the company. He is responsible for any mis-statement in its prospectus. He should be particularly careful in signing a note, bill or cheque for the company, as he may be held personally liable, even though he signed only as an officer or director.

Information as to fees, etc., and copies of the Acts and amendments, may be obtained from the Secretary of State, Ottawa, as to Dominion incorporation, or from the Provincial Secretaries of the various Provinces respecting incorporation under Provincial law.

CONDITIONAL SALE OF GOODS

All Provinces have somewhat similar legislation respecting conditional sales. Where possession of goods is delivered to the purchaser or hirer under a contract which provides that the ownership is to remain in the seller or lender until payment of the purchase price or part of it, such provision is invalid against a subsequent purchaser or mortgagee without notice in good faith and for valuable consideration unless (1) The contract is in writing, signed by the purchaser or hirer or his agent and contains the terms of the sale or hiring, and describes the goods, and (2) In Ontario, within 10 days after the execution of the contract a copy is filed in the office of the clerk of the County or District Court where the purchaser or hirer resides.

The provision respecting filing does not apply to manufactured goods which, at the time of delivery have the name and address of the seller or lender marked on them, or to a contract respecting household furniture other than musical instruments.

The seller or lender must deliver a copy of the contract to the purchaser or hirer within twenty days after its execution.

In other Provinces the time for, and place of registration varies.

Every vendor, whether manufacturer or dealer, has his own forms of hire receipt and lien note. Some of these are drawn so unfairly against the hirer that it is doubtful if they would be upheld in a court of law. It is advisable to read the form carefully before signing, and to have it explained fully by a solicitor if not clearly understood.

CREDITORS

See BANKRUPTCY; BULK SALES.

DOWER

Dower is the provision which the laws of Ontario, New Brunswick, Nova Scotia and Prince Edward Island make for a widow out of the lands of her husband, for the support of herself and their children. It is a life estate to which a wife is entitled, after the death of her husband, in one third of any lands which he owned at any time during their marriage. She cannot claim dower until after her husband's death, and the claim of dower ceases upon her death. The right to dower does not take effect until the death of the husband. This right is relinquished by the widow signing a release of her right; this is called a "bar of dower", and is properly inserted in all deeds and mortgages made by the husband. A general power of attorney may be given by a wife to bar her dower in all lands which her husband now owns, or may afterwards acquire. The widow of a trustee, or of a joint tenant, is not entitled to dower. There is no dower in partnership land, but it is always a question of fact whether or not the land is partner-

ship property. It is possible to word a conveyance to a husband so that dower does not attach, and he can then convey the land free of dower. Except in the case of a homestead, a widow has no right to dower in Alberta, but the courts have power to allow her, out of her husband's estate, disposed of by will, such allowance as may be just and reasonable under the circumstances.

In Manitoba there is dower in a homestead only, but in other cases the wife has the same rights in her deceased husband's land as if it were personal property.

There is no dower in British Columbia.

There is no dower in the Northwest Territories or the Yukon Territory, but the widow has the same right in the land of her deceased husband as if such land were personal property.

In Saskatchewan, except under the Homestead Act, there is no dower.

See MARRIED WOMEN.

HUSBAND AND WIFE

In Ontario a marriage may only be solemnized by one of the following persons, and in the presence of two adult witnesses; (a) a clergyman of a church or religious denomination; (b) certain elders, evangelists and missionaries of certain named congregations (including Brethren and Quakers), chosen for such purpose; (c) a commissioner or staff officer of the Salvation Army. A license issued by persons authorized by the government, is required unless the banns are published 15 days previously. There is no authority for a civil marriage.

In Quebec, all priests, rectors, ministers, and other

officers authorized by law to keep registers of acts of civil status, are competent to solemnize marriage, but none of the officers thus authorized can be compelled to solemnize a marriage to which any impediment exists according to the doctrine and the belief of his religion, and the discipline of the Church to which he belongs. There is no authority for a civil marriage.

In Provinces other than Ontario and Quebec, provision is made for a civil as well as a religious marriage.

LIENS

See CONDITIONAL SALE OF GOODS; MECHANICS LIENS.

MARRIED WOMEN

A married woman may bar her dower although under 21 years of age, but she cannot make a valid will until she is 21.

Under the Bankruptcy Act, a married woman, whether carrying on a trade or business or not, may make a voluntary assignment for the benefit of her creditors, and so obtain the benefits which the Act affords to insolvent debtors.

Under the laws of all Provinces and Territories (except the Province of Quebec) a married woman has the same rights of dealing with property as she would have if unmarried. The Quebec law may be summarized as follows: Husband and wife may be either in community of property or separate as to property. In the absence of an ante-nuptial contract the property is in community.

The assets of the community consist of all the immovables the consorts acquire during marriage, of all the movables which they have on the day of the

marriage or which they acquire during the marriage or which fall to them by succession or by gift, if the testator or donor has not otherwise provided. The interest and fruits of all property also fall into the community. The husband has the entire administration of the community and can sell and mortgage the property of the community without the consent of his wife. He cannot, however, without her consent dispose of the immovables which belong to her, although he administers them.

When there is separation as to property, the wife retains the administration of her property, movable and immovable. She cannot, however, alienate or hypothecate it without the consent of her husband, or, upon his refusal, the authorization of the court.

Gifts and sales between husband and wife are forbidden.

See DOWER; HUSBAND AND WIFE; WILLS.

MECHANICS LIENS—ONTARIO

LIENS ON LAND. A Mechanic's Lien is a charge, authorized by statute, registered against any land upon which is constructed any building, erection or work, by a person who performed any work or service or placed or furnished any materials used in the construction of such building, erection or work. The amount of the charge must not exceed the sum due to such person. Except in the case of a manager, officer, or foreman, or a person whose wages are more than \$10 a day, any agreement by a person employed in manual labour that the Act shall not apply, is void. The owner must retain 20% of the contract price (15% if the contract exceeds \$15,000) for 30 days after the completion of the work. A lien for wages has priority over other liens to the extent of 30 days wages on the above 20% (or 15%).

A lien may not be registered against a public street or highway, or for any work done by a municipality.

A lien must be registered in the registry office of the district in which the land lies, before or during the performance of the contract, or within 30 days after its completion, and must be verified by an affidavit.

The fee for registration is 25 cents. Unless an action is brought within 90 days after the work or service has been completed, or materials furnished, the lien will cease to exist.

LIENS ON CHATTELS. Any person who has bestowed money, skill or materials upon any thing, by which it is altered or improved, is entitled to a lien upon such thing for the amount of money or value of the skill or materials bestowed when such amount remains unpaid for three months, and, in addition to any other remedy he may have against the owner of such thing, may sell it after giving a week's notice in a newspaper published in the municipality in which the work was done, or, if none, then in the nearest published newspaper, stating the name of the debtor, amount of debt, description of the thing to be sold, time and place of sale, and name of the auctioneer, and leaving a like notice at the last known residence of the owner. The proceeds of the sale to be applied in payment of the amount due and cost of advertising; any surplus to be paid to the person entitled, upon his application.

MORTGAGES

A mortgage may be given on either real or personal property. In the latter case it is called a "chattel mortgage," (see under that heading). A mortgage on real property, i.e., a land mortgage, must be registered in the proper office, according to whether the property is under a Land Titles Act or a Registry Act. In the latter case the seal of the mortgagor must be affixed after his signature; but in a Land Titles mortgage (called a "charge") no seal is required.

A mortgage may be made for any desired period of

time, and it cannot be paid off until that period expires unless the mortgage so provides. After a mortgage has expired, it can usually be paid off only after giving the notice required by the law of the Province, and also the payment of a bonus of interest. (In Ontario, 3 months' notice or 3 months' bonus). The word "land" includes all buildings on the land; therefore all such become mortgaged under a land mortgage. Everything that a mortgagor adds to the property to improve its value becomes at

MORTGAGES—Continued

once covered by the mortgage. If chattels are affixed to the land they become part of the land. If it be shewn that no valuable consideration was given for a mortgage, it can be set aside. When the mortgage money is not paid when due the mortgagee may either foreclose or sell the property, and may also sue under the mortgagor's covenant, for the amount of money due. Foreclosure is the method by which, after the period of notice required by law, the mortgagee may, if not redeemed, take the property to his own use, in which case the mortgagor is entirely shut out. If the mortgagee elects to sell the property,

the mortgagor is entitled to the balance, if any, remaining after the claims of the mortgagee are paid. An action on the covenant in a mortgage must be brought with the following times: In Ontario and Manitoba 10 years; British Columbia, Alberta and Saskatchewan 12 years; New Brunswick, Nova Scotia and Prince Edward Island, 20 years; Quebec, 30 years.

The Moratorium in Ontario has been continued to June 30th, 1935.

See DOWER.

NATURALIZATION

All matters relating to naturalization are under the control of the Parliament and Government of Canada. The Secretary of State may grant a certificate of naturalization to an alien who makes application for it. The applicant must prove (a) that he has either resided in His Majesty's dominions for a period of not less than five years; and (b) that he is of good character and has an adequate knowledge of either the English or French languages, and, (c) that he intends to reside in His Majesty's dominions.

"Residence" means residence in Canada for not less than one year immediately preceding the application, and previous residence, either in Canada or in some other part of His Majesty's dominions, for four years within the last eight years before the

application. Application must be made to a Judge, through the Clerk of the Court. The application must be posted up for 3 months before it can be heard. The applicant must personally appear, and produce evidence that he is qualified, whereupon a certificate of naturalization may be granted, but the certificate does not take effect until the applicant has taken the oath of allegiance. A minor child may be included in the certificate. A certificate of naturalization may be revoked for false representation in obtaining the certificate, disloyalty, non-residence in the British Dominions for seven years, and other causes.

See ALIENS.

PARTNERSHIP

A partnership is an agreement of two or more persons to place their money, effects, labour, and skill, or some or all of them, in a business, and to divide the profits and bear the loss in certain proportions. Almost every Province has special Acts dealing with partnerships. These define the liabilities and duties of partners, and are very similar in all the Provinces. The fact that two or more persons are associated in business, or even that one of them receives a share of the profits, does not necessarily constitute a partnership. A partnership agreement is not required to be in writing unless it is a partnership in land, but it is advisable that the general terms, at least, be written, in order to forestall differences that will invariably occur. If the duration of the partnership is not fixed, it may ordinarily be terminated at any time by notice given by any partner. Unless the agreement states otherwise, the interests of the partners are deemed to be equal. Each partner is an agent of the firm and of his other partners for the purposes of the business, and the act of any partner in the ordinary way of business will bind the firm and the other partners. Each partner is liable jointly with the others for all debts and obligations of the firm while he is a partner. A partner cannot be

expelled by the others unless power to do so is given by the agreement. Goodwill is part of the assets of the partnership, and where the assets are sold the purchaser has the exclusive right to use the firm name, and the former partners must not solicit the firm's customers.

In Ontario, a declaration, signed by all persons associated for the purpose of trading, mining or manufacturing (other than butter or cheese) must be filed—within sixty days after the formation of the partnership—with the registrar of the registry division in which they carry on or intend to carry on business. The declaration must contain the full names, occupations and residences of every partner. A similar declaration must be filed when any change takes place in the members of the partnership, or in the name under which it carries on business. If any partner fails to sign or file the declaration, he may incur a penalty not exceeding \$100. If a person is in business alone, but uses a firm name or designation other than his own name, or with the addition to his own name of the words "and Company", or some other expression indicating that there are several members in the firm, he must file a special declaration. See DOWER.

POWERS OF ATTORNEY

A power of attorney is an authority given by one person to another to act for him. It may be either verbal or in writing, but it is advisable to have it in writing owing to possible disputes afterwards, and also to difficulty of proof. The signature of the person giving the power should be witnessed. In most cases the power may be revoked at any time unless it is given for valuable consideration. It is revoked by the death of the person giving it, unless

the power itself, or the law, provides otherwise. Any payment made and act done under a power after the death of the person who gave it, or after he has done some act to render it void, shall, notwithstanding such death or act, be valid as respects every person party to such payment or act, to whom the fact of the death, or the doing of the act, was not known at the time of such payment or act.

REAL PROPERTY

In a conveyance of land, there is included, without so stating, all buildings upon it. Land is conveyed by a deed, which is registered in the proper registry office. An intending purchaser of land must search in such registry office to ascertain whether the vendor has a good title to the land, and what mortgages or encumbrances there are against it. There are two systems of registration in Canada. Each Province

has one or both systems, one being under a Land Titles Act (sometimes called the Torrens System) and the other a Registry Act. A Land Titles Act is in force in the Provinces of Ontario, Alberta, Saskatchewan and Manitoba, and the Northwest Territories and Yukon Territory. A Registry Act is in force in Ontario, Manitoba, Nova Scotia and Prince Edward Island. Under a Land Titles Act the title to the land

REAL PROPERTY—Continued

is practically guaranteed to the purchaser. The British Columbia Act is similar to the other Registry Acts, but with the possibility of obtaining a certificate of absolute title. In the Province of Quebec, a deed is passed by a notary and then registered in the proper one of the 77 Registry Offices. The law of real property is too complicated to detail fully here;

it is advisable to consult a Quebec lawyer.
In Ontario an owner of land is only required to show a good title during the preceding forty years.

TRUSTS AND TRUSTEES

A trust is an equitable obligation binding a person (called a trustee) to deal with property over which he has control (called the trust property) for the benefit of persons (called beneficiaries), of whom he himself may be one, and any one of whom may enforce the obligation. No particular form of words is necessary in order to create a trust. Any kind of property may be the subject of a trust. No one is bound to accept the office of trustee. It is a trustee's duty to give to the trust property the same care and attention as a prudent man would give to his own personal affairs,

and a trustee must make no profit, in the way of his own business, out of the estate. A trustee is authorized to represent the shares in his hands at all meetings of a company, and may vote accordingly as a shareholder, and may also be a director as long as he holds the shares in trust. Where there are two trustees, and one dies, the office and estate are continued in the surviving trustee. The law usually allows a trustee a fair and reasonable allowance for his care, trouble and time expended in connection with the estate.

WILLS

Any person of sound mind and of the age of 21 years, may dispose by will of real and personal property. A soldier on actual service or a seaman at sea is able to make a will although under 21. Any property acquired between the date of the will and the death of the testator passes under the will. Subject to certain variations in the Provinces mentioned below, the general requirements of a will are as follows: A will must be in writing, and, except in the case of soldiers on actual service and seamen at sea, must be signed at the foot or end thereof by the testator, or by some other person in his presence and by his direction; and such signature must be written or acknowledged by the testator in the actual presence of at least two witnesses present at the same time, who shall sign their names on the will, as witnesses, in the presence of the testator. In New Brunswick and Quebec the witnesses must also sign in the presence of each other. Where a will consists of several sheets, it is advisable that the testator and both witnesses should sign or initial each previous sheet as identification. Any alteration in the will should be initialled by the testator and each witness.

A minor may be a witness, unless incompetent, through extreme youth, to understand and testify.

It is desirable that the witnesses should be informed that they are witnessing a will. A person who is taking any benefit under a will should not be a witness, for, although such person would be admitted as a witness to prove the execution of the will, a gift to such witness, or to the husband or wife of such witness, would be void. The occupation and residence

of the witnesses should follow their signatures, to enable them more easily to be found when wanted to prove the will, and for this reason persons having permanent residences and occupations are to be preferred.

A will is revoked—among other ways—(a) by the subsequent marriage of the testator, (b) by a later will or codicil properly executed, (c) by the testator, or some person in his presence and by his direction, destroying it with the intention of revoking it.

In the Province of Quebec three forms of wills are recognized, namely, the authentic or notarial form; the form required for holograph wills; and the form derived from the laws of England. The notarial form is made before two notaries, or before one notary and two witnesses. A holograph will must be wholly written and signed by the testator, and requires neither notaries or witnesses. The form derived from the laws of England must be signed by the testator and acknowledged by him in the presence of two witnesses present and signing at the same time. The holograph will, and that in English form, require to be probated after the death of the testator, but the notarial form does not, as it makes complete proof of its contents. The proceedings for probate are much less complicated than in most other jurisdictions. There is no provision for Letters of Administration.

In Alberta, Manitoba and Saskatchewan a holograph will, written and signed by the testator himself, is valid without any witness.

CANADIAN NATIONALS

The basic legal definition of Canadian nationality is to be found in the Immigration Act, which defines a Canadian citizen as including three categories:

- (1) Any person born in Canada who has not subsequently become the citizen of a foreign state.
- (2) Any British subject who has been domiciled for five years in Canada.
- (3) Any subject of a foreign power who has become naturalized and has not subsequently become an alien or lost Canadian domicile. (R.S. Canada, 1927, Chap. 93.)

A CANADIAN NATIONAL IS DEFINED AS:

- (1) Any British subject who is a Canadian citizen within the meaning of the Immigration Act.
- (2) The wife of any such person.
- (3) Any person born out of Canada whose father was a Canadian national at the time of that person's birth, or, with regard to persons born before the passing of the Act, any person whose father at the time of such birth possessed all the qualifications of a Canadian national as defined in the Act.

BRITISH SUBJECTS

There is a statute establishing a class of "Canadian citizen" within the wider class of "British subject." No one can be a Canadian citizen without being a British subject, but there was a time when persons were admitted to naturalization in Canada who could not qualify as British subjects outside of Canada.

What is known as the Imperial Naturalization Act came into force on the 1st January, 1915, and since

January 1st, 1918, it is the only method of naturalization. Persons naturalized under this Act shall be entitled to all the political and other rights, powers and privileges, and be subject to all the obligations, duties and liabilities, of a natural-born British subject, and as from the date of naturalization have to all intents and purposes the status of a natural-born British subject.

The Naturalization Act (R.S. of Canada, Chap. 138, as amended by 21-22 Ges. V.C. 39) provides that the following persons shall be deemed to be British subjects and therefore require only domicile and not naturalization to become Canadian citizens.

- (a) Any person born within His Majesty's dominions and allegiance; and
- (b) Any person born out of His Majesty's dominions whose father was, at the time of that person's birth, a British subject, and who fulfils any of the following conditions, that is to say, if either
 - (i) his father was born within His Majesty's allegiance; or
 - (ii) his father was a person to whom a certificate of naturalization had been granted; or
 - (iii) his father had become a British subject by reason of any annexation of territory; or
 - (iv) his father was at the time of that person's birth in the service of the Crown; or
 - (v) his birth was registered at a British consulate within one year or in special circumstances, with the consent of the Minister, two years after its occurrence, or, in the case of a person born on or after the first day of January, one thousand nine hundred and fifteen, who would have been a British subject if born before that date, within twelve months after the first day of August, one thousand nine hundred and twenty-two; and
- (c) Any person born on board a British ship whether in foreign territorial waters or not; and
- (d) The wife of a British subject shall be deemed to be a British subject, and the wife of an alien shall be deemed to be an alien. (The Census being as of June 1st, 1931, the amendment to the Act, regarding the "National Status of Married Women" does not apply as it did not come into force until January 15, 1932.)

ALIENS

"Alien" means a person who is not a British subject. Under this term are included all foreign born persons who have not become naturalized Canadians, also Canadian and British born persons who have renounced their British citizenship (by naturalization or marriage) and are of allegiance to a foreign country.

THE KING'S CIVIL LIST

Immediately after the accession of His Majesty George V., there was passed in the Parliamentary session of 1910 the Civil List Act, an Act by which the charges on the consolidated fund for the maintenance of the King and his family are determined.

Until George III. came to the throne in 1760, the income of the sovereign was derived chiefly from Crown lands, from a variety of landed property in England and Wales, Scotland and Ireland, in which the sovereign had a life-interest, and from which he received the rents. In the feudal ages these lands constituted a princely patrimony. In later times this Crown property was greatly reduced by lavish grants to royal favorites. At the Restoration the income from Crown lands was ascertained by a committee of the House of Commons to amount to £217,900 a year, in addition to £4,000 from the Forest of Dean. By the time Charles II. had been on the throne three years he had by his lavish bestowal of the lands on favorites reduced the income to £100,000. William III., by his grants to favorites who had accompanied him from Holland, made further havoc with the Crown domains; so much so that at the accession of Queen Anne, Parliament endeavored to save the remnant by an Act (1 Anne, c. 8) which prohibited alienation of Crown lands, and enacted stringent provisions in regard to the length of the term for which they might be leased and the rents reserved.

Since then, and especially since the accession of the late King Edward VII., the income from the Crown Lands has very greatly increased, until in 1931 the total receipts by the Commissioners were £1,828, 309.

Queen Anne, George I. and George II. derived the larger part of their income from their life-interest in the Crown property, but when George III. came to the throne he surrendered his life-interest in the Crown lands. It was turned over to the nation in return for a fixed Civil List of £800,000, subsequently increased to £900,000. George IV., William IV., Queen Victoria and Edward VII., on their accessions, surrendered their life interest in the Crown lands in return for a Civil List. The same course was taken by George V. when he came to the throne; and on June 15th, 1910, a committee of the House of Commons was appointed to recommend the new Civil List. It reported on the 6th of July, 1910, and its recommendations were embodied in an Act (1 George V., c. 5), which was passed through all its stages in the House of Lords on August 2nd, 1910. By this Act the King's Civil List was fixed at the yearly sum of *£470,000, which was the same amount as that granted to King Edward VII.

Her late Majesty Queen Alexandra in accordance with the Civil List Act passed at the accession of Edward VII. (1 Edward VII., c. 4), enjoyed an annuity of £70,000, and a similar provision is made in the Civil List Act of 1910 for Queen Mary in case she survives the King.

The late King Edward's daughters, Princess Louise (Dowager Duchess of Fife), Princess Victoria and Princess Maud (Queen of Norway), receive an annual allowance of £18,000 during their joint lives, which will be reduced at the death of each of the said princesses by £6,000.

At the death of Edward VII. the provision for the Royal Family amounted in all to £582,000, being £470,000 for the King's Civil List, and £112,000 in respect of allowances to other members of the Royal Family. This amount was somewhat increased by the allowance of £70,000 made to the late Queen Alexandra. As the Prince of Wales is entitled to the revenues of the Duchy of Cornwall, no special provision was made for him in the Civil List Act of 1910, but it was provided that, in the event of his marrying, an allowance of £10,000 a year should be made to the Princess of Wales, to be increased to £30,000 should she survive his Royal Highness. Each of King George's sons receives an annuity of £10,000 on coming of age, to be increased to £15,000 on his marrying. The annuity to the Duke of York, the Heir Presumptive, was increased in 1925 to £25,000, but this allowance in common with all annuities to members of the Royal family has been reduced (see footnote) on account of national economy and the following allowances are given in the Civil List (Finance Accounts of the United Kingdom) of 7th June, 1934. No provision is made in the Act for children of younger members of the Royal Family.

Princesses Louise, Victoria and Maud (King Edward's daughters).....	11,700

The revenues of the Duchies of Cornwall and Lancaster are outside the Civil List arrangement. Those of Cornwall, from which the Prince of Wales receives £72,000 a year, are vested in the eldest son of the reigning sovereign, who becomes by birth the Duke of Cornwall, by virtue of a patent of Edward III. in 1337. The Duchy of Lancaster was the private patrimony of Henry Bolingbroke, son of John of Gaunt. It is separate from the other possessions of the Crown in order and government, but united to it in point of inheritance. It brings in a net revenue of about £70,000 a year.

*By command of H.M. the King the Civil List was reduced by £50,000 a year as from 1st October, 1931.

THE BRITISH GOVERNMENT

The thirty-fifth Parliament (with Labour Government) of the United Kingdom of Great Britain and Northern Ireland was dissolved on October 7th, 1931.

In view of a grave economic crisis Mr. Ramsay Macdonald reconstructed his Cabinet in August, 1931, to include leaders of all parties on a broad national basis on which to appeal to the country.

Nominations for the new House of Commons took place on October 17th, and polling on October 27th.

Before the formation of the National Government the strength of the parties was Labour 286, Conservatives 263, Liberals 58, Independents 6, and Irish Nationalists 2.

At the time of dissolution the position of the parties was (a) For Government: Conservatives 262; National Labour 15; Liberals 58; Independents 4; (b) Against Government: Labour 265; Independent 9; Irish Nationalists 2.

The results of the General Election gave the National Government an unprecedented majority of 495, the final returns being: Conservatives 472; National Liberals 34; Liberals 33; National Labour 14; National 2; total for Government 555; Labour (Socialists) 52; Lloyd George Liberals 4; Independent 4; total against Government 60.

Parliaments opened November 10th, 1931 and November 28th, 1932. In 1934, summer adjournment July 31st, and re-assembly October 30th.

The House of Commons, as now constituted, has 615 members. The Irish representation is only 13 (all from Northern Ireland), instead of 105: owing to the erection of the Irish Free State which embraces the three Southern Provinces and which sends no members to the British House of Commons.

The House of Commons has never been able to seat all its members. On the floor of the House there are 346 seats; and the side gallery, set apart for Members, seats 82—making a total of 450 seats for 615 members. The Strangers' Galleries will seat in all 209 persons, but if a member occupies a seat in them he is debarred from speaking.

The House of Lords in 1934 had 743 members who had taken their seats. Eighteen peerages were held by women, whom the House of Lords has so far excluded from membership. The composition of the House of Lords is as follows:—Peers of royal blood, 4; Archbishops, 2; Dukes, 20; Marquesses, 27; Earls, 130; Viscounts, 72; Bishops, 24; Barons, 459; Scottish representative peers, 16; Irish representative peers, 16; total—770, including 27 minors who had not taken their seats.

No title attaches to office in Cabinet or Administration. The title Right Honourable is given to all Privy Counsellors. These are appointed for life, and every member of the Cabinet, who is not already of the Privy Council, is made a Privy Counsellor.

THE OFFICE OF PRIME MINISTER

Prime Minister—Rt. Hon. J. Ramsay Macdonald.

Until 1894 the office of the Prime Minister was officially unknown. It had developed as a consequence of the establishment of responsible government under a party leader, but the Prime Minister, as such, had no official rank and no precedence. The first official recognition was in the form of a mention in the Court Circular, and it was 1905 before, by Royal Warrant the Prime Minister was given precedence next after the Archbishop of York. There is no salary attached to the office of Prime Minister, but the holder usually combines some other office which carries a salary. Mr. Ramsay Macdonald is First Lord of the Treasury, an office usually held by the Prime Minister. In precedence the Prime Minister now has his place between the Archbishop of York and the Lord Chancellor of Ireland, and precedence over every member of his Government except the Lord Chancellor.

THE GOVERNMENT DEPARTMENTS

THE TREASURY

Chancellor of the Exchequer—Rt. Hon. Neville Chamberlain.

First Lord of the Treasury—Rt. Hon. J. Ramsay Macdonald.

Financial Secretary to the Treasury—Mr. A. Duff Cooper.

Parliamentary Secretary to the Treasury—Captain Rt. Hon. H. D. R. Margesson. (£2,000).

Lords Commissioners of the Treasury—Rt. Hon. J. Ramsay Macdonald, Rt. Hon. Neville Chamberlain, Capt. A. U. M. Hudson, James Blindell, Col. Sir Lambert Ward, Sir W. J. Womersley (unpaid) and Major G. F. Davies, (unpaid).

NOTE.—*Not in the Cabinet. (C.) Conservative. (*Nat.-Lab.*) Nationalist-Labour. (*Nat.-Lib.*) National (Liberals under Sir H. Samuel). (*Lib.-Nat.*) Liberal-Nationals, (under Sir John Simon).

The Treasury, of which the Chancellor of the Exchequer is the political head, provides the means for meeting the charges for the military, naval, and civil services. The Parliamentary heads of each of the spending and administrative departments of the Government are responsible for the estimates for their respective departments; but it is the duty of the Chancellor of the Exchequer, with the permanent Secretary of the Treasury, to check all these estimates before they are submitted to the House of Commons in Committee of Supply. The Cabinet becomes responsible for estimates which have been submitted to Parliament, and the rejection or reduction of an estimate by the House of Commons is tantamount to a defeat of the Government. The duties which bring the Chancellor of the Exchequer most prominently before the country, are those in connection with the Budget. The first Lord of the Treasury is one of its Parliamentary heads; but the duties of the first Lord are little more than nominal, and the office is usually held by the Leader of the House of Commons. The Parliamentary Secretary to the Treasury is the official title of the Government whip in the House of Commons. The Junior Lords are his assistants. The Financial Secretary represents the Treasury in the House of Commons.

THE HOME OFFICE

Secretary of State for Home Affairs—Lt.-Col. Rt. Hon. Sir John Gilmour.

Parliamentary Under Secretary—Captain H. Crookshank, (£1,500).

The Home Office has the control of the London police force, and also the oversight of the police forces in the counties and municipal boroughs; and, generally speaking, the Department is responsible for the internal peace of the country. Prisons, convict establishments, criminal lunatic asylums, executions, and all matters connected with the post-judicial execution of the criminal law, come within the purview of the Home Office.

THE FOREIGN OFFICE

Secretary of State for Foreign Affairs—Rt. Hon. Sir John Simon.

Parliamentary Under Secretary—Lt.-Col. Rt. Hon. Earl Stanhope, (£1,500).

All diplomatic intercourse is conducted by the Secretary of State for Foreign Affairs, who is usually of the House of Lords. The office is next in rank and importance to that of Premier, and is sometimes held in conjunction with that office. Ambassadors and consuls receive their instructions from the Foreign Office. Foreign ambassadors in London have their audiences with the Secretary of State, and he also conducts the negotiations for international treaties. The Under Secretary represents the Department in the House of Commons, in the absence of the Secretary.

DOMINION AFFAIRS AND THE COLONIES

Secretary of State for Dominion Affairs—Rt. Hon. J. H. Thomas.

Parliamentary Under Secretary—Malcolm J. MacDonald, (£1,500).

Secretary of State for the Colonies—Rt. Hon. Sir Philip Cunliffe-Lister.

Parliamentary Under Secretary—Rt. Hon. Earl of Plymouth.

The Colonial Office dates back to 1660, when a Committee of the Privy Council was appointed for the Plantations, as the Colonies were then called. This Council was continued until 1768, when colonial affairs were placed under the control of a Secretary of State. When the United States secured their independence in 1783, the office of Colonial Secretary was abolished, and colonial affairs were managed from the Home Office. From 1794 to 1854 the colonies were under the War Department. In 1854 a separate Secretaryship of State for the Colonies was created. In August, 1907, the Colonial Office was organized in 3 departments; (1) Dominion Department, concerned exclusively with the self-governing colonies (2) Crown Department concerned with Crown Colonies; and (3) Department having charge of legal and financial business.

In 1925, the premier announced that the Colonial Office no longer corresponded to the actual constitutional position within the Empire, and that the conduct of affairs for the Dominions would henceforth be under a separate new Secretaryship of State for Dominion Affairs, but that for convenience the new Secretaryship

would be vested in the person of the Secretary of State for the Colonies.

THE INDIA OFFICE

Secretary of State for India—Rt. Hon. Sir Samuel Hoare.

Parliamentary Under Secretary—R. A. Butler.

The India Office in its present form dates from 1858, when an Act of Parliament was passed which directed that all the powers and duties hitherto exercised by the old East India Company, or the old Board of Control, should in future be exercised and performed by one of His Majesty's Principal Secretaries of State. Under the Government of India Acts of 1915, 1916 and 1919, the Secretary for India is assisted by a Council of not less than eight nor more than twelve members, nominated by the Secretary. At least half the members must have served or resided ten years in India and not have left India more than five years before their appointment. The expenditure of the revenues of India is subject to the control of the Secretary of State. In cases where the Indian Legislative Assembly and the Viceroy are in agreement, the Secretary for India would not ordinarily intervene.

THE WAR OFFICE

Secretary of State for War—Rt. Hon. Lord Hailsham. *Parliamentary Under Secretary*—Capt. the Lord Strathcona and Mount Royal, (£1,500).

Financial Secretary to the War Office—Rt. Hon. Douglas Hacking, (£1,200).

The Secretary for War has control of the army at home and abroad, and is responsible for its efficiency to the Sovereign and to Parliament. He directs all movements of troops, and all appointments made by the Commander-in-Chief are subject to his approval.

THE AIR MINISTRY

Secretary of State for Air—Most Hon. Marquess of Londonderry.

Under Secretary of State and Vice-President of Air Council—Rt. Hon. Sir Philip Sassoon.

At the close of the war the Air Ministry was made part of the War Department. So much objection was raised to this arrangement that in 1921 it was again erected into a separate Department and in 1923, when the first Baldwin Cabinet was formed, the Secretary was included in the Cabinet, as was also the case in both the Labour and Conservative Cabinets of 1924.

THE ADMIRALTY

First Lord of the Admiralty—Commander Rt. Hon. Sir B. M. Eyres-Monsell.

First Sea Lord and Chief of Naval Staff—Admiral Sir A. Ernle M. Chatfield.

Civil Lord of the Admiralty—Captain D. Euan Wallace, (£1,000).

Parliamentary and Financial Secretary to the Admiralty—Lord Stanley.

The Admiralty, which has charge of the Royal Navy, is administered by Lords Commissioners. The head of the Department, who is always of the Cabinet, is known as the First Lord of the Admiralty. The other Lords Commissioners or Junior Lords are officers without seats in Parliament, and are respectively at the heads of the departments into which the Admiralty is divided. The foreign movements of ships are at the instance of the Cabinet, the Foreign Office, and the Colonial Office, and it is from these authorities that the Lords of the Admiralty receive their orders. In time of war the orders go from the Cabinet. At other times the movements of vessels are directed by the Foreign Office and the Colonial Office.

THE BOARD OF EDUCATION

President—Rt. Hon. Viscount Halifax.

Parliamentary Secretary—H. Ramsbotham, (£1,200).

The Education Department exercises supervision over the various departments of state-aided education, and distributes the grants for education annually made by Parliament. These grants date from 1833; and in 1839 the Committee of Council for Education was established. The Vice-President was always of the House of Commons, and he was practically the Minister of Education. On the 1st of April, 1900, the Committee of Council for Education came to an end and its powers were transferred to the new Board of Education which consists of a President, the Principal Secretaries of State (these are the Secretaries for Foreign Affairs, for Colonial Affairs, for the Home Office, for War, and for India), the First Commissioner of the Treasury, and the Chancellor

of the Exchequer. Under the Education Act of 1918, the approval of the Board of Education is necessary for all schemes for the development and organization of elementary and secondary education for children under 18, drawn up by the local authorities—the County and County-borough councils—which have charge of this work.

THE MINISTRY OF HEALTH

President of the Ministry of Health—Rt. Hon. Sir E. Hilton Young.

Parliamentary Secretary to the Ministry of Health—G. H. Shakespeare, (£1,200).

The Ministry of Health came into existence on July 1st, 1919. It then took over the functions of the Local Government Board in connection with the administration of the poor law and of the laws affecting local government, with enlarged powers as regards public health. It also took over from the National Health Insurance Commissioners the administration of the National Insurance Acts.

THE BOARD OF TRADE

President of the Board of Trade—Rt. Hon. Walter Runciman.

Parliamentary Secretary—Dr. E. L. Burgin.

Parliamentary Secretary for Overseas Trade—Lt. Col. D. J. Colville, (£1,200).

Comptroller-General—Sir Edward Crowe, C.M.G.

Parliamentary Secretary Mines Department—Ernest Brown.

The Board of Trade is in charge of the administration of the laws relating to limited liability companies, and bankruptcy; and it also has the oversight of all matters connected with the mercantile marine, harbours, canals, railways, and street car lines and electric lighting. The importance and range of work of the Board of Trade have been greatly increased since the War.

In 1921, it took over the duties of the Ministries of Food and Shipping.

THE POST OFFICE

Postmaster-General—Rt. Hon. Sir H. Kingsley Wood, (£2,500).

Assistant Postmaster-General—Sir Ernest N. Bennett.

The Post Office in England controls the telegraph and telephone as well as the home and foreign mail departments. The telegraphs have been a Government undertaking since 1869. The telephones were taken over on Jan. 1st, 1912. The Post Office savings banks, of which there are over 12,000, receive sums up to a maximum of £50 in one year, or £200 in all. They also do a life insurance, and an annuity business on lines intended to meet the needs and convenience of the working classes.

The National Insurance Act of 1910 is worked partly through the Post Office, as is also the Old Age Pension Act of 1908 with its later amendments.

THE MINISTRY OF AGRICULTURE AND FISHERIES

Minister of Agriculture—Rt. Hon. Walter E. Elliot.

Parliamentary Secretary—The Earl de la Warr.

The principal duty of this Department before the war was the administration of the laws for preventing and stamping out cattle disease. It supervised the landing of live cattle imported from abroad. With the war came the necessity of increasing production, and the Board of Agriculture took a much wider scope. It undertook research and experiment, and made campaigns of education for the best use of the land. The addition of the Fisheries gives it supervision of the administration of all laws for the encouragement and improvement of the fishing industry.

THE MINISTRY OF PENSIONS

Minister—Major Rt. Hon. G. C. Tryon, (£3,000).

Permanent Secretary—Sir George Chrystal.

This department was created during the war to administer the Acts granting pensions to disabled soldiers and sailors and the dependents of those killed. It was intended to be temporary, but there is no immediate prospect of an end to its work.

THE MINISTRY OF LABOUR

Minister—Rt. Hon. Oliver Stanley.

Parliamentary Secretary—Robert S. Hudson.

The Ministry of Labour is another war creation. It has charge of the administration of laws connected with strikes labour organization and other labour matters.

THE MINISTRY OF TRANSPORT

Minister—L. Hore-Belisha, M.P.

Parliamentary Secretary—Viscount Elmley, M.P.

Permanent Secretary—Sir Cyril W. Hurcomb, K.B.E.

The Ministry of Transport, created during the War to oversee the transportation of war materials and food, has proved of more permanent usefulness than was anticipated.

OFFICE OF PUBLIC WORKS AND BUILDINGS

First Commissioner of Works—Rt. Hon. W. G. A. Ormsby-Gore.

Secretary—Sir Patrick Duff.

This Department has the custody and supervision of all Royal Palaces and parks, and also of buildings such as the Houses of Parliament, the Palace at Westminster, the Law Courts, and the public offices at Whitehall.

LAW OFFICERS OF THE CROWN

Attorney General—Rt. Hon. Sir Thomas Inskip, (£7,000 and Fees).

Solicitor General—Sir Donald Somervell, (£6,000 and Fees).

OTHER OFFICES IN THE ADMINISTRATION

Chancellor of the Duchy of Lancaster—Rt. Hon. J. C. C. Davidson.

Charity Commissioner—Ewen Macpherson.

THE COURT

Lord Steward of the Household—Rt. Hon. Earl of Shaftesbury, (£2,000).

Treasurer—Rt. Hon. Sir Frederick Ponsonby, (£904).

Comptroller of the Household—Sir George Penny, (£904).

Vice-Chamberlain of the Household—Sir Victor Warrender, (£904).

Lords-in-Waiting, Lord Templemore, Viscount Gage, Viscount Allendale.

Master of the Horse—Rt. Hon. Earl of Granard, (£2,500)

The Lord Chamberlain's Department has the general supervision of the Royal Household "above stairs," and also various duties towards the Sovereign and the Court. It is through the Lord Chamberlain that presentations at Court are arranged. In cities where there are royal palaces, he acts as the licenser of theatres. The Examiner of Plays is in the Department of the Lord Chamberlain. His sanction is necessary for the production of a play in any theatre in England at which a charge for admission is made.

SCOTCH DEPARTMENT

Secretary for Scotland—Rt. Hon. Sir Godfrey Collins (£2,000).

Lord Advocate—Rt. Hon. W. G. Normand, K.C., (£5,000).

Solicitor-General—D. Jamieson, K.C.

Parliamentary Under-Secretary of State—Archibald N. Skelton, (£1,200).

Scotland is not governed by laws passed for England and Wales, but by its own body of ancient law, supplemented by Acts of Parliament passed specifically for Scotland. The Scotch Department is in charge of the administration of all Scottish laws.

OFFICERS OF THE HOUSE OF COMMONS

Speaker—Capt. Rt. Hon. E. Algernon Fitzroy, (£5,000).

Chairman of Committee of Ways and Means—Rt. Hon.

Sir Dennis H. Herbert, (£2,500).

Deputy Chairman—Captain R. C. Bourne.

Clerk of the House—Sir H. Christian Dawkins, (£1,800).

Serjeant at Arms—Admiral Sir Colin Keppel, (£1,000).

Chaplain to the Speaker—Rev. Canon Carnegie.

Librarian—Austin Smyth.

Rt. Hon. J. H. Whitley, who was elected to the speakership in 1921, retired in July 1928 and the House of Commons chose Capt. Fitzroy who had been Deputy Chairman of the Committee of Ways and Means, as his successor. The office is strictly non-partisan and a new House of Commons, even if of a changed party complexion usually re-elects the Speaker.

The usual pension (£4,000 a year) was voted to Mr. Whitley on his retirement but he declined elevation to the House of Lords.

THE IMPERIAL CONFERENCES

General Secretary in London to the Imperial Conference: Lt.-Colonel Sir Maurice P. A. Hankey, G.C.B., K.C.B., Offices of the Cabinet, Whitehall, London, S.W.1.

The "Imperial Conference" was constituted under the terms of a resolution of the "Colonial Conference," 20th April, 1907.

Prior to the Conference of 1907 there were four Colonial Conferences (three in London and one in Ottawa) in the years 1887, 1894, 1897 and 1902.

Under the terms of the 1907 Resolution a special Defence Conference was held in 1909 and a Copyright Conference in 1910.

The first "Imperial Conference" was held in London in May-June, 1911.

In December, 1916 Mr. Lloyd George summoned an Imperial Conference to take counsel respecting the prosecution of the War, and this was known as the Imperial War Cabinet, 1917 Session, while concurrently with the sittings of this Cabinet, there was held an Imperial War Conference.

These meetings were followed by those of the Imperial War Cabinet, 1918 and the Imperial War Conference 1918.

After the close of hostilities in November 1918, representatives of all self-governing Dominions took part in the preliminary peace discussions in London and in the work of the Peace Conference at Paris in 1919.

During June-August, 1921 a Conference of Prime Ministers and representatives of the United Kingdom, the Dominions and India, was held in London. The greater part of these proceedings was highly confidential, the Conference considering in detail the foreign policy of the British Empire.

The Dominions were represented at the Washington Limitation of Armaments Conference, 1921, and at the International Conference, Genoa in 1922.

The Imperial Conference met again in 1923, and in 1926. At the 1926 Conference the report of the Committee on inter-Imperial relations stated that Equality of Status was the root principle governing Imperial relations so far as concerned Great Britain and the Dominions. The latter it described as "autonomous communities within the British Em-

pire, equal in status, in no way subordinate one to another, in any aspect of their domestic or external affairs, though united by a common allegiance to the Crown and freely associated as members of the British Commonwealth of Nations".

At the Imperial Conference of 1930 discussions fell under the three main heads—Inter-Imperial relations (including questions of status of Governors General and the setting up of an Empire Appeal Court), Foreign Policy and Defence, and Trade within the Empire.

The Imperial Economic Conference which took place in Ottawa from July 21st to August 20, 1932, was presided over by the Rt. Hon. R. B. Bennett, Prime Minister of Canada and attended by delegations of cabinet ministers and experts from all the self-governing Dominions. Important trade agreements were concluded between all the countries represented (except the Irish Free State) and the following declaration was unanimously adopted at the last session of the conference:—

"The nations of the British Commonwealth, having entered into certain agreements with one another for the extension of mutual trade by means of reciprocal preferential tariffs, this Conference takes note of these agreements and records its convictions:—

That, by the lowering or removal of barriers among themselves provided for in these agreements the flow of trade between the various countries of the Empire will be facilitated, and that, by the consequent increase in the purchasing power of their peoples, the trade of the world will also be stimulated and increased.

Further, that this Conference regards the conclusion of these agreements as a step forward which should in future lead to further progress in the same direction, and which will utilize the protective duties to ensure that the resources and industries of the Empire are developed on sound economic lines."

The next Imperial Conference is due to be held in London in May (1935).

IMPERIAL ECONOMIC COMMITTEE

OFFICES: 2, QUEEN ANNE'S GATE BUILDINGS, LONDON, S.W.1.

Chairman, The Hon. G. Howard Ferguson, K.C., LL.D. *Secretary*, Sir David Chadwick, C.S.I., C.I.E.

Canadian Member of the Committee: Mr. Frederic Hudd, Chief Canadian Government Trade Commissioner, Canada House, Trafalgar Square, London, S.W.1. This Committee was established in 1925, its general objective being to consider ways and means to promote the interests of producers and consumers in the British Empire. Upon the abolition of the Empire Marketing Board, whose work ended on 30th September 1933, certain activities affecting Empire trade were transferred from this Board to the Imperial Economic Committee.

IMPERIAL SHIPPING COMMITTEE

OFFICES: GREAT GEORGE STREET, LONDON, S.W.1.

Chairman, Rt. Hon. Sir Halford Mackinder. *Secretary*, Mr. R. C. Bryant.

Set up in 1920, the main business of this Committee, of which the High Commissioner for Canada in London is a member, is to survey facilities for maritime transport on such routes as appear to them to be necessary for trade within the Empire. Several enquiries of special interest to Canada—including Hudson's Bay Marine Insurance rates—have been among their recent investigations.

BRITISH COMMONWEALTH RELATIONS CONFERENCE

The British Commonwealth Relations Conference, held at Toronto from September 11th to September 21st, 1933, was attended by 41 delegates of whom 14 represented Canada, 10 the United Kingdom, 5 each from Australia and South Africa, 4 India and 3 New Zealand. Mr. Newton W. Rowell (Canada) presided.

At this Conference, which was organized by the Royal Institute of International Affairs in conjunction with the Canadian Institute of International Affairs, informal discussions took place between the delegates, who represented varying shades of political opinion, "to estimate the nature and permanence of the relations of the Commonwealth that have ensued from a long series of developments and to consider the most acceptable means of increasing their efficiency and their probable tendencies in the future".

In the final plenary session reports of four Commissions appointed by the Conference were con-

sidered. Discussion of report of Commission 1 on the principles of co-operation disclosed general unanimity in the conclusion that the British Commonwealth, although not a legal entity, "was something more than a mere association of nations and that one of its salient characteristics was its durability in a changing world"; the report of Commission 2 on machinery of administration showed that the majority opinion was opposed to a project, strongly pressed by the Australians, for a single permanent Imperial Secretariat but favoured the formation of Secretariats in each partner State; the report of Commission 3 on a Commonwealth Tribunal indicated general agreement that some organized system for the settlement of justiciable disputes was desirable; Commission 4 examined problems of Commonwealth Co-operation in other spheres than that of foreign policy, approved the report of the Skelton Committee on Economic Consultation and emphasized the need of a common imperial statistical system.

IMPERIAL COMMITTEE ON ECONOMIC CONSULTATION AND CO-OPERATION

This Committee held meetings in London from Feb. 14th to April 11th, 1933, on terms of reference from a resolution of the Imperial Economic Committee held at Ottawa in 1932. Two representatives of each of the participating Governments were appointed "to consider the means of facilitating economic consultation and co-operation between the several Governments of the Commonwealth, including a survey of the functions, organization and financial bases of the agencies specified (Imperial Economic Committee, Imperial Shipping Committee, Empire Marketing Board, Executive Council of the Imperial Agricultural Bureau, Imperial Institute, Imperial Institute of Entomology, Imperial Mycological Institute, Imperial Communications Advisory Committee, Oversea Mechanical Transport Council, Imperial Forestry Institute and Empire

Timbers Committee) and an examination of what alterations or modifications, if any, in the existing machinery for such co-operation within the Commonwealth are desirable".

Dr. O. D. Skelton, Under Secretary of State for External Affairs for Canada, was elected Chairman.

The principal conclusions of the Committee were recommendations for (1) reorganisation of the Imperial Agricultural Bureau, the Imperial Economic Committee (this Committee to take over certain work of the Empire Marketing Board which ceased operation on 30th September, 1933), and (2) the adoption of certain principles in regard to the organisation of agencies for inter-Imperial consultation and co-operation along lines of complete constitutional equality of the participating Governments.

THE WORLD ECONOMIC CONFERENCE, 1933

The World Economic and Monetary Conference was held in South Kensington, London, from 12th June to 27th July, 1933.

This Conference, which was opened by H. M. The King, was attended by delegates of 66 Governments—the greatest international assembly yet held—and was presided over by the Rt. Hon. J. Ramsay MacDonald, Prime Minister of Great Britain.

Canada's delegates were the Rt. Hon. R. B. Bennett, Prime Minister, and Hon. E. N. Rhodes, Minister of Finance.

Declarations of the policies of their Governments were made by the delegates at the opening plenary sessions after which two main Commissions were appointed (1) the Monetary and Financial Commission, Mr. James M. Cox (U.S.A.) President, and (2) the Economic Commission, Dr. Colijn (Netherlands) President.

Convened by the League of Nations as a sequel to the Lausanne Conference of 1932 which appointed a representative body of experts to draft an Agenda, the business of the Conference covered the whole field of Governmental policy affecting world trade and finance (excepting the question of War Debts) with a view to a comprehensive programme of world reconstruction.

Various Committees and Sub-Committees were set up and held continuous sessions.

On the financial side, these bodies dealt with questions relating to currency stabilization, the gold standard, the functions of central banks, silver currency, external debts made up of loans made by banks and investors to industry and Governmental bodies, the work of the Bank for International Settlements, and international monetary standards.

On the economic side the questions covered the regulation of production, Customs tariffs, shipping subsidies, quotas and trade restrictions, the raising of wholesale prices and orderly marketing of produce, and the methods of negotiating international commercial treaties.

At the final plenary meeting reports were presented by both Commissions but no treaties were signed. Eight nations, India, Canada, United States, China, Mexico, Australia, Peru and Spain concluded an agreement regulating the sale and control of silver over a four-year period.

The Conference adjourned adopting a Resolution to keep the machinery that had been set up in being and appointing as an executive Committee the various Chairmen and rapporteurs, with the British Prime Minister as President.

INTERNATIONAL WHEAT CONFERENCE

A Conference of wheat exporting countries and wheat importing Countries was held in London from 21st to 25th August, 1933.

The object of this Conference, which was convened by the Secretary General of the World Economic Conference, at the request of the four principal wheat exporting countries, Canada, Argentine, United States and Australia, and presided over by Mr. R. B. Bennett, Prime Minister of Canada, was the adjustment of exports to effective demand for the purpose of eliminating the abnormal carry-over which had been depressing the wheat market for the last four years and to increase and stabilize the price of wheat at a level which would be remunerative to the farmers and fair to the consumers.

At the conclusion of the Conference—in which the Canadian Premier played a leading part—an agreement was signed by the delegates of all participating Governments undertaking (1) the restriction of areas sown to wheat and the prevention of increased production (2) the promotion of the increased consumption of wheat (3) the adjustment of Customs Tariff when the international price of wheat reached and

maintained for a specific period at a fixed average price and (4) the modification of the general regime of quantitative restriction of wheat imports.

In addition to the four principal exporting countries, the following States were signatories of the Agreement: Austria, Bulgaria, Belgium, Czecho-Slovakia, Denmark, Estonia, Finland, France, Germany, Great Britain, Greece, Holland, Hungary, Irish Free State, Italy, Latvia, Lithuania, Poland, Portugal, Roumania, Spain, Sweden, Switzerland, Turkey, U.S.S.R. and Yugo-Slavia.

The Conference also agreed to the appointment of a Wheat Advisory Committee, with headquarters in London, to work in co-operation with the Economic organization of the League of Nations and the International Institute of Agriculture.

Several sessions of this Committee were held in London during 1934 when Lt.-Colonel George P. Vanier, D.S.O., M.C., was the delegate of the government of Canada.

The Secretary of this Committee is Mr. Andrew Cairns, formerly of the Canadian Wheat Pools.

CONFERENCE OF INSTITUTE OF PACIFIC RELATIONS

The fifth biennial Conference of the Institute of Pacific Relations met at Banff from August 14th to August 26th, 1933. Some 137 delegates from Gt. Britain, Canada, United States of America, China, Japan, Australia and New Zealand attended, in addition to small groups from the Philippine Islands, Hawaii and the French and Dutch East Indies.

Sir Robert Falconer (Canada) was elected Chairman and the British delegation included Sir Herbert Samuel, Lord Snell and Sir John Power.

The object of the Conference was the promotion of international goodwill and the removal of existing causes of friction and future conflict. The leading problems under review were the Sino-Japanese conflict in Manchukuo and the economic struggle between Britain, Japan and India for markets for their cotton goods. With these issues were involved questions on the pressure of population in Japan and China, the industrialisation of Eastern nations, the control of sources of raw material, tariff barriers, currency depreciation and cognate matters.

BRITISH CUSTOMS DUTIES ON IMPORTS

Under the British Import Duties Act, 1932, a duty of customs, known as the "general ad valorem duty", equal to 10 per cent of the value of the goods, is chargeable on all goods imported into the United Kingdom, with certain exceptions.

On specified classes of goods "additional duties" are chargeable as well as the general ad valorem duty. These additional duties are imposed by Treasury Orders made in accordance with the provisions of the Import Duties Act, 1932.

GOODS EXEMPT

The following goods are exempt from the general ad valorem duty and additional duty:

(1) Goods for the time being chargeable with a duty of Customs by or under any enactment other than the Import Duties Act, 1932; except composite goods of which some of the components are liable to such other Customs duty. Such composite goods are chargeable under the Import Duties Act, 1932, only up to the amount, if any, by which the aggregate amount of the general ad valorem duty and the additional duty exceeds the other Customs duty, unless it is otherwise expressly provided in the Schedules of additional duties.

(2) Goods which are consigned direct to a ship-building yard registered by the Commissioners of Customs and Excise and which will be used for the building, repairing or refitting of ships in that yard.

(3) Goods exempt under Imperial Preference. (See below.)

(4) Goods exempt as antiques or as awards for distinction.

(5) Machinery or certain classes or descriptions which is not for the time being procurable in the United Kingdom, if imported under licence issued by the Treasury;

(6) Machinery of certain classes or descriptions which is not for the time being procurable in the United Kingdom, if imported under licence issued by the Treasury.

(7) Goods specifically exempted by the Import Duties Act, 1932, and Treasury Orders made thereunder.

IMPERIAL PREFERENCE

The general conditions governing admission of imported goods to Imperial Preference are that the goods must be shown to the satisfaction of the Commissioner of Customs and Excise to have been consigned from and grown, produced or manufactured in the British Empire. Manufactured articles are not entitled to Preference unless a prescribed proportion of their value is derived from expenditure of a prescribed kind which has been incurred in the British Empire or the United Kingdom in respect of materials grown or produced or work done in the British Empire or the United Kingdom. Different proportions of value have been prescribed for different classes of manufactured goods.

Full information as to the qualifications for and method of claiming preference will be found in Notice No. 27A issued by the Commissioners of Customs and Excise which may be obtained from the Secretary, Custom House, London, E.C.3 from any Collector of Customs and Excise or from H.M. Trade Commissioners and Trade Correspondents in the Overseas Dominions.

Schedules of all dutiable goods and rates of duty are included in the "Customs and Excise Tariff of the United Kingdom and Northern Ireland in operation on 1st August, 1934," published by H.M. Stationery Office, Adastral House, Kingsway, London, W.C.2, price 9d net.

THE BRITISH ARMY

Before the Norman Conquest every freeman was bound to bear arms in defence of his country at the call of the King. This national militia was partially, but never wholly, superseded by the feudal system, introduced by William I, under which lands were held in return for units of cavalry and infantry which had to serve for 40 days at the cost of the lord. In addition, kings frequently maintained mercenaries, first out of their private funds and later out of the royal revenues. Parliamentary consent to the maintenance of an army was established in the seventeenth century as a result of a struggle between the Commons and the Stuarts. The standing army became a national institution under James II, and the Mutiny Act, passed at the accession of William III, in 1689, and which has been renewed annually ever since, forms the basis of army discipline, without which a standing army would be impossible.

ADMINISTRATION

The Army is administered by the ARMY COUNCIL, the President of which is the Secretary of State for War. The other members are the Under-Secretary of State for War, who is Vice President; the Chief of the Imperial General Staff, the Adjutant General, the Quarter-master General, the Master General of Ordnance, the Financial Secretary of the War office and the Permanent Under Secretary of State for War. Only the President and Vice President are political appointments. Both are members of the Ministry which goes out with the resignation of the Prime Minister. The King is *ex-officio* head of the Air Council and Commander-in-Chief of the Army.

COMPOSITION

The Army consists of the REGULAR ARMY, the RESERVES, the TERRITORIAL ARMY, and the ROYAL MARINES, which are administered by the Navy but appear on both the army and the navy lists. Enlistment in all these forces in times of peace is voluntary. The term of service in the regular army is 12 years, of which a period is spent with the colors and the remainder of the term with the reserves.

The role of the British Army as an Imperial police force involves the maintenance of troops in all parts of the world.

COST

The Army Estimates laid before the House of Commons on March 8, 1934, were fixed at a net total of £39,600,000. This was an increase of £1,650,000 over 1933 but less than 1932 by £3,112,000. The number of officers and men provided for was 149,500 as compared with 148,700 in 1933. On 1st April, 1934, the strength of the British Army, inclusive of British troops in India, was approximately 3,800 below establishment, but the British troops in India were up to establishment.

The Estimates provided for the modernization of coast and other defences, the continuation of the programme of mechanization, the building up of suitable reserves of stores, the improvement of barracks and particularly replacement of huttied accommodation and increased facilities for training.

Research and experiments continue in fire-control methods both for coast defence and anti-aircraft guns and in connection with the improvement of sound locators and search-lights for air defence.

REGULAR ARMY

The REGULAR ARMY consists of:

1. Cavalry composed of 2 corps, *i.e.*, Household Cavalry and Cavalry of the Line.
2. Artillery comprising all Royal Artillery units and personnel including the local Brigades and Batteries abroad.
3. The Corps of Royal Engineers divided into Battalions, Engineer Squadrons, Troops and Companies.
4. The Royal Corps of Signals divided into Corps Signals, Divisional Signals, Signal Squadrons, Companies, Troops and Sections.
5. Infantry composed of 5 regiments and 63 County and Rifle regiments.
6. The Royal Tank Corps, which consists of Tank Battalions and Armoured Car Companies.
7. The Royal Army Service Corps which is subdivided into the Horse Transport and Remounts, Supply and Mechanical Transport Sections.
8. The Royal Army Medical Corps.
9. The Royal Army Ordnance Corps.
10. The Royal Army Veterinary Corps.
11. The Army Educational Corps.
12. The Royal Army Pay Corps.
13. The Royal Army Dental Corps.
14. The Corps of Military Police.
15. The Military Provost Staff Corps.
16. The Band of the Royal Military College.
17. The Corps of Small Arms and Machine Gun Schools.

There are also the Royal Army Chaplains Department, Staff for the Royal Engineer Services and Queen Alexandra's Imperial Military Nursing Service.

THE RESERVES

The Army Reserve on 1st April, 1934, numbered 119,500 men who had served with the colors but it was estimated that the number would fall to about 111,300 by 1st April 1935. Before the war this force numbered 145,000. The Supplementary Reserve initiated in 1924 consists of skilled workmen, especially mechanics, motor drivers, electricians and telegraphists. On 1st April, 1934, it numbered approximately 19,800 officers and men, but by 1st April 1935 was expected to rise to 21,000.

THE TERRITORIAL ARMY

THE BRITISH NAVY

THE BRITISH NAVY, as a national force, dates back to the Tudors, although as early as the ninth century, King Alfred maintained ships of war out of the royal revenues. During the middle ages, and even after the reorganization of the Royal Navy by Henry VIII, naval defence was the duty of the ports and sea-board towns—a duty afterwards commuted into money, and levied by Charles I, under the name of Ship Money, in a manner which helped to bring about the Rebellion of 1642. The Navy entered its modern period under Charles II, and was greatly improved and enlarged under his successor, James II (1685-88). It then included 173 ships of a total tonnage of 101,892 tons, carrying, when in commission, 42,003 men and 6,390 guns. During the century which followed, many abuses crept into its management, and in 1797 occurred the mutinies of Spithead and the Nore, which brought

about many reforms in the treatment and feeding of the sailors. At this time (the Napoleonic Wars) the Navy included 411 ships, totaling 402,555 tons. The nineteenth century saw the change from sail to steam and from wood to iron and steel with the consequent steady growth in tonnage, culminating in the modern Grand Fleet.

At the present time the Royal Navy is governed by the Board of Admiralty at Whitehall, headed by the First Lord of the Admiralty who is a member of the Cabinet. In addition the Board includes 4 sea lords, the Deputy Chief of Naval Staff and the Assistant Chief, one Civil Lord, a Parliamentary and Financial Secretary and a permanent Secretary. The Civil Lord and the Parliamentary Secretary are members of the Ministry. The King is *ex-officio* Admiral of the Fleet.

THE ESTIMATES

The NAVY ESTIMATES, presented to the House of Commons on March 8, 1934, called for £56,550,000 (net), or £2,980,000 more than net total of 1933 estimates.

The principal provisions of these estimates in addition to pay of officers and men included those for Fleet Air Arm, Shipbuilding Repairs and Maintenance, Naval Armaments, Works and Building at home and abroad, Educational and Scientific Services, the Admiralty and Royal Naval Reserves.

Personnel was slightly increased, provision being made for 92,338 officers and men as against 90,300 for 1933. Interchange of personnel and co-operation especially for training purposes continue between the Royal Navy and Dominion Navies.

The relative rank of officers is Admiral of the Fleet, Admiral, Vice-Admiral, Rear-Admiral, Commodore, Captain, Commander, Lieut-Commander, Lieutenant, Sub-Lieutenant, Commissioned gunners, boatswains, telegraphists, etc., Midshipmen.

The Royal Navy is organized in nine commands:—

The Nore	Home Fleet
Portsmouth	North America and
Plymouth	the West Indies
Coast of Scotland	Mediterranean
Africa	India

In addition there are the fleets of three Dominions:—the Canadian Squadron, the Australian fleet and the New Zealand fleet, and the new Royal Indian Navy of which the beginning was made in 1926.

INCOME TAX RATES AND ESTATE DUTY IN
GREAT BRITAIN, 1934-1935

The standard rate of Income Tax in the United Kingdom (Great Britain and Northern Ireland) for the year 1934-35 was 4s. 6d. in the pound.

ALLOWANCES TO INDIVIDUALS

Earned Income Allowance. One-fifth of the earned income, up to a maximum allowance of £300 for any individual. Persons aged 65 and upwards whose total income does not exceed £500 are entitled to a deduction of one-fifth of their total income, whether earned or derived from investments; in the case of married couples this relief is granted when either spouse reaches the age of 65.

The balance remaining after deducting the earned income allowance from the taxpayer's total income (as computed for Income Tax purposes) is known as the "assessable income." The following deductions are made from the assessable income:—

Personal allowance. Married man £150; other persons £100.

Additional allowance for wife's earned income, four-fifths of that income up to a maximum of £45.

Children under 16 years of age, or over 16 if continuing full-time education. £50 for one child and £40 for each subsequent child.

Widower's or Widow's housekeeper £50. Unmarried person's *widowed mother or other female relative* taking care of children, £50.

Dependent relatives incapacitated by old age or infirmity, £25.

The income remaining after deduction of these reliefs is known as the taxable income; the first £175 of taxable income is charged at $\frac{1}{2}$ the standard rate of tax (2s 3d.), and the remainder at the standard rate (4s 6d.). Certain deductions from the total tax payable are allowed in respect of Life Insurance Premiums and Dominion Income Tax relief, in accordance with statutory provisions.

Example. The effect of the above allowances is that a married taxpayer with a total income wholly earned of £600, and having 3 children under 16 years of age and supporting a dependent relative, would be assessed as follows:—

Total income.....	£600

Earned income allowance $\frac{1}{5}$	£120

Taxable income.....£175

Tax at 2s 3d in the £ = £19 13s 6d.

RATES OF INCOME TAX

The standard rate of Income Tax was at its highest from 1918 to 1922, when it was 6s 0d in the £. In 1907 and 1908 the rate was 1s. 0d in the £ and from 1909 to 1913 it was 1s 2d. For the last normal year at this rate the net produce was £43,523,000, as compared with £353,219,000 for 1920. The rates have been as follows from 1914:

1914	1s. 8d.	1918-19-20	6s. 0d.
1915	3s. 0d.	1922	5s. 0d.
1916-17	5s. 0d.	1923-24	4s. 6d.
1925-29	4s. 0d.	1930	4s. 6d.
1931-33	5s. 0d.	1934	4s. 6d.

SUR-TAX

On incomes in excess of £2,000 a further charge or tax is imposed, called the Sur-tax, which is payable as a deferred instalment of Income Tax on the 1st January following the year of assessment. Thus the Sur-tax in respect of the year 1930-31 will be payable on the 1st January, 1932. The additional rates charged on these incomes begin at 1/- in the £ on the first £500 of the excess over £2,000, and rise by steps to the rate of 7s. 6d. in the £ payable on the excess over £50,000. For the years 1930 to 1933 an addition of 10% was made to the sur-tax payable on 1st January, 1932, 1933, 1934 and 1935 respectively.

DOUBLE TAXATION

A person liable to British Income Tax on any part of his income which has already suffered tax in a British Dominion is entitled to relief from British tax thereon to the extent of either (a) the Dominion rate of tax, or (b) one-half of the appropriate rate of British tax (including Sur-tax) *whichever is the less.*

Special arrangements are in force between the United Kingdom of Great Britain and Northern Ireland and the Irish Free State, whereby each country exempts from Income Tax and Sur-tax income arising within its borders to persons who are resident in the other, and grants relief from double taxation to persons resident in both countries in respect of income taxed by both.

COLLECTION FROM TAXPAYER LEAVING CANADA

The Minister, if he suspects that the taxpayer is about to leave Canada, may, for that or any other reason, by registered letter addressed to the taxpayer, demand payment of all taxes, penalties and accrued interest for which the taxpayer is liable, and the same shall be paid within ten days from the date of mailing of such registered letter, notwithstanding any other provision in this Act contained. Non-payment of the said tax within the specified time shall render the goods of the taxpayer liable to seizure by the sheriff of the city, county or district in which the goods of the taxpayer are situate. A certificate of non-compliance with any such demand, signed by the Commissioner of Income Tax, setting forth the particulars of the demand and placed in the hands of the sheriff, shall be sufficient authority to him to seize sufficient of the goods of the taxpayer to meet the said demand.

The sale of such goods, and the disposition of the monies realized, shall be conducted in the manner prescribed by the law of the province in which the goods are situate as if the seizure were made under a writ of execution issued out of the Superior Court of the said province.

PENALTY FOR LATE FILING OF RETURNS

Every person failing to deliver a return of income within the time limited therefor shall be liable to a penalty of five per centum of the tax payable by such person: Provided, however, that such penalty shall not in any case exceed five hundred dollars.

Every person failing to deliver a return of information within the time limited therefor, shall be liable to a penalty of ten dollars for each day of default: Provided, however, that such penalty shall not in any case exceed fifty dollars.

In the case of a return by an employer the penalty shall be further limited to two dollars for every day of default with a maximum of fifty dollars.

In the case of religious, charitable, agricultural and educational institutions and boards of trade and chambers of commerce, default shall not be deemed to have commenced until the expiry of thirty days from the date of the mailing of a demand for a return by the Minister.

OMITTED INCOME DOUBLED

If any person omits to declare any dividends, rentals, interest, royalties or other like income which, on any inquiry by the Department of National Revenue or on information obtained from any person other than the taxpayer, is subsequently duly ascertained to have been received, such person may be assessed as if double the income so omitted from his return had been received.

The estate of a deceased taxpayer shall be liable in respect of any tax arising by reason of any omission so ascertained whether the omission was discovered prior or subsequent to the decease of the taxpayer.

This section shall not be construed as providing for a penalty in substitution for any penalties otherwise provided for in this Act.

SECRECY

Section 81 provides that all information received by the Government is held in secret.

APPEALS

Sections 58 to 69 of the Act provide the necessary machinery for dealing with Appeals against assessments made. The taxpayer objecting to an assessment must file a Notice of Appeal in the form prescribed by the Act within one month from the date of the issue of the Notice of Assessment and provided the taxpayer furnishes security to the satisfaction of the Minister in a sum not less than \$400.00 for the security of the costs of the Appeal the matter is referred to the Exchequer Court of Canada for adjudication.

In case of any further information being required, application should be made to the Commissioner of Income Tax, Ottawa.

The arms are those of England, Scotland, Ireland and France, with a "difference" to mark them as Canadian, namely, on the lower third of the shield, a sprig of maple on a silver shield. The crest is a lion holding in its paw a red maple leaf, a symbol of sacrifice. The supporters are, with some slight distinctions, the lion and unicorn of the Royal Arms; the lion upholds the Union Jack, and the unicorn the ancient banner of France.

The motto—A MARI USQUE AD MARE—"From sea to sea"—is an extract from the Latin version of verse 8 of the 72nd Psalm—"He shall have dominion also from sea to sea, and from the river unto the ends of the earth."

There is a tradition, that the Fathers of Confederation derived the designation "Dominion" from this verse.

DOMINION PARLIAMENTARY REPRESENTATION

AS PROVIDED BY THE BRITISH NORTH AMERICA ACT, ETC.

REPRESENTATION BY PROVINCES

The four original provinces of the Dominion were Ontario, Quebec, Nova Scotia and New Brunswick, which were given parliamentary representation according to Section 37 of the British North America Act, 1867. By Imperial Orders in Council the provinces of British Columbia and Prince Edward Island were admitted into the Dominion, the former on July 20, 1871, by Order dated May 16, 1871, and the latter on July 1, 1873, by Order dated June 26, 1873. An Act of the Dominion Parliament of May 12, 1870 provided for the formation of the province of Manitoba out of Rupert's Land and the Northwest Territories as soon as these should be admitted into the Dominion of Canada, which admission was effected by Imperial Order in Council dated June 23, 1870, taking effect July 15, 1870. In consequence of doubts as to the legal validity of the Dominion Act of 1870, The Imperial Parliament passed an Act in 1871 making the Canadian Act valid and effectual.

PARLIAMENT OF CANADA

The Parliament of the Dominion of Canada consists of the Senate with 96 members and the House of Commons with 245 members, senators being appointed for life by the Governor-General and members of the House of Commons being elected by the people. The ordinary legal limit of duration for each parliament is five years, sitting at least once each year; but by Act of Imperial Parliament passed June 1, 1916, the duration of the 12th Parliament of Canada was extended until October 7, 1917. The 12th Parliament of Canada was dissolved by proclamation of the Governor-General on October 6, 1917, and the 13th Parliament of Canada was elected on December 17, 1917. The Speaker is appointed by the House. A redistribution Act passed after each census readjusts the number of representatives in the House of Commons in accordance with rules laid down in Section 51 of the British North America Act, 1867, of the Imperial Parliament. These rules provide that the province of Quebec shall always have a fixed number of 65 members and that there shall be assigned to each of the other provinces such a number of members as will bear the same proportion to the number of its population (ascertained by the census) as the number 65 bears to the population of Quebec. However by an amendment to the British North America Act passed by Imperial Parliament in 1915, it was enacted that "notwithstanding

anything in the said Act, a province shall always be entitled to a number of members in the House of Commons not less than the number of senators representing such province." As a consequence of this amendment the representation of Prince Edward Island has remained at 4 members.

THE SENATE

Senators are appointed for life; must be British subjects and 30 years of age; must own lands worth net \$4,000 in the province which they represent, and must be worth \$4,000 above all debts. They must be residents of the province for which elected or of the electoral division in the Province of Quebec.

The Speaker is appointed by the Governor-General.

The numerical representation of the Senate by provinces is as follows: Prince Edward Island 4, Nova Scotia 10, New Brunswick 10, Quebec 24, Ontario 24, Manitoba, 6, Saskatchewan 6, Alberta 6, British Columbia, 6. Total 96.

HOUSE OF COMMONS

The representation of the people in the House of Commons has been governed by Acts of Dominion Parliament passed in 1903, 1904 and 1907. The provinces of Saskatchewan and Alberta were created by Acts of Dominion Parliament passed in 1905 and after the Northwest Census of 1906 the Representation Act was amended by an Act of April 27, 1907 which gave Saskatchewan ten members and Alberta seven members after the next ensuing election of October 26, 1908. The seven additional members thus given to Saskatchewan and Alberta brought the representation of Canada in the House of Commons up to 221. The Representation Act, 1914 which was assented to on June 12, 1914, came into operation for the election of the 13th Parliament of Canada. An amending Act and the Imperial Act 5-6, provided that the House of Commons should consist of 235 members.

CENSUS 1921-1931

As a result of the census of 1921, a Bill was passed at the close of the 1924 session providing for a representation in the fifteenth Parliament of 245 members. Following the 1931 Census a Bill was introduced in October, 1932, redistributing membership as follows:

Ontario, 82, Quebec 65, N.S. 12, N.B. 10, Manitoba, 17, B.C. 16, P.E.I. 4, Sask. 21, Alberta 17, Yukon 1.

The personnel is designed to coalesce the facilities of various federal services in regard to geological, engineering and economic studies relating to the fuel problem, and to co-ordinate the results of other previous investigations, which, though conducted independently, have a common bearing upon that subject.

INDIAN AFFAIRS

The Department of Indian Affairs was constituted in May, 1880, (43 Vic. Chap. 28). Up to 1830 the administration of the Indians was of a military character. For six years after Confederation, Indian Affairs was attached to the Department of the Secretary of State. In 1873 it was transferred to the Department of the Interior, and finally in 1880 the separate Department of Indian Affairs was established under the direction of the Minister of the Interior. The Indians to-day number more than 108,000, and are located on over 5,120,719 acres, divided into about 2,084 Reserves. Two important features of the administration are education and farming; 345 Indian Schools of all classes are in operation, working in conjunction with the various churches, educating 17,448 pupils; while about 237,228 acres are under cultivation. The Indians' progress in farming has been steady from year to year. A further important part of the administration is the Indian Trust Fund, which in 1933, amounted to \$13,580,007.18 and is maintained from a percentage of all sales or leases of land, timber, and mineral.

MINES

In 1842 a Geological Survey was inaugurated in Canada, and has since remained continuously in operation, but was not established by a statutory enactment until 1890 (53 Vic. Chap. 11). In 1907 this Act was repealed and a Department of Mines established (6-7 Edward VII, Chap. 29). The functions of the department are broadly scientific. Dominion-wide explorations and investigations are conducted and elaborate reports furnished to the public as to the natural resources of the Dominion in respect of mineral, forest, fuel, water supply, etc. Laboratories are maintained for chemical and mineralogical investigations and for investigations of structural materials and materials used for road building and in the ceramic industry. Experimental stations are operated by the Divisions of Fuel Testing and Ore Dressing and Metallurgy. A Museum of Economic Mineralogy is conveniently situated for the public in the business area of the city of Ottawa. The study of archaeology, palaeontology, ethnology, and many of the natural sciences is advanced by the investigations of the scientists of this department, and the National Museum of Canada at Ottawa, which is under its jurisdiction, contains exhibits of both a utilitarian and cultural value.

The Dominion Fuel Board, which is described elsewhere in this volume, is closely allied to the Department of Mines by the nature of its investigations. (See page 382.)

NATIONAL REVENUE

The Department of Customs was constituted in 1867, (31 Vic. Chap. 43). Its work was the control and management of the collection of the Duties of Customs, and of matters relating thereto. In April, 1921, the Department of Inland Revenue, the work of which was the collection of all Duties of Excise, was amalgamated with the Department of Customs, under the title of Department of Customs and Excise, (11-12 Geo. V., 26).

In 1924, Income Taxation was transferred to this department from the Department of Finance. As this Department collects the great bulk of the revenue of the Dominion, its name was changed to Department of National Revenue as from April 1st, 1927 (17 Geo. V., Chap. 34).

PENSIONS AND NATIONAL HEALTH

The Department under its present name was constituted by Order-in-Council in December, 1928. It merged the Departments of Soldiers' Civil Re-Establishment and Health.

The Department of Soldiers' Civil Re-Establishment was formed from the Military Hospitals Com-

mission in February, 1918, and continued under that name until December, 1928. It is now known as the Pensions Division of the Department of Pensions and National Health. Its duties include the provision of medical treatment, and the administration of returned soldiers' affairs generally, other than matters relating to the award of pensions.

The duties and responsibilities of the Canadian Pension Commission and the Pension Appeal Court are set forth in the Pension Act and embrace the award and administration of pensions under that Act. The Canadian Pension Commission also administers the Returned Soldiers' Insurance Act.

The War Veterans' Allowance Committee is charged with the operation and administration of the War Veterans' Allowance Act.

The National Health Division, formerly the Department of Health, was first constituted in June, 1919. It administers the Food and Drugs, Honey, Opium and Narcotic Drugs, Proprietary or Patent Medicines, Quarantine, Leprosy and Public Works Health Acts, and also Part V of the Canada Shipping Act relating to the care of sick and distressed mariners and the collection of Sick Mariners' Dues. It deals with all matters and questions relating to the promotion, or preservation of the health of the people of Canada, over which the Parliament of Canada has jurisdiction, particularly in the following:—Co-operation with the provincial and other health authorities in the promotion of child welfare and in combating Venereal Diseases; Maintenance of a Medical Research Standardizing and Testing Laboratory; Immigration Medical Inspection; Pollution of Boundary Waters; and the supervision of sanitary conditions and hospitalization for employees on public works.

DOMINION OF CANADA OLD AGE PENSIONS ACT

The Dominion Old Age Pensions Act provides for the establishment of a Dominion-provincial pension system to be effective in such provinces as have enacted and given effect to special legislation for this purpose, and authorizes the reimbursement to the provinces quarterly of seventy-five per cent. of the sums paid by the respective provinces on account of old age pensions. At present (1934) the old age pension system is in effect in British Columbia, Alberta, Saskatchewan, Manitoba, Ontario, Nova Scotia, Prince Edward Island and the North-West Territories. Enabling legislation has also been enacted in New Brunswick, which is to come into force on proclamation.

Under the statute, provision is made for the payment of a pension to any person who, at the date of the proposed commencement of the pension,

- (a) Is a British subject, or being a widow who is not a British subject, was such before her marriage.

- (b) Has attained the age of seventy years;
(c) Has resided in Canada for twenty years;
(d) Has resided in the province in which the application for pension is made for five years.
(e) Is not an Indian as defined by The Indian Act;
(f) Is not in receipt of an income of as much as \$365 a year, and;
(g) Has not made any voluntary assignment or transfer of property for the purpose of qualifying for a pension.

The maximum pension is \$240 a year and is to be reduced when the pensioner has an income in excess of \$125 a year, so that the pensioner's income and the amount of the pension together will not exceed \$365 a year. For example, if the pensioner has an income of \$200 a year the pension will be \$165 a year. Where the applicant has an income of \$365 a year or more no pension can be granted.

Administration of old age pensions is entrusted to the authorities appointed by the respective provincial governments, to whom applications are to be made.

For Provincial Pensions Commissioners, see index under "Old Age Pensions".

ROYAL CANADIAN MOUNTED POLICE

HEADQUARTERS - OTTAWA

Honorary Commandant, HIS ROYAL HIGHNESS THE PRINCE OF WALES

In 1873 the North West Mounted Police was constituted, (36 Vic. Chap. 35), to provide Police protection in the unsettled portions of the North West. In 1904 the title "Royal" was given to the Force. In 1920 the Dominion Police was amalgamated with this Force and the name changed to "Royal Canadian Mounted Police". The headquarters were moved from Regina to Ottawa and the Force may now be called upon to perform duties in any portion of the Dominion. In 1928 the Royal Canadian Mounted Police absorbed the Saskatchewan Provincial Police and in 1932 the Provincial Police Forces of Alberta, Manitoba, New Brunswick, Nova Scotia and Prince Edward Island were absorbed in like manner. During the year 1932, the Force also assumed the administration of the Preventive Service Branch of the Department of National Revenue. GAME LAWS, FISHERY REGULATIONS, CLOSE SEASONS, LICENSES, &c.

The right of fisheries legislation for all parts of Canada rests with the Dominion authorities. The tidal fisheries of the Maritime Provinces, British Columbia and the fisheries of the Yukon Territory are administered by the Dominion. The non-tidal fisheries of Nova Scotia are also administered by the Dominion. The non-tidal fisheries of New Brunswick and Prince Edward Island, all the Quebec fisheries except those of the Magdalen Islands, the non-tidal fisheries of Ontario, the non-tidal fisheries of Manitoba and the fisheries of Saskatchewan and Alberta are administered by the respective Provinces.

Migratory birds are protected under a Dominion law known as the Migratory Birds Convention Act, which is administered by the Department of the Interior, J. B. Harkin, Commissioner, Ottawa, Canada. This Act is based upon the Migratory Birds Treaty with the United States.

With this exception, and except in National Parks, game laws are under the jurisdiction of the various provinces.

Bird sanctuaries have been established under the Migratory Birds Convention Act, referred to above, and by many of the provinces as well.

Details as to close seasons, licenses, etc., are not given here, owing to the fact that regulations for the ensuing months are, in some cases, not available when this volume goes to press and where available are often subject to changes before the opening of the season.

Full information may be obtained by writing to the following addresses: Migratory Birds: J. B. Harkin, Commissioner, Dept. of the Interior, Ottawa.

LIQUOR CONTROL IN CANADA

We give below a brief summary of the method of controlling the sale of intoxicating liquors in the various Provinces.

The names and personnel of the various Liquor Control Boards are given under each Province. See index "Liquor Control."

ALBERTA

Spirits, wines and beers are sold in Government stores to permit holders.

Beer in unopened bottles may be sold by licensed hotels to persons over twenty-one years of age, and who are not disqualified under the Act.

Beer by the glass or open bottle may be sold by Clubs for consumption on the premises.

General liquor permits are sold both to citizens and visitors at a cost of 50c., permits being good until the 31st of December in the year of issue.

BRITISH COLUMBIA

The sale of liquor in sealed packages is made to permit-holders at Government Liquor Stores.

Beer Licences are issued to permit the sale of beer by the glass and by the unopened bottle for consumption in beer parlours or elsewhere. The sale of beer by the glass is also permitted in Veterans' Clubs which are licensed for that purpose.

Club Licences are issued in respect of premises kept and operated as a club entitling each member of the club to keep on the premises a reasonable quantity of liquor for personal consumption on the premises.

MANITOBA

Intoxicating liquor is sold in Government stores.

Persons resident in the Province or visitors being over the age of twenty-one years, and not otherwise prohibited, may purchase for the sum of \$1.00 a liquor permit which entitles them to purchase liquor in sealed packages at the Government stores in such quantity as is set forth in the "Government Liquor Control Act, 1928."

The beer parlour licenses for the sale of beer only are issued to approved hotels throughout the Province.

NEW BRUNSWICK

Intoxicating liquor is sold only in sealed packages and only at the Government stores. No permit is required. No club or banquet permits are issued.

NOVA SCOTIA

Liquor can only be sold in sealed packages through the Government stores. A permit is required for spirits, but not for wine or beer.

ONTARIO

Spirituous liquor in Ontario is sold in Government owned Stores by the bottle. Those desiring to purchase same must secure Government Liquor Permits. Beer is procurable without permits from Government owned Stores, Brewery Warehouse and Breweries, as well as from licensed premises, i.e., Standard Hotels, Beverage Rooms, Clubs, Steamboats and on Railway trains.

Wine may be purchased without permits at the Government owned Stores and at Wineries, as well as at meals in licensed premises, i.e., Standard Hotels, Clubs, Steamboats and on Railway trains.

PRINCE EDWARD ISLAND

This is the only Province under a prohibitory law. Intoxicating liquors in sealed packages may be obtained from retail vendors under the Prohibition Act on physicians' prescriptions setting out that such is for "medical purposes and not as a beverage."

QUEBEC

Spirits are sold in Quebec Liquor Commission's stores one bottle at a time. Beer may be sold to the public by taverns and grocery stores, and beer and wine by hotels, restaurants and clubs, under licenses for each of the foregoing classes.

Municipalities may declare by by-law that no alcoholic liquor of any description may be sold within their territory.

SASKATCHEWAN

The sale of liquor is restricted to the Liquor Board's stores. Purchases may be made without any permit, the maximum quantity which may be so purchased by any person in one day being one quart of spirituous liquor, one gallon wine and two gallons of beer. Sales are made exclusively in sealed packages.

COURTS AND JUDGES—ONTARIO

The Supreme Court consists of two Divisions, viz. The Court of Appeal and The High Court of Justice. The Court of Appeal considers appeals from decisions of the lower courts. The High Court of Justice considers various cases, criminal and civil, without such limitations as apply to the lower courts. A trial judge sits several times each year in the various counties and judicial districts. The next lower Courts are the County and District Courts and the Division Courts. The County Court Judges are also Surrogate Judges. The Surrogate Courts deal with wills, and estates of deceased persons.

Appeals may be taken from the Provincial Courts to the Supreme Court of Canada in certain cases. The Exchequer Court of Canada tries cases with which the Crown is concerned, admiralty matters, patents, copyrights, trade marks, Dominion Revenue, railways under the authority of parliament, and railways not wholly within one province, and disputes between Provinces.

There is an Ontario branch of the Exchequer Court, known as the Toronto Admiralty Division.

TABLE FOR FIGURING NET PROFITS

If your cost of doing business figured on sales is represented by one of the figures in the top horizontal line, and you advance your goods above delivered cost at one of the percentages in left hand column,—your percentage of net profit is represented by the figure at the junction of the two columns.

%	10%	11%	12%	13%	14%	15%	16%	17%	18%	19%	20%	21%	22%	23%	24%	25%

100	40	39	38	37	36	35	34	33	32	31	30	29	28	27	26	25

EXPLANATION:—If your cost of doing business is 15% of your gross sales and you mark a line at 25% above cost, your net profit is 5% on sales as shown in the diagram. If your cost of doing business is 18% and you mark a line at 60% above cost, your net profit is 19½% of sales.

RULE

Divide the cost (invoice price with freight added) by the figure in the column of "net rate per cent profit desired" on the line with per cent it cost you to do business.

EXAMPLE:

If a wagon costs.....	\$60.00	$\frac{76}{61.2000} \div \frac{\$80.50}{152} = \text{the selling price}$
Freight.....	1.20	
	\$61.20	608
		400
You desire to make a net profit of..... 5%		380
It costs you to do business..... 19%		200
Take the figure in column 5 on line with 19 which is 76		152

The percentage of cost of doing business and profit are figured on selling price.

THE SYNAGOGUE IN CANADA

Though the Jews of Canada number more than 150,000, there is no federation of synagogues in Canada. Each synagogue is autonomous, is responsible to no superiors, affiliated with no hierarchy. Any group of Jews may form a synagogue, which does not necessarily require the services of a rabbi, any individual being eligible to lead in the recital of prayers.

There are three tendencies evident in Canadian Judaism—orthodox, conservative and reform. The orthodox tendency parallels the fundamentalist movement in Christianity; the reform tendency is modernism in Judaism; the conservative tendency is the middle movement.

The Holy Blossom Synagogue of Toronto and the Temple Emanu-El of Montreal are affiliated with the Union of American Hebrew Congregations, the federation of reform synagogues. The Shaar Hashomayim Synagogue of Montreal, the Goel Tzedec of Toronto and Beth Israel of Vancouver are affiliated with the United Synagogue of America (conservative). Most of the Canadian congregations are unaffiliated with any parent organization. These parent organizations have no authority over their constituent members.

Some external innovations of the reform group are worshipping without hats, the use of mixed choir and organ, the institution of a Sunday morning service (only at Holy Blossom Synagogue, Toronto) in addition to the Saturday morning service, the reading of prayers in English as well as in Hebrew, the addition of a sermon in English, and the sitting of men and women together. English prayers and sermons are also given in conservative synagogues. Most synagogues have religious schools. Some of these schools have sessions on Saturday and Sunday, and others on week days after public school hours. Among the leading synagogues of Canada are:

TORONTO, ONT.—Holy Blossom Synagogue (reform)
115 Bond St., Maurice N. Eisendrath, M.A.,

It is somewhat outside the scope of The Canadian Almanac to give the complete text of the Succession Duty Acts of the various Provinces of Canada. A resumé of the Ontario Act is here given, and, in addition, tables showing certain rates of duty applicable in the other Provinces, together with certain surtaxes and exemptions, in the case of beneficiaries related in the direct line or by marriage, the exact relationship being shown at the head of each column.

In addition to the rates shown, there are higher rates applicable where beneficiaries are less directly connected, and in some Provinces, further duties or surtaxes are imposed where individual bequests or the value of estates exceed certain sums.

The information hereunder, therefore, being only partial, legal advice should be sought in specific cases.

SURTAX

An additional duty by way of Surtax of 10% on all duties imposed under this Act shall be levied and added to and collected with such duties.

Every person applying for Letters Probate or Letters of Administration to the estate of the deceased person must file with the Surrogate Registrar within three months after the death of the deceased or such later time as may be allowed by the Provincial Treasurer, a statement duly verified in accordance with the prescribed regulations.

The Act provides that if Succession Duties are payable to any other Province or Country with which Ontario has a reciprocal arrangement for so doing, a rebate of the duty on such outside property may be allowed, either by Ontario or such other Province or Country.

The duty may be paid within six months after the death of the deceased without interest, but if not then paid, interest at six per cent per annum will be charged from date of death until the duty is paid.

Where an estate includes Ontario securities issued under provisions exempting them from succession duty, the Treasurer may require that such securities form part of payment of succession duties.

There are a number of provisions in the Statute concerning the remission of duty in cases of persons killed on active service; prohibiting the transfer of any property etc. without the consent of the Treasurer; and as to the mode of ascertaining the value of property, the amount of duty thereon and the payments thereof; and it would be generally advisable to consult a Solicitor to prevent complication and delay.

*SUCCESSION DUTIES, OTHER PROVINCES

The following rates of duty apply in all provinces except Manitoba, to FATHER, MOTHER, HUSBAND, WIFE, SON-IN-LAW, DAUGHTER-IN-LAW; and to CHILD in all Provinces except P.E.I. In certain provinces the rates apply also to other relationships, as shown at the head of the columns below:

NOTE that the rates hereunder are basic rates only. In some provinces, under certain circumstances, further duties are payable in addition to the basic rate, and there may be further exemptions to modify these rates. See tables "Surtaxes and Exemptions" following this table.

TRADE MARKS, DESIGNS, TIMBER MARKING.

THE UNFAIR COMPETITION ACT, 1932

22-23 GEORGE V, CHAP. 38

A brief summary follows. A copy of the Act may be procured from Commissioner of Patents, Trade Mark Branch, Ottawa. It is suggested a competent attorney be consulted. The names of a number of such appear in these pages.

This Act came into force Sept. 1st, 1932, and repeals the Trade Marks and Industrial Designs Act in part as follows: Sections 3, 4 to 21 inclusive, 23 and 53 are repealed; and sections 42 to 52 are amended by striking therefrom the words "trade mark" and "trade marks" and any other words exclusively relating to said words.

DESIGN MARK

DESIGN MARK means a trade mark consisting of an arbitrary and in itself meaningless mark or design, or of a representation of some object or objects, or of letters or numerals in series or otherwise, or of a combination of two or more of the foregoing elements, and depending for its distinctiveness upon its form and colour, or upon the form, arrangement or colour of its several parts, independently of any idea or sound capable of being suggested by the particular sequence of the letters and/or numerals, if any, forming part, thereof, or by their separation into groups, and includes any distinguishing guise capable of constituting a trade mark.

DISTINGUISHING GUISE

DISTINGUISHING GUISE means a mode of shaping, moulding, wrapping or packing wares entering into trade or commerce which, by reason only of the sensory impression thereby given and independently of any element of utility or convenience it may have, is adapted to distinguish the wares so treated from other similar wares and is used by some person in association with his wares in such a way as to indicate to dealers in and/or users of similar wares that the wares so treated have been manufactured or sold by him.

OWNER

OWNER in relation to a trade mark, means either the person who has an exclusive right to use the mark in association with his wares in such a way as to indicate to dealers in and/or users of such wares that they have been manufactured, sold, leased or hired by him, or, in the case of a trade mark adopted for use in such a way as to indicate only that the wares in association with which it is used are of a defined standard or that they have been produced under defined working conditions, by a defined class of persons or in a defined territorial area, means the person, trade union, commercial association or administrative authority by which the said standard, working conditions, class of persons or area has been defined.

TRADE MARK AND WORD MARK

TRADE MARK means a symbol which has become adapted to distinguish particular wares falling within a general category from other wares falling within the same category, and is used by any person in association with wares entering into trade or commerce for the purpose of indicating to dealers in, and/or users of such wares that they have been manufactured, sold, leased or hired by him, or that they are of a defined standard or have been produced under defined working conditions, by a defined class of persons, or in a defined territorial area, and includes any distinguishing guise capable of constituting a trade mark.

TRADE NAME means the name under which any business is carried on, whether the same is the name of a corporation, a partnership or an individual.

WORD MARK means a trade mark consisting only of a series of letters and/or numerals and depending for its distinctiveness upon the idea or sound suggested by the sequence of the letters and/or numerals and their separation into groups, independently of the form of the letters or numerals severally or as a series.

UNFAIR COMPETITION

No person shall knowingly adopt for use in Canada in connection with any wares any trade mark or any

distinguishing guise which

3. (a) is already in use in Canada by any other person and which is registered pursuant to the provisions of this Act as a trade mark or distinguishing guise for the same or similar wares;

(b) is already in use by any other person in any country of the Union other than Canada as a trade mark or distinguishing guise for the same or similar wares, and is known in Canada in association with such wares by reason either of the distribution of the wares in Canada or of their advertisement therein in any printed publication circulated in the ordinary course among potential dealers in and/or users of such wares in Canada; or

(c) is similar to any trade mark or distinguishing guise in use, or in use and known as aforesaid.

4. (1) The person who, in association with wares, first uses or makes known in Canada, as provided in the last preceding section, a trade mark or a distinguishing guise capable of constituting a trade mark, shall be entitled to the exclusive use in Canada of such trade mark or distinguishing guise in association with such wares, provided that such trade mark is recorded in the register existing under the *Trade Mark and Design Act* at the date of the coming into force of this Act, or provided that in compliance with the provisions of this Act he makes application for the registration of such trade mark within six months of the date on which this Act comes into force, or of the date of his first use thereof in Canada, or of the date upon which the trade mark or distinguishing guise was first made known in Canada, as provided in the last preceding section, and thereafter obtains and maintains registration thereof under the provisions of this Act.

TIME FOR APPLICATION

(3) Notwithstanding the provisions of subsection one of this section, the person who first uses or makes known in Canada, in association with wares a trade mark or a distinguishing guise capable of constituting a trade mark may apply for and secure registration thereof after the expiration of any of the periods of six months specified by subsection one, provided the same or a similar trade mark or distinguishing guise has not been registered by another for use in association with the same or similar wares, but such application shall not be allowed or the registration of such trade mark made before the expiration of a period of six months from the date of such application.

REGISTER OF TRADE MARKS

22.(1) There shall be kept under the supervision of the Registrar a register of trade marks in which, subject as hereinafter provided, any person may cause to be recorded any trade mark he has adopted, and notifications of any assignments, transmissions, disclaimers and judgments relating to such trade mark.

(2) The register shall specify the date upon which each of the trade marks recorded therein was registered, and shall contain an abstract of the statements contained in the applications for the registration of such marks respectively, and of any documents

deposited with such applications, or filed with the Registrar subsequent to the making of the applications and affecting the right to such trade marks respectively.

23. (1) The register now existing under the *Trade Mark and Design Act* shall form part of the register maintained pursuant to this Act, and, subject as hereinafter provided, all entries therein shall hereafter be governed by the provisions of this Act, but shall not, if properly made under the law in force at the time they were made, be subject to be expunged or amended only because they might not properly have been made hereunder.

(2) The Registrar may at any time, and shall at the request of any applicant for the registration of a trade mark under this Act, by notice in writing require the owner of any trade mark or union label on the register at the date of the coming into force of this Act to furnish to him within four months from the date of the notice the information which would have been required on an application for the registration of such trade mark under this Act.

(3) If such information is not furnished pursuant to such notice, the Registrar shall by a further notice, fix a reasonable time within which, if the information is not furnished, the record of the registration shall be liable to be expunged, and it may be expunged accordingly by the Registrar if no objection is made by the owner of the mark, or by judgment, declaration or order of the Exchequer Court of Canada if he enters an objection.

(4) Any such notice as aforesaid shall be deemed to have been sufficiently given if sent to the person appearing from the record to be the owner of such mark addressed to him at his address as stated in the application for the registration of the mark or for the last renewal thereof, and if any other later or more accurate address is known to the Registrar, at such later or more accurate address, and also addressed to him in care of the person to whom the certificate of registration or of the last renewal thereof was sent at the time of its issue.

(5) Marks registered before the coming into force of this Act shall be treated as word marks or as design marks according to the following rules:—

- (a) Any mark consisting of words and/or numerals only without any indication of a special form of appearance shall be deemed to be a word mark;
- (b) Any other mark consisting of words and/or numerals only shall be deemed to be a word mark if at the date of its registration the words and/or numerals would have been registrable independently of any defined special form or appearance and shall also be deemed to be a design mark for reading matter presenting the special form or appearance defined;
- (c) Any mark including words and/or numerals in combination with other features shall be deemed to be a design mark having the features described in the application therefor but without any meaning being attributed to the words or numerals, which shall, however, also be deemed to constitute a word mark if and so far as they would at the date of registration have been registrable independently of any defined form or appearance and without being combined with any other feature;
- (d) Any other mark shall be deemed to be a design mark having the features described in the application therefor.

REGISTRABLE TRADE MARKS

26. (1) Subject as otherwise provided in this Act, a word mark shall be registrable if it

- (a) does not contain more than thirty letters and/or numerals divided into not more than four groups;
- (b) is not the name of a person, firm or corporation;
- (c) is not, to an English or French speaking person, clearly descriptive or misdescriptive of the character or quality of the wares in connection with which it is proposed to be used, or of the conditions of, or the persons employed in, their production, or of their place of origin;

- (d) would not if sounded be so descriptive or misdescriptive to an English or French speaking person;
- (e) is not the name in any language of any of the wares in connection with which it is to be used;
- (f) is not similar to, or to a possible translation into English or French of, some other word mark already registered for use in connection with similar wares; and
- (g) is not such as to suggest the name in French or English of some feature of a design mark already registered for use in connection with similar wares which is so characteristic of the design mark that its name would not be unlikely to be used to define or describe the wares in connection with which the design mark is used.

(2) An application for the registration of a word mark otherwise registrable shall not be refused on the ground that the mark consists of or includes a series of letters or numerals which also constitute or form part of the name of the firm or corporation by which the application for registration is made.

27. Subject as hereinafter provided, any design mark may be registered if it

- (a) is not identical with or similar to any design mark already registered for use in connection with similar wares;
- (b) is not such as to be likely to mislead dealers in and/or users of the wares in connection with which it is proposed to be used as to the character or quality of such wares or as to the conditions of or the persons employed in their production or as to their place of origin;
- (c) is not such that, by reason of one of its principal characteristics being a representation of something which obviously suggests a word mark already registered for use in connection with similar wares, it is likely that such word mark, or some word resembling the same, would be used to define or describe the wares in connection with which the design mark is used.

APPLICATION FOR REGISTRATION

30. (1) Any person who desires to register a trade mark under this Act otherwise than pursuant to a judgment, order or declaration of the Exchequer Court of Canada shall make an application in writing to the Registrar in duplicate containing

- (a) a statement of the date from which the applicant or named predecessors in title has or have used the mark for the purposes defined in the application and of the countries in which the mark has been principally used since the said date;
- (b) a statement that the applicant considers that, having regard to the provisions of this Act, he was and is entitled to adopt and use the mark in Canada in connection with the wares described; and
- (c) the address of the applicant's principal office or place of business in Canada, if any, and if the applicant has no office or place of business in Canada, the address of his principal office or place of business abroad and the name and address in Canada of some person, firm or corporation to whom any notice in respect of the registration may be sent, and upon whom service of any proceedings in respect of the registration may be made with the same effect as if they had been served upon the applicant himself.

(2) If the mark is intended to indicate that the wares in association with which it is used have been manufactured, sold, leased or hired by the owner thereof the application shall so indicate and shall contain

- (a) a concise description, expressed in such terms as are ordinarily and commercially used by the applicant, of the wares with which the applicant is commercially concerned;
- (b) a concise description in like terms of the specific wares in association with which the applicant has used the mark.

(3) If the mark is intended to indicate that the wares in association with which it is used are of a defined standard, or have been produced under defined working conditions, by a defined class of persons or in a defined area, the application shall so indicate and shall contain:

- (a) a statement that the applicant is not engaged in the manufacture, sale, leasing or hiring of wares similar to any wares in association with which the mark is used;
- (b) an exact definition of what the use of the mark in association with wares is intended to indicate in respect of the standard which such wares have attained, or of the working conditions under which or the class of persons by whom they have been produced or of the area in which they have originated.

31. (1) Every application for the registration of a trade mark shall state whether the applicant requests the registration of the mark as a word mark or as a design mark.

(2) If he requests the registration of the mark as a word mark, the letters and/or numerals constituting the mark shall be set out in the application in their proper grouping.

(3) If he requests the registration of the mark as a design mark, the application shall contain such a concise description of what the applicant considers to be its principal features as to enable the Registrar properly to index the mark; any words or figures shall be referred to, if at all, only as reading matter, and shall be described as being in a specified relation to the other features of the design and/or of a described general appearance, as the case may require, and the applicant shall furnish five accurate and complete representations of the design prepared on or attached to paper of the prescribed size.

AMENDMENT OF RECORD OF REGISTRATION

42. If the person who at any time appears from the record of the registration of a trade mark to be the owner of such mark represents to the Registrar that any amendment is required to any statement therefore recorded relating to the wares in which the owner of the mark is commercially concerned, or to the use of the mark, the address of the owner, or the person upon whom service may be made of proceedings in respect of the registration, the record shall, subject as hereinafter provided, be amended or added to accordingly.

NOTICES OF PROPOSED AMENDMENT
OR CANCELLATION AFTER NOTICE

49. (1) The Registrar may at any time, and shall at the request of any person who pays the prescribed fee, notify the person appearing from the register to be the owner of any trade mark that he considers, or that it has been represented to him that such trade mark has ceased to be used as a trade mark in Canada, or for any other specific reason to be set out in the notice, the registration of such mark should be cancelled or that an entry relating thereto should be struck out, corrected or amplified, and request him to advise whether he has any, and if any, what objection to the amendment of the register accordingly.

(2) If the person to whom such notice has been addressed agrees to the proposed amendment of the register in whole or in part, such amendment shall forthwith be made by the Registrar in accordance with such agreement.

(3) If, within three months from the despatch of such a notice as aforesaid, no reply to it has been received from the person to whom it was addressed, the Registrar shall send such person a second notice enclosing a copy of the first and stating that if, within a reasonable time to be fixed by the notice, no objection to the proposed amendment of the register is received, such amendment will be made, and, unless an objection is received within the time limited, the Registrar shall amend the register accordingly.

(4) Except as in the next following section provided, the Registrar shall not cause any amendment to be made in the register to which the person appearing therefrom to be the owner of the mark makes any objection.

RENEWAL OF REGISTRATION OF TRADE MARK

50. (1) If a mark has been on the register without renewal for the period hereinafter specified less four months, the Registrar shall take the action prescribed under the last preceding section on the ground that the person appearing from the register to be the owner thereof has ceased to use the same.

(2) In any such case the registration of the mark shall be cancelled notwithstanding objection on the part of the owner thereof, unless the prescribed fee for the renewal of the registration is paid within the time within which an objection to the cancellation of the registration might be made.

(3) The period specified in subsection one of this section shall be as follows:—

COPYRIGHT IN CANADA

COPYRIGHT IN CANADA

The new Canadian Copyright Act which was passed on 4th June, 1921 and amended on 13th June, 1923, came into force on 1st January, 1924. Further amendments were made to the Act on 11th June 1931.

On the same date a reciprocal arrangement between Canada and the United States became effective, the Minister having issued a certificate under subsection (2) of section 4 of the Copyright Act, 1921, extending the Act to the United States and the President of that country having issued a proclamation extending to Canada the protection afforded by the copyright legislation of the United States. On the same date Canada's adherence to the Revised Convention of Berne and the extension of the British Copyright Act, 1911, became effective.

By the amendment of 1931 the adherence of Canada to the Convention of Rome 1928 was given.

This Act introduces an entirely new principle into Copyright law inasmuch as it makes provision for licenses to enable Canadian publishers to publish in Canada certain books which have not been printed in Canada. Under this new Act, Copyright in an original work is obtained through authorship, without performing any formalities. Registration is entirely optional.

A summary of the more important provisions of the Copyright Act was published in the Canadian Almanac for 1929, page 456, but persons interested are advised to obtain a copy of the Act which may be had on application to the Trade Mark and Copyright Branch, Patent and Copyright Office, Ottawa.

PATENTS IN CANADA

The Patent Act, chapter 23 of the Statutes of 1923, was brought into force on the 1st September, 1923. This Act repealed the Patent Act, chapter 69, R.S.C., 1906. On the same date, Canada's adherence to the International Convention for the Protection of Industrial Property was secured. The principal provisions of this Act with amendments are given below.

The Commissioner of Patents—Ottawa—receives all applications and has charge of all records.

Any person contemplating obtaining a patent is advised to consult one of the patent solicitors, whose cards appear in this volume.

Any person who has invented any new and useful art, machine, manufacture or composition of matter, or any new and useful improvement thereof not known or used by any other person before his invention thereof and not patented or described in any printed publication in this or any foreign country more than two years prior to his application, and not in public use or sale in Canada for more than two years prior to his application for patent therefor in Canada, may on a petition to that effect, presented to the Commissioner, and on compliance with the other requirements of the Act, obtain a patent granting to such person an exclusive property in such invention.

No patent shall issue for an invention which has an illicit object in view, or for any mere scientific principle or abstract theorem.

An application for patent filed in Canada by any person who has previously filed an application for patent for the same invention in a foreign country which by treaty, convention or law offers similar privilege to citizens of Canada shall have the same force and effect as the same application would have if filed in Canada on the date on which said foreign application was first filed in such foreign country provided the application in Canada is filed within twelve months from the earliest date on which any such foreign application was filed or from the 13th June, 1923. But no patent shall be granted on an application for patent for an invention which had been patented or described in a patent or printed publication in this or

any foreign country more than two years before the date of filing of the application in Canada or which had been in public use or on sale in Canada for more than two years prior to such filing.

No patent granted on an application filed prior to the passing of the Act, or within 6 months thereafter, and within 2 years of date of grant of the first foreign patent granted for same invention, shall be void by reason of the filing date having been more than a year from date of filing of the first foreign application.

Every inventor shall, before a patent can be obtained, make oath or affirmation that he verily believes he is the inventor and that the several allegations in his petition are true.

Any person who has invented any improvement on any patented invention, may obtain a patent for such improvement; but he shall not thereby obtain the right of vending or using the original invention, nor shall the patent for the original invention confer the right of vending or using the patented improvement.

In the event of the inventor being dead or mentally or physically incapable, or if after the assignment of his invention the inventor refuses to make such oath or affirmation or if his whereabouts cannot be ascertained after diligent enquiries such oath or affirmation shall be made by the applicant and shall state that he verily believes that the person whose assignee or legal representative he is was the inventor and that the several allegations in the petition are true.

In any case where:—

(a) an applicant has agreed in writing to assign a patent when granted to another party or a joint applicant and refuses to proceed or (b) disputes arise between joint applicants; the Commissioner on proof of such agreement or being satisfied that one or more of such joint applicants ought to be allowed to proceed alone may allow such other party or joint applicant to proceed and may grant a patent to him. All parties, however, shall be entitled to be heard before the Commissioner after notice and an appeal from his decision lies to the Exchequer Court.

Every applicant shall state in his application, if resident in Canada, his address therein and if not so resident the name and address of some person resident in Canada to represent him for all purposes including the service of any proceedings taken under the Act. He shall also insert in his petition the title or name of his invention and send in a specification in duplicate thereof with an additional or third copy of the claim or claims.

The specification shall correctly and fully describe the invention and its operation or use as contemplated by the inventor. It shall set forth clearly the various steps in a process, or the method of constructing, making or compounding, a machine, manufacture, or composition of matter. It shall end with a claim or claims stating distinctly the things or combinations which the applicant regards as new and in which he claims an exclusive property and privilege.

Such specification shall bear the name of the place where, and the date when it is made and shall be signed by the applicant.

In the case of a machine or in any other case in which the invention admits of illustration by means of drawings, the applicant shall also send in drawings in duplicate showing clearly all parts of the invention; and each drawing shall bear the signature of the inventor, or of the applicant, or of their attorney, and shall have written references corresponding with the specification. The Commissioner may require further drawings or dispense with any of them.

One duplicate of the specification and of the drawings shall be annexed to the patent, of which it shall form an essential part.

In all cases in which the invention admits of representation by model, the applicant, if required by the Commissioner, shall furnish a model of convenient size exhibiting its several parts in due proportion; and when the invention is a composition of matter, the applicant, if required by the Commissioner, shall furnish specimens of the ingredients, and of the composition sufficient in quantity for the purpose of experiment. If such ingredients or composition be of an explosive or dangerous character, they shall be furnished with such precautions as are prescribed in the requisition therefor.

In the case of inventions relating to substances prepared or produced by chemical processes and intended for food or medicine the specification shall not include claims for the substance itself except when prepared or produced by the special methods or processes of manufacture described and claimed or by their obvious chemical equivalents; provided, that, in an action for infringement of a patent where the invention relates to the production of a new substance, any substance of the same chemical composition and constitution shall in the absence of proof to the contrary be deemed to have been produced by the patented process.

In the case of any patent for an invention intended for or capable of being used for the preparation or production of food or medicine, the Commissioner shall, unless he sees good reason to the contrary, grant to any person applying for the same a license limited to the use of the invention for the purposes of the preparation or production of food or medicine, but not otherwise; the Commissioner has power to settle the terms of such license and fix the amount of royalty or

other consideration payable and his decision shall be final subject to appeal to the Exchequer Court.

The Commissioner may object to grant a patent whenever he is satisfied that the applicant is not by law entitled thereto or when the invention has already been patented in which case he shall notify the applicant stating grounds or reason therefor and every applicant who has failed to obtain a patent by reason of the objection of the Commissioner may at any time within six months after notice thereof has been mailed to him or his agent by registered letter appeal from said decision to the Exchequer Court.

In case of conflicting applications for any patent provision is made for submitting same to the arbitration of three skilled persons, two of whom shall be chosen by the applicants, one by each, and the third by the Commissioner and the decision or award of such arbitrators, or any two of them, shall be final as far as concerns the granting of the patent.

Every patent granted in respect of an invention made by a person while employed in the public service of Canada and relating to the nature of his employment shall be subject to restrictions set out in the Act as to the patentee allowing others to make use of the patented invention without the consent of the Commissioner.

The term limited for the duration of every patent of invention is eighteen years.

Whenever any patent is deemed defective or inoperative by reason of insufficient description or specification, or by reason of the patentee claiming more or less than he had a right to claim as new, but at the same it appears that the error arose through inadvertence, accident or mistake, without any fraudulent or deceptive intention, the Commissioner may on the surrender of such patent, within four years from its date or within one year from the 13th June, 1923, and upon payment of a further fee of \$30.00 cause a new patent to be issued.

The patent may be assigned, but same unless duly registered in the Patent Office shall be null and void as against any subsequent assignee.

Every person who, without the consent in writing of the Patentee, makes, constructs, or puts into practice any invention for which a patent has been obtained, or who procures such invention from any person not authorized by the patentee, and who uses it, shall be liable to the patentee, or his legal representative, in damages.

Any action for infringement of the patent may be brought in any Court of record having jurisdiction to the amount of the damages claimed in the Province in which the infringement is alleged to have taken place. Proceedings may also be taken in the Exchequer Court, which has jurisdiction over the entire Dominion of Canada.

Every patent except those governed by the provisions of the Act re-granting of patents to persons in the public service shall be subject to the following conditions:—

(a) The patentee shall satisfy the reasonable requirements of the public with reference to his patent and shall adequately manufacture the patented article or carry on the patented process within Canada.

(b) Any person interested may present a petition to the Commissioner alleging same has not been done and asking that the patentee be ordered to supply the patented article at a reasonable price or grant licenses for the use thereof on reasonable terms.

(c) The Commissioner shall then consider the petition and after hearing the parties may grant relief.

Such order may not be made, however, before the expiration of three years from the date of the patent. The Commissioner, however, with the approval of the Minister, instead of hearing and determining the matter himself, may refer the petition to the Exchequer Court.

At any time not less than three years after the date of a patent any person may apply to the Commissioner for the revocation of the patent on the ground that the patented article or process is manufactured or carried on exclusively or mainly outside Canada and the Com-

missioner may make an order revoking the patent forthwith or after such reasonable interval as may be mentioned in the order. No such order, however, may be made which is at variance with any treaty, etc., with any foreign country. The time limited in the order may be extended by the Commissioner for a further period not exceeding 12 months.

Where any patent has become void under prior Patent Act for non-payment of fees or failure to construct or manufacture or because of importation of the invention the patentee may within two years from the date of such voidance apply to the Commissioner for an order for the restoration and revival of the patent.

Every patentee shall stamp or engrave on each patented article sold or offered for sale by him the year of the date of the patent of such article, thus:—"Patented 1923," or as the case may be; or when, from the nature of the article, this cannot be done, then by affixing to it, or to every package where one or more of such articles is or are enclosed, a label marked with a like notice. For violation of this provision there is imposed a penalty not exceeding \$100.00, and, in default of payment thereof, imprisonment for a term not exceeding two months.

Falsely marking an article as patented with the intent of counterfeiting or imitating the stamp, mark, or device of the patent of another person, or of deceiving the public, or offering for sale as patented any article not patented in Canada, is a misdemeanour, and for which there is a fine not exceeding \$200.00, or imprisonment for a term not exceeding three months, or both.

Any intending applicant for a patent who has not yet perfected his invention, and is in fear of being despoiled of his idea, may file in the Patent Office a description of his invention so far as it has proceeded, with or without plans, at his own will, and the Commissioner, on payment of the prescribed fee, shall cause the said document, which shall be called a caveat, to be preserved in secrecy, and, if application is made by any other person for a patent interfering in any way therewith, the Commissioner shall forthwith give notice, by mail, of such application

to the person filing such caveat, who shall, within three months thereafter, if he wishes to avail himself of the caveat, file his petition, and take the other steps necessary on an application for a patent. The application for the patent must be made within one year from filing of caveat, otherwise the Commissioner is relieved from the obligation of giving notice. Patents do not prevent the necessary use of any invention in any foreign sea or air-craft or land vehicle entering the country temporarily.

The Government of Canada may, at any time, use any patented invention by paying to the Patentee such sum as the Commissioner reports to be a reasonable compensation for the use thereof.

All specifications, drawings, models, disclaimers, judgments, and other papers, except caveats, shall be open to the inspection of the public at the Patent Office, under such regulations as are adopted in that behalf.

The following fees shall be payable before an application for any of the purposes herein mentioned shall be received by the Commissioner, that is to say:—On filing an application for patent, \$15.00; on grant of patent, \$20.00; (Payable on pain of forfeiture within six months from the date of notice of the allowance of patent). On lodging a caveat, \$5.00; on asking to register a judgment pro tanto, \$4.00; on asking to register an assignment, or any other document affecting or relating to a patent, \$2.00; for each and every patent mentioned in any notice given to the Commissioner by the Inventor after the issue of a foreign patent of his invention to apply for a patent in Canada for such invention, \$2.00; on asking to attach a disclaimer to a patent, \$2.00; on asking for a copy of patent with specifications, \$4.00; on petition to re-issue a patent after surrender, \$30.00; on filing an application for restoration and renewal of a patent \$35.00; on office copies of documents, not above mentioned, the following charges shall be made: for every single or first folio of one hundred words, certified copy, \$0.25; for every such subsequent folio, fractions of or under one-half not being counted, and of one-half or more being counted as a folio, \$0.10.

(Founded 1900, Dominion Charter, 1922)

The Frontier College brings to migratory workers employed in camps and frontier places constructive leadership and opportunity for study. This is done through the medium of a labourer-teacher who goes to the camp and engages during the day in the same manual work as the men among whom he is employed. These labourer-teachers, mostly graduates, or men in their final years, are drawn from the various universities across Canada. Since the inception of the work more than 1600 university men have served as labourer-teachers for the Frontier College.

In 1934 a staff of 72 labourer-teachers were employed in frontier camps across the Dominion. 4217 adults—foreign-born and English- and French-speaking Canadians enrolled in study classes.

Art Galleries and Museums in Canada

NATIONAL GALLERY OF CANADA, OTTAWA: *Board of Trustees*—Harry S. Southam, *Chairman*; Hon. Vincent Massey, Norman MacKenzie, K.C., J. O. Marchand, R.C.A., E. B. Hosmer; *Director*, Eric Brown; *Asst. Director and Secretary*, H. O. McCurry.

Open every week-day, except Christmas Day, from 10 to 5. Sunday, 2 to 5.

Founded in 1880. The collections of pictures, statuary and other works of art now housed in the National Museum Building, Ottawa, consist of purchases made by means of annual grants voted by the Dominion Parliament, the diploma works of members of the Royal Canadian Academy, and gifts and loans by persons interested in art. In 1907 an Advisory Arts Council was appointed by the government and in 1913 the National Gallery of Canada Act (3-4 Geo. V, c. 33) was passed constituting this body an incorporated Board of Trustees for the management of the National Gallery, the administration of its annual grants, and for the encouragement of art generally throughout the Dominion.

Among the paintings now in the National Gallery are works by Botticelli, Titian, Morland, Romney, Tintoretto, Del Piombo, Veronese, Moroni, Moro, Murillo, Canaletto, Bronzino, Hans Eworth, Caravaggio, Andrea del Sarto, Rubens, Luca Giordano, Goya, Daniel Mytens, Chardin, Hogarth, Ruysdael, Cranach, Crome, Reynolds, Gainsborough, Lawrence, a splendid collection of more modern works, particularly of the contemporary British school, and the most complete and representative collection of Canadian art in existence.

The Department of Prints and Drawings contains some fine examples of the great German, Netherlands, Italian, French and English schools of engraving from their beginnings to the present times. The collection is richest in the French artists of the 19th. century, and in the Turner school of engravers, the most important of the latter being a complete set of the "Liber Studiorum" and the "Southern Coast", mostly in engraver's proofs and first states, with many of the preliminary etchings. The collection of drawings consists of examples of various Italian, French, Spanish and English masters, with a noteworthy group of drawings by Thomas Rowlandson.

The National Gallery will lend to any body or society in Canada which possesses the necessary facilities, a collection of Canadian paintings, either for one year or for shorter periods.

A series of good colour reproductions suitable for use in schools brings the benefits of the National Gallery to every part of the country. Written lectures on various phases of art, each illustrated by 40 or 50 good slides, are sent free, except for transportation costs, to any study group in Canada.

THE NATIONAL MUSEUM OF CANADA, OTTAWA

The National Museum of Canada originated in the Geological Survey of Canada, which was founded in 1842 by Sir William Logan. Authority to designate it the "National Museum of Canada" was given by Order-in-Council P.C. 2615 of January 5, 1927. Formerly it was designated the Victoria Memorial Museum, but this name now applies only to the building situated on McLeod Street, erected in 1910.

The National Museum exhibits collections illustrating the natural history of the Dominion; its Geology, Mineralogy, Palaeontology, Biology and Anthropology. The study collections are open to research by properly qualified students and certain classes of specimens, e.g., birds and mammals are available for loan under restriction. Collections of Canadian minerals and rocks are supplied to schools or individuals at reasonable prices. The Museum has a large collection of photographs of Indian and Eskimo life, birds, etc. Relief models, photographs, prints, lantern slides and motion picture films may be obtained at very moderate prices.

Director (Acting),—W. H. Collins, B.A., Ph.D., F.R.S.C.

Division of Geology,—Maintained in conjunction with the Geological Survey, has no persons especially allotted for its care and maintenance. The coal exhibit is particularly fine and other exhibits worthy of note are those of gold, silver, cobalt, nickel, lead, graphite, asbestos and talc.

Division of Geography,—Maintained in conjunction with the Geological Survey; D. A. Nichols, physiographer. A recent addition, consisting as yet chiefly of relief models, photographs, etc. The most notable feature is a relief model of Canada, scale 1:1500000, on the natural curvature of the earth.

Division of Mineralogy, (Geological Survey)—E. Poitevin, B.A., B.Sc., D.Sc., Chief of the Division; H. V. Ellsworth, B.A., M.A., Ph.D., Mineralogist; R. J. C. Fabry, B.Sc., Chemist; R. A. A. Johnston, Hon. Curator.

The museum possesses the finest collection of Canadian minerals and also has a large foreign collection.

Division of Palaeontology, (Geological Survey)—E. M. Kindle, M.Sc., Ph.D., F.R.S.C., Chief of the Division; W. A. Bell, B.Sc., Ph.D., Palaeobotanist; F. H. McLearn, B.E., Ph.D., Invertebrate Palaeontologist; A. E. Wilson, B.A., Ph.D., Invertebrate Palaeontologist; C. M. Sternberg, Collector-Preparator-Specialist.

The exhibits in the Hall of Palaeontology include two series of invertebrate fossils, one arranged in biological order, the other assembled on a stratigraphic basis.

Division of Biology,—R. M. Anderson, Ph.B., Ph.D., Chief of the Division; P. A. Taverner, Ornithologist; C. L. Patch, Taxidermist & Herpetologist; Hon. Curators: J. H. Fleming, Ornithology; Arthur Gibson, Entomology.

The biological collections are the largest and most complete in Canada. The systematic collection of mounted mammals contains several good groups. The research collection contains about 8,000 skins and skeletons of recent mammals. It includes specimens of 300 of the approximately 470 species and sub-species of mammals known to occur in Canada.

The National Herbarium contains more than 120,000 sheets of plants, phanerogams, and cryptogams, including specimens in large series from every province of Canada as well as many from other countries.

Division of Anthropology—D. Jenness, M.A., C.M. Barbeau, B.A., LL.D., B.Sc., Ethnologists; H. I. Smith, A.M., Archaeologist; W. J. Wintenburg, Assistant Archaeologist.

The two large halls devoted to Anthropology and Archaeology are arranged geographically to illustrate the arts and industries of the Indians of Canada under different climatic and economic conditions.

Library, (Geological Survey)—Mrs. F. E. Forsey, Librarian. A library containing more than 50,000 volumes on natural history and related subjects is maintained. Books or periodicals will be lent under restriction to responsible persons or institutions.

ROYAL ONTARIO MUSEUM

Bloor Street and Avenue Road, Toronto

ROYAL ONTARIO MUSEUM OF ARCHÆOLOGY—Prof. C. T. Currelly, O. Medj., M.A., LL.D., F.R.S.C., F.S.A., *Director*; H. A. Thompson, Ph.D., *Keeper of Classical Collections*; T. F. McIlwraith, M.A., F.R.A.I., *Keeper of Ethnographical Collections*; W. C. White, D.D., (Bishop), *Keeper of East Asiatic Collections*.

The museum possesses large collections that show the primitive skill of the men in the Palaeolithic, Neolithic, Copper, and Bronze ages. The early grain civilizations are illustrated in five galleries of Babylonian and Egyptian objects; the classical period occupies ten galleries, and ethnology and the American Indian twelve. Of civilization later than that of Rome special attention has been given to the collection of arms, glazed earthenware, Chinese ceramics, Japanese work, woodwork and furniture, textiles, embroideries and laces.

The collections have been formed to teach as far as possible the history of mechanical work, and to be a stimulus to the modern worker.

ROYAL ONTARIO MUSEUM OF GEOLOGY—Professor E. S. Moore, M.A., Ph.D., *Director*.

The exhibits are partly arranged on an economic basis, sections being devoted to ores, fuels, ceramics, building stones, abrasives, refractories, etc. Especial attention has been directed to building

and ornamental stones, copper, nickel, silver and gold ores, Canadian coals, etc. The geology of famous mining regions is illustrated by mine models and suites of specimens among which the series from the nickel region of Sudbury, the Porcupine gold field and the Cobalt silver area are particularly complete. Glacial geology has received particular attention: striated surfaces, striated stones, and tillites are represented from all the known Ice ages and from all parts of the world. Dynamic and Structural Geology are well represented by numerous specimens and models.

ROYAL ONTARIO MUSEUM OF MINERALOGY—Professor T. L. Walker, Ph.D., F.G.S., *Director*: Prof. A. L. Parsons, B.A., *Assistant Director*.

This museum contains an unusually complete series of minerals from all parts of the world as well as a special collection of Canadian minerals for study by visitors particularly interested in the minerals and ores of Canada. The museum also contains collections of crystals, rocks, meteorites, radium minerals, and gem-stones.

A large part of these collections has been presented by persons connected with the mining industry.

ROYAL ONTARIO MUSEUM OF PALEONTOLOGY—Professor W. A. Parks, Ph.D., F.R.S., *Director*.

The museum contains extensive series of Invertebrate fossils arranged to illustrate the anatomy and classification of the different zoological branches, and to indicate the important faunas of the geological ages. Vertebrate fossils are represented by numerous reptiles and by an excellent collection of mammals and fishes. The mounted skeletons of dinosaurs from Alberta are a feature of especial importance. Fossil plants are shown by good series of Carboniferous, Cretaceous, and Inter-glacial forms. The collections contain, also, a special Canadian series designed for the use of students of Canadian geology. A special series to illustrate, in a popular way, the development of life has recently been installed.

Much unique material is included in the exhibits, and many type specimens of particular value, e.g., Matthew's types of Cambrian fossils from eastern Canada and type dinosaurs from the Cretaceous formations of Alberta.

ROYAL ONTARIO MUSEUM OF ZOOLOGY—Professor J. R. Dymond, M.A., *Director*.

Contains exhibits of representative groups of the animals of the world with special attention to those of Canada; about 1,000 mounted birds and 300 mammals; coloured casts of Canadian amphibians and reptiles and a notable series of coloured casts of Canadian fishes; extensive research collections of most animal groups, especially Canadian.

LIFE ASSURANCE IN CANADA

The business of life assurance in Canada during the year 1933, was conducted by 42 active companies—27 Canadian, 6 British, 9 Foreign.

NEW ASSURANCES EFFECTED

In the year under review, the net amount of new policies effected amounted to \$578,593,659, a decrease from those taken out in the preceding year of \$74,655,707. The respective amounts effected in each of the three classes of companies were:

Canadian Companies, \$353,733,137.
British Companies .. 13,930,045.
Foreign Companies.. 210,930,477.

It will be observed that the business of the Canadian companies exceeded that of the British and United States together by \$128,872,615.

TOTAL ASSURANCE IN FORCE

The net amount of life assurance in force December 31st, 1933, amounted to \$6,247,548,167, a decrease under that of the previous year of \$224,060,379. The distribution is shown as follows:

Companies	Amount in Force	Decrease
	\$	\$
Canadian.....	4,160,271,570	151,476,122
British and Colonial....	113,810,109	2,021,210
United States.....	1,973,466,488	70,563,047
Total.....	\$6,247,548,167	\$224,060,379

The progress of the business, from the standpoint of the volume of life assurance carried by the several classes of companies, is evidenced when a comparison is instituted with the figures applicable at the close of the four previous decades:

LIFE ASSURANCE IN FORCE IN CANADA AT CLOSE OF

Year	Canadian Companies	British Comp'ies	Foreign Companies	Total
	\$	\$	\$	\$
1888	114,034,279	30,003,210	87,724,094	211,761,583
1898	226,209,636	36,606,195	105,708,154	368,523,985
1908	480,266,931	46,161,957	193,087,126	719,516,014
1918	1,105,503,447	60,296,113	619,261,713	1,785,061,273
1928	3,671,325,188	115,340,577	1,820,979,858	5,607,645,623
1933	4,160,271,570	113,810,109	1,973,466,488	6,247,548,167

From \$211,761,583 in 1888 to \$6,247,548,167 in 1933, represents a tremendous increase in forty-five years.

DEATH RATE

The death rate in the several classes of companies was determined approximately by a comparison of the mean number of policies in force with the number of policies which became claims by death. The death rate thus ascertained for 1932 was 6·8. The following table gives the rate per 1,000 for each of the years 1928-29-30 31-32:

	1932	1931	1930	1929	1928

ASSETS, LIABILITIES, NEW ASSURANCES, CANADIAN COMPANIES

In determining the relative merits of life assurance companies, a number of factors must be considered. The expense rate, interest rate, rate of mortality experienced, class of investments, character of the men who compose the directorate, and the officers should be considered, etc. Because a company's assets, new assurances, or total assurances in force may run into large figures, these in themselves would not necessarily determine the superiority of the company. As a matter of reference, however, the following items are given for Canadian companies with Dominion charters for the year ending December 31st, 1933:

STOCK TRANSFER TAX, ONTARIO

Upon every change of ownership consequent upon the sale, transfer or assignment of any share of stock of any association, company or corporation, or of any bond, debenture or share of debenture stock made or carried into effect in Ontario, or of any participating interest in the operations or profits of an association, company or corporation, represented by certificates or other instruments of title capable of being sold, transferred or assigned, including mineral deeds, oil royalties, and fixed investment trust shares issued by a trustee and representing an equitable ownership in deposited securities, and upon every order given in Ontario for the sale, transfer or assignment of any such securities when the order is to be executed outside of Ontario, there shall be imposed, levied and collected a transfer tax. The Scale of Tax is the same as for The Dominion of Canada shown above.

These stamps and any further information may be obtained from W. R. Houston, 238 Bay Street, Toronto 2.

SECURITY TRANSFER TAX, QUEBEC

In this act:

1. The words "foreign government" designate all governments other than those of the Dominion of Canada and of the Provinces of such Dominion;
2. The word "security" means and includes:
a. Any share, debenture, debenture-stock and any bond issued by any corporation, company or foreign government;

b. Any undivided interest commonly called a unit, in a group of shares, debentures, debenture-stock and/or bonds held in trust or in ownership, by a person, firm or corporation, evidenced by any document whatsoever.

There shall be levied a tax upon every change of ownership of securities, consequent upon the sale, transfer or assignment thereof, made or carried into effect in this Province, and upon every order given in the Province for the sale or assignment of securities, provided that such order be executed outside of the Province.

Tax to be paid in money or stamps to the value of 2 cents, if par value is less than ten dollars; three cents, if the par value is ten dollars or more but does not exceed one hundred dollars, and three cents for every hundred dollars or fraction of the hundred dollars, if such par value exceeds one hundred dollars. However, if the market value of the security is less than ten dollars, such tax will be only two cents for every such security.

In the case of shares which have no fixed par value, the tax is 2 cents for every such share or unit if the market value thereof is less than ten dollars, three cents for every such share or unit if the market value thereof is ten dollars or more but does not exceed one hundred dollars, and three cents for every hundred dollars or fraction of one hundred dollars, if the market value thereof exceeds one hundred dollars.

When a share, or a unit, having no par value and no market value is concerned, such tax shall be three cents for every such share or unit.

Nevertheless, in the case of shares which have no fixed par value, issued by a mining company, the tax shall be three cents for every hundred dollars or fraction thereof of the market value of such shares or units forming a single transaction.

The stamps shall in all cases be supplied and affixed by the vendor, transferrer or assignor.

This act shall not apply to any transfer or assignment of shares, bonds, debentures or debenture-stock made bona fide for the security of loans, nor to the re-transfer or re-assignment of the same to the borrower, nor to any transmission owing to death.

Stamps are sold by a revenue officer appointed by the Provincial Treasurer at Montreal and Quebec. For further information, apply to the Comptroller of Provincial Revenue, Quebec.
